Reorienting the Middle East
Dale Hudson,Alia Yunis,2024-01-16 Stories of desert landscapes cutting edge production facilities and lavish festivals often dominate narratives about film and digital media on the Arabian Peninsula However there is a more complicated history that reflects long standing interconnections between the Persian Gulf Arabian Sea and Indian Ocean Just as these waters are fluid spaces so too is the flow of film and digital media between cultures in East Africa Europe North Africa South Asia Southwest Asia and Southeast Asia *Reorienting the Middle East* examines past and contemporary aspects of film and digital media in the Gulf that might not otherwise be apparent in dominant frameworks Contributors consider oil companies that brought film exhibition to this area in the 1930s the first Indian film produced on the Arabian Peninsula in the late 1970s blackness in Iranian films the role of Western funding in reshaping stories Dubai s emergence in global film production uses of online platforms for performance art the development of film festivals and cinemas and short films made by citizens and migrants that turn a lens on racism sexism national identity and other rarely discussed social issues *Reorienting the Middle East* offers new methods to analyze the often neglected littoral spaces between nation states and regions and to understand the role of film and digital media in shaping dialogue between area studies and film and media studies Readers will find new pathways to rethink the limitations of dominant categories and frameworks in both fields

Islamic Heritage Architecture and Art
III J. Casares,S. Dominguez Amarillo,2020-08-11 Islamic architecture has enriched design with a wide variety of structural shapes including among others unique arches a wide variety of vaults and domes which allow for new forms to be developed The influence that these structural forms have in non Islamic countries was one of the themes of the 3rd International

Conference on Islamic Heritage Architecture and Art at which the included papers were presented There is much to learn from past experiences to arrive at solutions which are environmentally sound and sustainable in the long term As conventional energy resources become scarce the Islamic design heritage can offer invaluable lessons on how to deal in an efficient manner with cases of hard and extreme environments Traditional architecture and urban environments in most Islamic countries are now being eroded by overemphasis on a global type of architecture and city planning As a consequence many regions are losing their identity It will become increasingly important for new developments to take light of what the classical Islamic urban designs and architectures have to offer modern society An equally important aspect covered is the analysis of the materials employed and the types of structural elements particularly those unique to Islamic architecture Preserving this heritage requires the development of appropriate conservation techniques in response to the different materials used and the ways structural forms work including under extreme conditions such as earthquakes These papers deal with the design of many types of buildings in Islamic countries including not only the better known public buildings like mosques mausolea citadels and forts but also houses and gardens engineering works such as bridges and dams irrigation systems and many others which have also had a profound impact on society *Of Virgins and Martyrs* David

Jacobson,2012-12-21 Women s bodies have become a battleground Around the world people argue about veiling schooling for Afghan girls and SlutWalk protests all of which involve issues of women s sexuality and freedom Globalization with its emphasis on human rights and individuality heats up these arguments In *Of Virgins and Martyrs* David Jacobson takes the reader on a fascinating tour of how self identity developed throughout history and what individualism means for Muslim societies struggling to maintain a sense of honor in a globalized twenty first century Some patriarchal societies have come to see women s control of their own sexuality as a threat to a way of life that goes back thousands of years Many trace their lineage to tribal cultures that were organized around the idea that women s virginity represents the honor of male relatives and the good of the community at large Anyone or anything that influences women to the contrary is considered a corrupting and potentially calamitous force Jacobson analyzes the connection between tribal patriarchy and Muslim radicalism through an innovative tool the tribal patriarchy index This index helps to illuminate why women s sexuality dress and image so compel militant Muslim outrage and sometimes violent action revealing a deeper human story of how women s status defines competing moral visions of society and why this present clash is erupting with such ferocity Subrata Mitra Department of Political Science and South Asia Institute University of Heidelberg *State Formation and Identity in the Middle East and North Africa* K. Christie,M. Masad,2013-12-17 For states in the Middle East North Africa and South Asia the Arab Spring has had different implications and consequences stemming from the politics of identity and the historical and political processes that have shaped development This book focuses on how these factors interact with globalization and affect state formation

The Arab World After Desert Storm Muhammad Faour,1993 Drawing on a wide range of Arabic and Western sources and

his own experiences and providing in depth comparisons of six key Arab states Algeria Egypt Iraq Jordan Kuwait and Saudi Arabia Faour challenges the notion that Desert Storm solved more problems than it created The human costs he demonstrates have been appalling The economic costs have likewise been enormous And the already precarious state of inter Arab relations has atomized with old disputes reviving and new antipathies thriving What the Gulf War did not change was the potential for political instability Although authoritarian regimes remained intact the war both spurred popular demands for democracy and encouraged militant Islamic movements back cover

