The civil rights injunction for the protection of fundamental rights Allan R. Brewer Carias,2023-11-24 This book on The Civil Rights Injunction for the protection of Fundamental Rights The Latin American Amparo Proceeding is the original version of the text I wrote for the Course of Lectures I gave as Adjunct Professor of Law on a Seminar on Judicial Protection of Fundamental Rights in Latin America the Amparo Proceeding at the Columbia Law School in New York University of Columbia during the years 2006 2008 The Seminar was intended to examine the most recent trends in the constitutional and legal regulations in all Latin American countries regarding the amparo suit action or recourse including the old habeas corpus writ and the new habeas data actions or recourses By means of a comparative constitutional law approach also with reference to the United States civil rights injunctions the Course analyzed this Latin American institution departing from the regulation of the amparo guarantee established in Article 25 of the 1969 American Convention of Human Rights which entered into force in 1978 after being ratified by all Latin American States The amparo suit or proceeding is not only an effective judicial means for the restoration of the injured constitutional rights that has been harmed similar to the reparative or restorative civil rights injunctions in the United States but it is also the effective judicial means for the protection of such rights and guarantees when threatened to be violated or harmed This latter amparo suit is then similar to the preventive civil rights injunctions in the United States preventive in the sense of avoiding harm which in this case seeks to prohibit some discrete act or series of acts from occurring in the future and is designed to avoid future harm to a party by prohibiting or mandating certain behavior to another party From this point of view thus in a constitutional comparative law approach the Latin American amparo action or proceeding is a judicial remedy similar to the civil rights injunctions restorative or preventive in the United States Allan R Brewer Car as U.C. Remedies, Teacher's Manual for Cases and Problems Elaine W. Shoben,W. Murray Tubb,1989-08 *The Legal, Real and Converged Interest in Declaratory Relief* Beata Gessel-Kalinowska vel Kalisz,2019-05-16 Worldwide in both litigation and arbitration the term declaration refers to both what is sought by the

parties and what is granted by the judicial authority In the latter case it can be construed as a remedy known as declaratory relief where the plaintiff seeks an authoritative judicial statement of the legal relationship Although of enormous significance in dispute resolution declaratory relief has not been analysed in detail until this deeply informed study The book's main focus is on declaratory relief relating to disputes resolved within the framework of international commercial arbitration and litigation Focusing on the notion of legal interest which the author views as a serious limitation of access to justice the book sets out to redefine the term in order to respond to the needs of modern legal dealing Issues and topics such as the following are thoroughly considered the concept of legal interest as a prerequisite to granting a declaration circumstances under which relief based on a declaratory judgment may be granted determination of a plaintiff's legal interest in having a legal relationship established by a judicial ruling powers of the court or tribunal in various jurisdictions emphasizing the contrast between legal interest in Germanic law and real interest in English law combining a declaration with a coercive measure role of the arbitration agreement and applicable arbitration law and how arbitration can neutralize the strict notion of legal interest converged interest Case law including numerous previously unpublished arbitration awards is fully taken into account The final chapter elaborates a new interpretation of the declaratory relief concept encompassing civil substantive and procedural law enriched by theory of justice comparative analysis and statistical analysis Apart from the foregoing analysis by the Author the publication is supplemented with an annex which presents expert reports by local practitioners on the relevant legal characteristics in Germanic civil law jurisdictions Austria Germany Poland and Switzerland Given that recent legal scholarship has been increasingly insistent that judicial practice should evolve towards broader use of declarations particularly where interpretation of contractual stipulations is necessary this book holds a crucial place in current theory and practice in both litigation and arbitration contexts With its challenging redefinition of the legal interest concept it promises to play an important role in formulation of relief in dispute resolution particularly in international commercial arbitration Lawyers and arbitrators will benefit from awareness of how other tribunals decide and how awards can be formulated and arbitration institutions as well as academics in the field will welcome this deeply informative analysis
