regions The two countries compete on many fronts including regional politics oil prices and for leadership of the Islamic world a competition with undeniable repercussions for the Greater Middle East and for the world Some observers have gone so far as to claim that virtually everything that happens in this area of the world can be viewed as part of the Saudi Iranian power struggle With increasing importance of the region as the dominant supplier of world energy and the birthplace of Islamic militant groups the consequences of not understanding Saudi Iranian rivalry in the region have never been more serious A range of internal and external explanatory factors explains the ups and downs of Saudi Iranian relations since the 1990s This book captures this complexity by drawing on multicausal explanations through multiple levels of interdisciplinary analysis This is the first book on the subject that is co authored by one author from Saudi Arabia and one from Iran This collaboration allowed the authors to make the best use of Persian and Arabic sources generating a locally meaningful account of the two countries relationship As Iranian and Saudi nationals they encountered less difficulty in gaining access to research participants building rapport and conducting interviews with Iranian and Saudi scholars and informants

Saudi Arabia and the Path to Political Change Mark C. Thompson, 2014-06-16 State society dialogue in Saudi Arabia is one of the most contested issues in the country today yet little is known about the National Dialogue process and its relationship with Saudi society is frequently and widely misunderstood The first to examine the Saudi Arabian National Dialogue process in its entirety Mark C Thompson investigates the relationship between the King Abdulaziz Center for National Dialogue KACND and the key social constituencies of Saudi society Since its establishment in 2003 the KACND has attempted to promote a culture of dialogue and has encouraged the debate of contentious socio political issues by bringing individuals together from across the Kingdom Drawing on Antonio Gramsci s theory of hegemony the author asks whether the Saudi socio political system is moving from a form of patrimonial state to one of ideological hegemony and if this is the case whether the KACND is a catalyst or even a driving force in this transition Saudi Arabia and the Path to Political Change investigates the practices and the impact of the KACND and assesses the extent to which the institution s activities and the ongoing National Dialogue process represent a viable attempt to address emerging political concerns in Saudi Arabia Covering pivotal issues including women s empowerment public health and employment the author here explores the extensive impact of the KACND s activities on internal cross constituency communication and discourse and shows how the process relates to wider regime strategies and to the evolution of the Saudi polity Based on approximately 120 interviews conducted in Saudi Arabia from 2009 to 2011 and drawing on the evidence of a wide range of focus groups and interviews with National Dialogue participants KACND officials government ministers lawyers and journalists this book provides a unique insight into the effects and consequences of Saudi National Dialogue and questions the extent to which wider ideological debate is possible in the Kingdom

Saudi Arabia in the Balance Paul Aarts, 2007-09 Saudi Arabia in the Balance brings together today s leading scholars in the field to investigate the domestic regional and international affairs of a Kingdom whose policies have so far eluded the outside world With the passing of King Fahd and the installation of King Abdullah a contemporary understanding of Saudi Arabia is essential as the Kingdom enters a new era of leadership and particularly when many Saudis themselves are increasingly debating and actively shaping the future direction of domestic and foreign affairs Each of the essays framed in the aftermath of 9 11 and the 2003 invasion of Iraq offers a systematic

