Historical Dictionary of the Reagan-Bush Era Richard S. Conley, 2017-03-09 From the vantage point of the 2016 presidential election and the deepening polarization of American politics in recent decades it is striking how much more distant the Reagan Bush era of the 1980s and early 1990s seems compared to the years that have actually passed Whither the Republican Party of yesteryear Like reincarnated characters from Samuel Beckett s classic play Waiting for Godot many disillusioned conservatives in the new millennium continue to search obdurately and in vain for a leader who embodies the acclaimed leadership traits of Ronald Reagan This second edition of Historical Dictionary of the Reagan Bush Era contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations events institutions policies and issues This book is an excellent resource for students researchers and anyone wanting to know more about this era
