Sartre's Two Ethics Thomas C. Anderson,1993 Sartre s moral thinking progressed from an abstract idealistic ethics of authenticity to a more concrete realistic and materialistic morality Much of Sartre s important unpublished work on ethics relevant to both his first and his second ethics has become available to scholars only in the years since his death Only now has it become possible to give a complete presentation of both the first and the second ethics and to accurately identify their relationship Sartre s Two Ethics also presents Professor Anderson s original criticisms of Sartre s two ethics and concludes that the second is a significant advance over the first Sartre's Theory of Literature Christina Howells,1979 *The Artist According to Jean-Paul Sartre* Patrick Carl P. Gunnacao,2011 The main problem of this research is what is an artist according to Sartre and is thus limited to Jean Paul Sartre s aesthetics philosophy as well as his psychology of imagination this would consequently some concepts on consciousness The scope in itself poses a problem since again Sartre is more popularly known for being an existentialist and a phenomenologist It is descriptive and expository in nature and thus made use of Sartre s primary works on philosophy and his psychology of the imagination along with the help of some secondary sources The peak of Sartre s aesthetics is his concept of engagement primarily of the artist and the work of art and the other as conscious of the engaged work of art According to Sartre the artist the ideal artist is one who is engaged who creates a work of art which is about engagement or being engaged in society and through the work of art incites the other to be engaged in the events of their time **Sartre's French Contemporaries and Enduring Influences** William L. McBride,2013-09-13 Sartre s French Contemporaries and Enduring Influences This final volume examines Sartre s best known philosophical contemporaries in France Albert Camus Maurice Merleau Ponty and Simone de Beauvoir in terms of both their own philosophical insights and their relationship to Sartre s thought The articles also offer some suggestive connections between Sartre s thought and subsequent developments in European philosophy notably structuralism poststructuralism and postmodernism The comparatively recent nature of much of this scholarship is solid testimony to the enduring influence of Sartrean existentialism **On Modern Art** Jean-Paul Sartre,2021-08-15 A collection of insightful essays by the French philosopher on contemporary art Iconic French novelist playwright and essayist Jean Paul Sartre is widely recognized as one of the most important philosophers of the twentieth century and his work has remained relevant and thought provoking

Existential Aesthetics , *Sartre's Second Century* Jean-Pierre Boulé,Benedict O'Donohoe,2009-05-27 Sartre s Second Century reflects the richness of Sartre s vision of the human condition the diversity of the means he employed in grappling with it and the lengthy trajectory of his itinerary in a variety of wider cultural perspectives The centenary of Sartre s birth in 2005 was the primary occasion for many of the essays included in this volume Hosted by the UK or North American Sartre Societies contributors participating in Sartre s centennial celebrations were asked to address the central themes and overall development of his life and thought As the present collection shows the attempt to present Sartre in a retrospective light also provides a basis for assessing the relevance of his work for the new century

Phenomenology and Deconstruction, Volume Two Robert Denoon Cumming,1991 In this final volume of Robert Denoon Cumming s four volume history of the

phenomenological movement Cumming examines the bearing of Heidegger's philosophy on his original commitment to Nazism and on his later inability to face up to the implication of that allegiance Cumming continues his focus as in previous volumes on Heidegger's connection with other philosophers Here Cumming looks first at Heidegger's relation to Karl Jaspers an old friend on whom Heidegger turned his back when Hitler consolidated power and who discredited Heidegger in the denazification that followed World War II The issues at stake are not merely personal Cumming argues but regard the philosophical relevance of the personal

Music and Ideology in Cold War Europe Mark Carroll, 2006-11-02 This book places the radicalization of art music in early post war France in its broader socio cultural and political context It pursues two general and intersecting lines of inquiry The first details the stances towards musical conservatism and innovation adopted by cultural strategists representing Western and Soviet ideological interests at the onset of the Cold War The second which draws upon the commentaries of Theodor Adorno and Jean Paul Sartre recognizes that the Cold War generated a heightened political awareness amongst French musicians at the very time when the social relevance of avant garde music had become the subject of widespread debate The study considers the implications of the performance at L Oeuvre du XXe si cle an international arts festival staged in Paris in 1952 with the intention of discrediting socialist realism by means of two opposing musical types neo classicism represented by Stravinsky's Symphony in C and serialism Boulez's Structures 1a

The Myth of Identity in Modern Drama Jeremy Ekberg, 2015-09-18 The Myth of Identity in Modern Drama is the first book length study on existential authenticity and its relation to ontological embodiment treated via analyses of characters of modern drama Furthermore it offers new methods of exploring characters and characterization and new ways of thinking about identity Through its investigations of the plays of Samuel Beckett Eugene Ionesco and Jean Paul Sartre the book shows that the study of embodiment will allow for a new method of analyzing characters and how they form or attempt to form ever changing identities

Meaning and Myth in the Study of Lives Stuart L. Charmé, 2015-09-30 This book explores major theoretical issues in the study of an individual life through its focus on Jean Paul Sartre Sartre's quest for an existential psychoanalysis led him to develop what he called true novels in the landmark studies of Flaubert and others In clarifying Sartre's philosophical ideas in relation to the analysis of the self Stuart L. Charmé examines the attraction repulsion of Freudian concepts and explores parallels to Erikson's ego psychology Certain mythic qualities in religious biography and autobiography are seen as central to Sartre who presents lives including his own as normative models The book concludes by making a provocative link between the modern preoccupation with self analysis in biography and autobiography and a fundamental religious need that was once fulfilled by primitive myth

End-of-Art Philosophy in Hegel, Nietzsche and Danto Stephen Snyder, 2018-11-04 This book examines the little understood end of art theses of Hegel Nietzsche and Danto The end of art claim is often associated with the end of a certain standard of taste or skill However at a deeper level it relates to a transformation in how we philosophically understand our relation to the world Hegel Nietzsche and Danto each strive

philosophically to overcome Cartesian dualism redrawing the traditional lines between mind and matter Hegel sees the overcoming of the material in the ideal Nietzsche levels the two worlds into one and Danto divides the world into representing and non representing material These attempts to overcome dualism necessitate notions of the self that differ significantly from traditional accounts the redrawn boundaries show that art and philosophy grasp essential but different aspects of human existence Neither perspective however fully grasps the duality The appearance of art's end occurs when one aspect is given priority for Hegel and Danto it is the essentialist lens of philosophy and in Nietzsche's case the transformative power of artistic creativity Thus the book makes the case that the end of art claim is avoided if a theory of art links the internal practice of artistic creation to all of art's historical forms
