Remembering Jewish Amsterdam:

Remembering Jewish Amsterdam Philo Bregstein, Johanna Katherina Barends, 2004 This book consists of fragments of 77 interviews with Holocaust survivors who talk about their life in Amsterdam before the war The authors use this rich material to compose a collective mosaic of memories that provide a fascinating view of Jewish life in Amsterdam during the years between 1900 and 1940 By dividing the material into chapters dealing with such topics as professions religion housing conditions emancipation Jews and Gentiles and immigration it becomes clear how many opinions on these subjects existed within the community Amsterdam from the 17th century until the German occupation in 1940 and shows that for centuries it was one of the most important community in Western Europe While the Holocaust which claimed the lives of three quarters of the Amsterdam Jews casts a shadow over the memories of the interviewees these testimonies re create the spirit of time and place and present a vivid picture of a little known past erased by war

qualitative analysis to investigate individual and small group manifestations of Jewish resistance during the German occupation of the Netherlands between 1940 and 1945 This study contributes to historiography but its focus enables a different interpretation and displays a new view of history It is a scholarly work but also accessible for the general reader interested in this subject *House of Memories* Arnoud-Jan Bijsterveld, 2016 Accompanying videodisc contains Here was Bertram search for a lost life Kan hayah Ber ram ipu a ar ayim avudim a film by Carine Van Vugt and Jeroen Neus Verhalis Production Co 2012 **Histories of Health** Paul Puschmann, Sanne Muurling, Tim` Riswick, Jan Kok, 2025-09-01 Over the past two and a half centuries the global population has witnessed significant improvements in health and longevity with life expectancy at birth more than doubling in many regions This transformation ranks among the greatest achievements in human history This volume brings together studies that reveal the complexity behind this transformation and provide a broad exploration of how these histories of health have evolved across different social and geographic contexts The contributions explore how mortality and morbidity were recorded understood and experienced focusing on the roles of social class migration status and sex as well as demographic shifts and local conditions in shaping patterns of infant childhood and adult mortality Collectively these studies demonstrate that the history of health cannot be understood as a straightforward narrative of continuous linear progress Instead they demonstrate it is a multifaceted process marked by societal challenges unequal access to resources and ongoing efforts by individuals and communities to adapt and survive in a changing world

The Remembered and Forgotten Jewish World Daniel J. Walkowitz, 2018-09-05 Part travelogue part social history and part family saga this book investigates the politics of heritage tourism and collective memory Acclaimed historian Daniel J Walkowitz visits key Jewish heritage sites from Berlin to Belgrade to Warsaw to New York to discover which stories of the Jewish experience get told and which get silenced *The Memorial Ethics of Libeskind's Berlin Jewish Museum* Arleen Ionescu, 2017-02-20 This book is a detailed critical study of Libeskind's Berlin Jewish Museum in its historical architectural and philosophical context Emphasizing how the Holocaust changed our perception of history memory witnessing and representation it develops the notion of memorial ethics to explore the Museum's difference from more conventional post World War Two commemorative sites The main focus is on the Museum as an experience of the materiality of trauma which engages the visitor in a performative duty to remember Arleen Ionescu builds on Levinas's idea of ethics as optics to show how Libeskind's Museum becomes a testimony to the unrepresentable Other Ionescu also extends the Museum's experiential dimension by proposing her own subjective walk through Libeskind's space reimagined as a literary museum Featuring reflections on texts by Beckett Celan Derrida Kafka Blanchot Wiesel and Selma Meerbaum Eisinger Celan's cousin this virtual tour concludes with a brief account of Libeskind's analogous healing project for Ground Zero *Dutch Racism* Philomena Essed, Isabel Hoving, 2014-03-01 Dutch Racism is the first comprehensive study of its kind The approach is unique not comparative but relational in unraveling the legacy of racism in the Netherlands and the former colonies Authors

contribute to identifying the complex ways in which racism operates in and beyond the national borders shaped by European and global influences and intersecting with other systems of domination. Contrary to common sense beliefs it appears that old fashioned biological notions of race never disappeared. At the same time the Netherlands echoes if not leads a wider European trend where offensive statements about Muslims are an everyday phenomenon. Dutch Racism challenges readers to question what happens when the moral rejection of racism loses ground. The volume captures the layered nature of Dutch racism through a plurality of registers, methods and disciplinary approaches from sociology and history to literary analysis, art history and psychoanalysis, all different elements competing for relevance, truth value and explanatory power. This range of voices and visions offers illuminating insights in the two closely related questions that organize this book: what factors contribute to the complexity of Dutch racism? And why is the concept of racism so intensely contested? The volume will speak to audiences across the humanities and social sciences and can be used as textbook in undergraduate as well as graduate courses.

