Zukosky, 2016-10-20 *Przewalski's Horses in Eurasia* draws on more than two years of ethnographic research to examine the reintroduction of Przewalski's horses a highly endangered breed that is a genetically distinct and distant relative of today's domesticated horses into their native habitats across Eurasia Zukosky explores how pluralism in species reintroduction provides insights into the experiences relationships and knowledge required for future international collaborations to better capture the complexity of both nature and society in scientific practice The book includes philosophical discussions of pluralism in narrative ethnographic studies of biologists observations of changing horse behavior from European captive conditions to release in the wild in Asia and ethnographic accounts of local non scientists sentiments about the benefits and disadvantages of reintroduction in central Mongolia Recommended for scholars of anthropology and biology *Food and Environment in Early and Medieval China* E. N. Anderson, 2014-09-15 Chinese food is one of the most recognizable and widely consumed cuisines in the world Almost no town on earth is without a Chinese restaurant of some kind and Chinese canned frozen and preserved foods are available in shops from Nairobi to Quito But the particulars of Chinese cuisine vary widely from place to place as its major ingredients and techniques have been adapted to local

agriculture and taste profiles To trace the roots of Chinese foodways one must look back to traditional food systems before the early days of globalization Food and Environment in Early and Medieval China traces the development of the food systems that coincided with China's emergence as an empire Before extensive trade and cultural exchange with Europe was established Chinese farmers and agriculturalists developed systems that used resources in sustainable and efficient ways permitting intensive and productive techniques to survive over millennia Fields gardens semiwild lands managed forests and specialized agricultural landscapes all became part of an integrated network that produced maximum nutrients with minimal input though not without some environmental cost E N Anderson examines premodern China's vast active network of trade and contact such as the routes from Central Asia to Eurasia and the slow introduction of Western foods and medicines under the Mongol Empire Bringing together a number of new findings from archaeology history and field studies of environmental management Food and Environment in Early and Medieval China provides an updated picture of language relationships cultural innovations and intercultural exchanges The General Stud Book Containing Pedigrees of English Race Horses, &c. &c. from the Earliest Accounts to the Year 1831, Inclusive, 1909 **The General Stud Book**, 1909 **Canadian Shorthorn Herd Book** Canadian Shorthorn Association, 1901 **The Cumulative Book Index**, 1988 A world list of books in the English language **The Fleischmann Yeast Family** P. Christiaan Klieger, 2004-11-24 Fleischmann is a brand name that everyone recognizes even if they have never baked bread from scratch drunk a Fleischmann's gin and tonic or used their vinegar and margarine Charles Fleischmann in fact pretty much invented the brand name and this continued recognition is testimonial to his genius At one time teenagers around the country ate fresh yeast cakes by the millions to improve their skin and corporate success was measured in pound of live yeast consumed per capita And the great Fleischmann distilleries kept America jolly from 1870 to Prohibition and afterward Charles Fleischmann and his brothers sons daughter and grandsons amassed a fortune that would be easily equivalent to the billionaires of today and it all started through the scientific husbandry of a tiny one celled fungus known as yeast Add sugar and water and you get alcohol and more yeast simply alter it slightly and you get vinegar Multiply it times a million and you have the beginnings of the modern industrial food industry in America This book is a snapshot of a unique family from Central Europe that changed the way America cooked A family business from the Civil War until the start of the Depression Fleischmann's created the giant food conglomerate Standard Brands which was in turn gobbled up by Nabisco in the 1980s In its long history it literally invented the coupon premium the give away recipe book and state fair bake offs This is a story of a talented generous outrageously successful family and of a brand name that still conjures up delicious memories of freshly baked bread and a most happy well being The Fleischmann story is America at its finest **The Canadian National Record for Swine**, 1903 Cold Case Colton Addison Fox, 2017-06-01 The most shocking Colton family secret yet is revealed Claudia Colton has always felt different from her siblings But the fashion designer doesn't expect a PI with knowledge of her family to show up in her tiny Texas hometown