perspective into the country's political and economic realities as well as the tension between its regional and global roles. Important topics covered include U.S. and Saudi relations, Saudi oil policy, the Islamist threat to the monarchy regime, educational opportunities, the domestic rise of liberal opposition, economic reform, the role of the royal family, and the country's foreign relations in a changing international world. Contributors: Paul Aarts, Madawi Al-Rasheed, Rachel Bronson, Iris Glosemeyer, Steffen Hertog, Yossi Kostiner, Stéphane Lacroix, Giacomo Luciani, Monica Malik, Roel Meijer, Tim Niblock, Gerd Nonneman, Michaela Prokop, Abdulaziz Sager, Guido Steinberg. *Saudi Arabia and Iran*, Simon Mabon, 2015-10-21. In the wake of the 1979 Iranian revolution, relations between states in the Middle East were reconfigured and reassessed overnight. Amongst the most affected was the relationship between Iran and Saudi Arabia. The existence of a new regime in Tehran led to increasingly vitriolic confrontations between these two states, often manifesting themselves in the conflicts across the region, such as those in Lebanon and Iraq, and more recently in Bahrain and Syria. In order to shed light upon this rivalry, Simon Mabon examines the different identity groups within Saudi Arabia and Iran, made up of various religions, ethnicities, and tribal groupings, proposing that internal insecurity has an enormous impact on the wider ideological and geopolitical competition between the two. With analysis of this heated and often uneasy relationship and its impact on the wider Middle East, this book is vital for those researching international relations and diplomacy in the region. *Iran-Saudi Arabia Relations and Regional Order*, Shahram Chubin, Charles Tripp, 2014-09-25. Both countries will have strong incentives to test the artificial balance established by the US, and from which they are excluded. Each state, in the face of continued embargoes, may find the lure of weapons of mass destruction correspondingly increased. **The Clerics of Islam**, Nabil Mouline, 2014-01-01. Followers of Muhammad b. Abd al-Wahhab often considered to be Islam's Martin Luther, shaped the political and religious identity of the Saudi state while also enabling the significant worldwide expansion of Salafist Islam. Studies of the movement he inspired, however, have often been limited by scholars' insufficient access to key sources within Saudi Arabia. Nabil Mouline was granted rare interviews and admittance to important Saudi archives in preparation for this groundbreaking book, the first in-depth study of the Wahhabi religious movement from its founding to the modern day. Gleaning information from both written and oral sources and employing a multidisciplinary approach that combines history, sociology, and Islamic studies, Mouline presents a new reading of this movement that transcends the usual resort to polemics.

A History of Islamic Societies, Ira M. Lapidus, 2014-10-13. This new edition of one of the most widely used course books on Islamic civilizations around the world has been substantially revised to incorporate the new scholarship and insights of the last twenty-five years. Ira Lapidus' history explores the beginnings and transformations of Islamic civilizations in the Middle East and details Islam's worldwide diffusion. The history is divided into four parts. Part I is a comprehensive account of pre-Islamic late antiquity, the beginnings of Islam, the early Islamic empires, and Islamic religious, artistic, legal, and intellectual cultures. Part II deals with the construction in the Middle East of Islamic religious communities and states to the fifteenth

century Part III includes the history to the nineteenth century of Islamic North Africa and Spain the Ottoman Safavid and Mughal empires and other Islamic societies in Asia and Africa Part IV accounts for the impact of European commercial and imperial domination on Islamic societies and traces the development of the modern national state system and the simultaneous Islamic revival from the early nineteenth century to the present *Building Regional Security in the Middle East* Emily B. Landau, Tamar Malz, Zeev Maoz, 2004-11-23

Discussions on regional security were initiated in the Middle East in 1992 as part of the Middle East peace process The collapse of the Oslo process and other regional developments in the latter half of the 1990s have diminished hopes that the initial gains made in this direction might further develop as violence has again become the primary mode of effecting political changes in the region On the backdrop of this somewhat dismal current reality in the Middle East the rationale for this volume is that research into regional security structures should nevertheless be pursued When looking at the long term process of creating regional security setbacks are not unlikely The articles that make up this collection focus on the problems that have been encountered and possible directions for getting regional efforts back on track A special issue of the Journal of Strategic Studies **Reconstructions in Middle East**

Economic History Don Babai, 2024-10-24 This volume explores major theoretical and empirical themes in the study of the economic history of the Middle East Despite the relative neglect of economic history in Middle Eastern studies this book makes a case for its importance as a discipline of study On the one hand it shows promise in illuminating the economic base of historical trends and events on the other it can elucidate the historical foundations of economic continuity and change The chapters employ an array of theoretical and methodological approaches and ultimately demonstrate how economics and history along with political economy complement each other in studying the Middle East Among the substantive topics explored are the trajectories of the Arab Spring institutional change and economic development in the early Ottoman Empire the destructive effects of the reordering property rights in Iraq by the American led occupation authority the evolution of the political economy of the Islamic Republic of Iran and the determinants of movements in the yields of Egyptian and Ottoman sovereign debt following political and economic crises in the 19th and early 20th centuries The book will be of interest to scholars and students of economic history political economy and the Middle East
