through Vedic and allied literature portraying the nature of Vedic polity the functionalities of its various institutions and the various social and religious practices The book is not a narrative but critically examines the nature of changes in a host of these areas that occurred at each stage of Vedic polity from early Vedic period to post Rig Vedic period It outlines in historical perspective the various stages involved in the development of Vedic polity and Vedic canon and how the two processes have gone along together It contains extensive discussions on political system and institutions religious and social practices as they obtained during the Rig Vedic and post Rig Vedic periods It provides a fresh approach to the cult of sacrifice and fire rituals practiced by Vedic Aryans along with an in depth analysis of the Vedic view of Nationalism Sovereignty and State as discernible from Vedic texts The book also features an extensive discussion on the institution of kingship administrative machinery role of various entities in the polity including the Purohita the Sabha and the Samiti position of women Varna system and features of tribal kingdoms such as the Kuru Panchalas and Kosala Videhas Isolating political and social aspects from the essentially religious character of Vedic literature an attempt has been made to show with due corroboration that the tribal polity was not deficient in political content contrary to the stance of some scholars to depict Vedic Aryans as apolitical and inward looking The present book partakes both the current and previous scholarship on the subject but breaks a new path with its exclusive focus on the Rig Vedic and Post Rig Vedic polity together with a balanced and objective assessment of their features It brings all the relevant and connected issues on to one platform and deals with them in a holistic manner Its unique features include The Vedic Grid a graphical representation and tabulations of the characteristics of each of the about 50 Vedic tribes including information on the location of their habitat their time line the names of their chieftains and their linkage with priestly clans A special focus on the Second Urbanization taking place in the Gangetic valley between the 6th and 4th centuries BCE It explains how towards the end of the later Vedic period the polity underwent a change in political social and economic spheres which blossomed later during the period of Mauryas Two appendices dealing with the theories of Aryan migration and the relationship of the Vedic Aryans with the Harappa culture and what can be ascertained by Vedic literature     *The Satapatha-Brahmana, According to the Text of the Madhyandina School - Scholar's Choice Edition* Julius Eggeling, 2015-02-20 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the
