Sati The Blessing And The Curse:

Sati, the Blessing and the Curse John Stratton Hawley,1994 **Sati, the Blessing and the Curse** John Stratton Hawley,2023 Several years ago in Rajasthan an 18 year old woman was burned on her husband s funeral pyre in literature art in religion psychology economics politics *Women in Modern India* Geraldine Forbes,Geraldine Hancock Forbes,1999-04-28 In a compelling study of Indian women Geraldine Forbes considers their recent history from the nineteenth century under colonial rule to the twentieth century after Independence She begins with the reform movement established by men to educate women and demonstrates how education changed women s lives enabling them to take part in public life Through their own accounts of their lives and activities she documents the formation of their organisations their participation in the struggle for freedom their role in the colonial economy and the development of the women s movement in India since 1947 **Widows, Pariahs, and Bayadères** Binita Mehta,2002 This book analyzes how French dramatists reproduced certain images of India such as the burning widow the lowly pariah or untouchable and the exotic bayadere or dancing girl in four plays and one ballet written from the eighteenth century through the twentieth centuries Addressing questions of Orientalism the book also argues that it was because the French lost their Indian colonies to the Briish in the eighteenth centuries that India became a part of the French literary imagination New Critical Writings in Political Sociology Alan Scott,2024-11-01 The articles collected together in this volume are concerned with why and how people get involved in politics whether through formal mechanisms such as voting through some of the more informal means and settings of social movement networks and political protest or through engagement in public debate But just as important is the question of why people do not get involved in politics What social conditions ideas and values facilitate or discourage political activity How is it that some people are systematically disempowered in democratic societies in comparison with others What social forms offer the most promise for extending and deepening democracy This volume brings togther the most seminal papers which together form a record of how political sociologists since the 1970s have framed questions about the range and limits of democratic political engagement and developed concepts and methodologies in order to research the answers to those questions *Suicide Across Cultures* Meryam Schouler-Ocak,Murad Moosa Khan,2024-09-04 Over 700 000 people globally take their own lives every year which equates to one death by suicide every 40 seconds Among teenagers and young adults suicide is the second most common cause of death after road traffic accidents Overall almost three times as many men than women die by suicide There are however significant variations in the patterns of suicide across cultures gender age geographic locations and personal history due to the complex relationship of how these factors converge One thing that remains consistent is that every death is a tragedy for family friends and all colleagues Traditions of suicidal behaviour are deeply rooted in any given culture and so examining the cultural influences can be of paramount importance in the understanding and assessment of a suicidal crisis *Suicide Across Cultures* offers the opportunity to expand knowledge

beyond majority groups and to look further than the dominant paradigm in suicide research treatment and prevention With the majority of global suicides taking place in non Western societies minority groups are an essential area in suicide research Written by experts from around the world this fascinating textbook includes topics and regions that are not usually covered in texts on suicide and self harm It provides a unique and important insight for academics and students in psychiatry as well as anyone from the wider public with an interest in the psychiatry of suicide across cultures

Suicide as a Dramatic Performance David Lester,2017-07-05 Each suicide is as unique as the individuals involved especially if one examines the nature of the act and to what extent these acts can be viewed as a theatrical performance Focusing on the dramatic aspects of suicide may seem tangential to the physical and mental pain experienced by those who try to kill themselves but dramatic aspects often provide important clues for understanding the mental state of suicidal individuals David Lester and Steven Stack investigate what happens in the weeks days and hours before a suicide when the suicidal individual must make decisions and formulate the script for his or her suicidal act The editors argue that these choices may help us understand and prevent other suicides and stimulate new and innovative research in this important area Through twenty five substantive chapters including both quantitative and qualitative analyses this book offers insights into suicide as a dramatic act with chapters on the intended audience the suicide note the location and method chosen and cultural scripts including suicide by cop sati seppuku and

duels The contributors to this volume argue that psychological social and cultural factors influence these choices and that the decisions made by the individual are important for understanding the mental state of the person choosing to die by suicide

Tolerance and the Ethical Life Andrew Fiala, 2005-05-12 In a fresh and exciting way this new book shows how tolerance connects with the practice of philosophy Andrew Fiala examines the virtue of tolerance as it appears in several historical contexts Socratic philosophy Stoic philosophy Pragmatism and Existentialism The lesson derived is that tolerance is a virtue for what Fiala calls tragic communities Such communities are developed when we come together across our differences but they lack the robust sense of connection that we often seek with others the complete sort of happiness that is offered by a more utopian ideal of community But rather than viewing this conclusion as a failure Fiala maintains that tragic communities are the best communities possible for human beings who are aware of their own individuality and finitude Indeed they are typical of the sorts of communities created by philosophers engaged in dialogue with others Tolerance and the Ethical Life will strongly appeal to specialists and upper level students in Ethics and Political Philosophy both for its unique historical exploration of tolerance and its application of those results to present day moral theory