A Call for Heresy Anouar Majid, A Call for Heresy discovers unexpected common ground in one of the most inflammatory issues of the twenty first century the deepening conflict between the Islamic world and the United States Moving beyond simplistic answers Anouar Majid argues that the Islamic world and the United States are both in precipitous states of decline because in each religious political and economic orthodoxies have silenced the voices of their most creative thinkers the visionary nonconformists radicals and revolutionaries who are often dismissed or even punished as heretics The United States and contemporary Islam share far more than partisans on either side admit Majid provocatively argues and this clash of civilizations is in reality a clash of competing fundamentalisms Illustrating this point he draws surprising parallels between the histories and cultures of Islam and the United States and their shortsighted suppression of heresy zandaqa in Arabic from Muslim poets and philosophers like Ibn Rushd known in the West as Averros to the freethinker Thomas Paine and from Abu Bakr Razi and Al Farabi to Thomas Jefferson and Abraham Lincoln He finds bitter irony in the fact that Islamic culture is now at war with a nation whose ideals are losing ground to the reactionary forces that have long condemned Islam to stagnation The solution Majid concludes is a long overdue revival of dissent Heresy is no longer a contrarian's luxury for only through

encouraging an engaged and progressive intellectual tradition can the nations reverse their decline and finally work together for global justice and the common good of humanity Anouar Majid is founding chair and professor of English at the University of New England and the author of *Freedom and Orthodoxy* *Islam and Difference in the Post Andalusian Age* *Unveiling Traditions* *Postcolonial Islam in a Polycentric World* and *Si Yussef* a novel He is also cofounder and editor of *Tingis* a Moroccan American magazine of ideas and culture

Solar Energy Update ,1984 **Multilingualism in Mathematics Education in Africa** Anthony A. Essien,2023-12-14 This book brings together the first book collection of African research in mathematics education in multilingual societies and chronicles current research in different linguistic contexts across the African continent including Algeria Namibia Malawi Morocco Rwanda South Africa on issues of multilingualism in mathematics education but more importantly it foregrounds pertinent issues for future research With many of the authors building on earlier path breaking African research the book is a unique contribution of careful thinking through how linguistic diversity and multilingualism manifest in ways that differ from one geopolitical context to another This volume is an important contribution to the growing recognition of multilingualism as the global linguistic dispensation in mathematics education It is an invitation to how we might as an international community where more and more multilingualism is the norm rather than an exception pay more attention to the multilingual agency and capabilities of both students and teachers in order to better harness the epistemic potential of multiple languages in contexts of language diversity in mathematics education

Owen's Commerce & Travel and International Register ,1966 **Jerusalem: City of Mirrors** Amos Elon,2019-08-15 A contemplation of the fabled city which for the Western mind is as much a myth as a physical reality Amos Elon s elegant dazzling biography of Jerusalem gives a profound insight into the kaleidoscopic culture of this magical city Battle scarred from four thousand years of violent conflict the holy city is a sacred symbol of Judaism Islam and Christianity and its religious wars of today reflect those of the past Arab versus Jew orthodox versus secular continuity versus change a remarkable portrait of Jerusalem Christopher Lehmann Haupt The New York Times Jerusalem City of Mirrors is a word portrait like none of those that have come before of the fabled city It is from the loving but unsparing pen of Israel s most elegant iconoclast Peter Grose The New York Times A brilliantly illuminating book Philip Roth Finely written and very readable Elon s contention and convincing demonstration that religious fanaticism and communal violence are deeply ingrained in Jerusalem s geography and its long history four thousand years leave little hope for the city of mirrors John C Campbell Foreign Affairs Elon has written a literary and often lyrical biography of the images of Jerusalem Roger Friedland and Richard Hecht Los Angeles Times Elon s Jerusalem is both a learned book and a charming one He places us before a veritable many layered mountain of myth and history a compressed symbol of our most sublime aspirations along with our most disgusting hatefully brainless excursions into religious bigotry and fratricide It is a book as complex and surprising as the city itself Arthur Miller A superbly readable study Jewish Chronicle A book which should be read by all Catholic Herald

Jerusalem the most longed for and fought for of all cities is probably also the most written about Yet if I had to recommend one contemporary book about Jerusalem for everyone concerned with the city both visitors and Jerusalemites would certainly be this one Dan Leon Palestine Israel Journal