Amsterdam's People of the Book Benjamin E. Fisher, 2020-03-30. The Spanish and Portuguese Jews of seventeenth century Amsterdam cultivated a remarkable culture centered on the Bible. School children studied the Bible systematically while rabbinic literature was pushed to levels reached by few students; adults met in confraternities to study Scripture and families listened to Scripture based sermons in synagogue and to help pass the long cold winter nights of northwest Europe. The community's rabbis produced creative and often unprecedented scholarship on the Jewish Bible as well as the New Testament. *Amsterdam's People of the Book* shows that this unique Bible centered culture resulted from the confluence of the Jewish community's Catholic and converso past with the Protestant world in which they came to live. Studying Amsterdam's Jews offers an early window into the prioritization of the Bible over rabbinic literature, a trend that continues through modernity in western Europe. It allows us to see how Amsterdam's rabbis experimented with new historical methods for understanding the Bible and how they grappled with doubts about the authority and truth of the Bible that were growing in the world around them. *Amsterdam's People of the Book* allows us to appreciate how Benedict Spinoza's ideas were in fact shaped by the approaches to reading the Bible in the community where he was born, raised and educated. After all, as Spinoza himself remarked before becoming Amsterdam's most famous heretic and one of Europe's leading philosophers and biblical critics, he was steeped in the common beliefs about the Bible from childhood on. *The*

Dislocated Memories Tina Frühauf, Lily E. Hirsch, 2014 The first volume of its kind *Dislocated Memories* Jews Music and Postwar German Culture draws together three significant areas of inquiry Jewish music German culture and the legacy of the Holocaust Jewish music a highly debated topic encompasses a multiplicity of musics and cultures reflecting an inherent and evolving hybridity and transnationalism German culture refers to an equally diverse concept that in this volume includes the various cultures of prewar Germany occupied Germany the divided and reunified Germany and even German Jewish memory which is not necessarily physically bound to Germany In the context of these perspectives the volume makes powerful arguments on about the impact of the Holocaust and its aftermath in changing contexts of musical performance and composition In doing so the essays in *Dislocated Memories* cover a wide spectrum of topics from the immediate postwar period with music in the Displaced Persons camps to the later twentieth century with compositions conceived in response to the Holocaust and the klezmer revival at the turn of this century *Dislocated Memories* builds on a wide range of recent and critical scholarship in Cold War studies cultural history German studies Holocaust studies Jewish studies and memory studies What binds these distinct fields tightly together are the contributors specific theoretical inquiries that reflect separate yet interrelated themes such as displacement and memory While these concepts link the multi faceted essays on a micro level they are also largely connected in their conceptual query by focus on the macro level on the presence and the absence of Jewish music in Germany after 1945 Filled with original research by scholars at the forefront of music history and Jewish studies *Dislocated Memories* will prove an essential text for scholars and students alike

We Remember with Reverence and Love Hasia R Diner, 2009-04-01 Winner of the 2009 National Jewish Book Award in American Jewish Studies Recipient of the 2010 Guggenheim Fellowship in Humanities Intellectual Cultural History It has become an accepted truth after World War II American Jews chose to be silent about the mass murder of millions of their European brothers and sisters at the hands of the Nazis In this compelling work Hasia R Diner shows the assumption of silence to be categorically false Uncovering a rich and incredibly varied trove of remembrances in song literature liturgy public display political activism and hundreds of other forms We Remember with Reverence and Love shows that publicly memorializing those who died in the Holocaust arose from a deep and powerful element of Jewish life in postwar America Not only does she marshal enough evidence to dismantle the idea of American Jewish forgetfulness she brings to life the moving and manifold ways that this widely diverse group paid tribute to the tragedy Diner also offers a compelling new perspective on the 1960s and its potent legacy by revealing how our typical understanding of the postwar years emerged from the cauldron of cultural divisions and campus battles a generation later The student activists and new Jews of the 1960s who in rebelling against the American Jewish world they had grown up in a world of remarkable affluence and broadening cultural possibilities created a flawed portrait of what their parents had or rather had not done in the postwar years This distorted legacy has been transformed by two generations of scholars writers rabbis and Jewish community leaders into a taken for granted truth

Remembering the Holocaust in a Racial State Roni Mikel-Arieli, 2022-07-18 The lens of apartheid era Jewish commemorations of the Holocaust in South Africa reveals the fascinating transformation of a diasporic community Through the prism of Holocaust memory this book examines South African Jewry and its ambivalent position as a minority within the privileged white minority Grounded in research in over a dozen archives the book provides a rich empirical account of the centrality of Holocaust memorialization to the community's ongoing struggle against global and local antisemitism Most of the chapters focus on white perceptions of the Holocaust and reveals the tensions between the white communities in the country regarding the place of collective memories of suffering in the public arena However the book also moves beyond an insular focus on the South African Jewish community and in very

different modality investigates prominent figures in the anti apartheid struggle and the role of Holocaust memory in their fascinating journeys towards freedom

Diamonds and War David De Vries, 2010-04-01 The mining of diamonds their trading mechanisms their financial institutions and not least their cultural expressions as luxury items have engaged the work of historians economists social scientists and international relations experts Based on previously unexamined historical documents found in archives in Belgium England Israel the Netherlands and the United States this book is the first in English to tell the story of the formation of one of the world's main strongholds of diamond production and trade in Palestine during the 1930s and 1940s The history of the diamond cutting industry characterized by a long standing Jewish presence is discussed as a social history embedded in the international political economy of its times the genesis of the industry in Palestine is placed on a broad continuum within the geographic and economic dislocations of Dutch Belgian and German diamond cutting centers In providing a micro historical and interdisciplinary perspective the story of the diamond industry in Mandate Palestine proposes a more nuanced picture of the uncritical approach to the strict boundaries of ethnic based occupational communities This book unravels the Middle eastern pattern of state intervention in the empowerment of private capital and recasts this craft culture's inseparability from international politics during a period of war and transformation of empire

Leaving the Jewish

Fold Todd Endelman, 2015-02-22 The definitive history of conversion and assimilation of Jews in Europe and America from the eighteenth century to the present Between the French Revolution and World War II hundreds of thousands of Jews left the Jewish fold by becoming Christians or in liberal states by intermarrying Telling the stories of both famous and obscure individuals Leaving the Jewish Fold explores the nature of this drift and defection from Judaism in Europe and America from the eighteenth century to today Arguing that religious conviction was rarely a motive for Jews who became Christians Todd Endelman shows that those who severed their Jewish ties were driven above all by pragmatic concerns especially the desire to escape the stigma of Jewishness and its social occupational and emotional burdens Through a detailed and colorful narrative Endelman considers the social settings national contexts and historical circumstances that encouraged Jews to abandon Judaism and factors that worked to the opposite effect Demonstrating that anti Jewish prejudice weighed more heavily on the Jews of Germany and Austria than those living in France and other liberal states as early as the first half of the nineteenth century he reexamines how Germany's political and social development deviated from other European states Endelman also reveals that liberal societies such as Great Britain and the United States which tolerated Jewish integration promoted radical assimilation and the dissolution of Jewish ties as often as hostile illiberal societies such as Germany and Poland Bringing together extensive research across several languages Leaving the Jewish Fold will be the essential work on conversion and assimilation in modern Jewish history for years to come *The Faith of Remembrance* Nathan Wachtel, 2013-02-21 In a series of intimate and searing portraits Nathan Wachtel traces the journeys of the seventeenth and eighteenth century Marranos Spanish and Portuguese Jews who were forcibly converted to Catholicism but secretly retained their own faith Fleeing persecution in their Iberian homeland some sought refuge in the Americas where they established transcontinental networks linking the New World to the Old The Marranos at once Jewish and Christian outsiders and insiders nurtured their hidden beliefs within their new communities participating in the economic development of the early Americas while still adhering to some of the rituals and customs of their ancestors In a testament to the partial assimilation of these new arrivals their faith became ever more syncretic mixing elements of Judaism with Christian practice and theology In many cases the combination was fatal Wachtel relies on inquisitorial archives of trials and executions to chronicle legal and religious prosecutions for heresy From the humble Jean Vicente to the fabulously wealthy slave trafficker Manuel Bautista Perez from the untutored Theresa Paes de Jesus to the learned Francisco Maldonado de Silva each unforgettable figure offers a chilling reminder of the reach of the Inquisition Sensitive to the lingering tensions within the Marrano communities Wachtel joins the concerns of an anthropologist to his skills as a historian and in a stunning authorial move he demonstrates that the faith of remembrance remains alive today in the towns of rural Brazil
