## **Savage Ruskin:**

**Savage Ruskin** Patrick Conner,1979-06-17      **The Lost Companions and John Ruskin's Guild of St George** Mark Frost,2014-08-01 This important work in Ruskin studies provides for the first time an authoritative study of Ruskin's Guild of St George. It introduces new material that is important in its own right as a significant piece of social history and as a means to re-examine Ruskin's Guild idea of self-sufficient co-operative agrarian communities founded on principles of artisanal non-mechanised labour, creativity and environmental sustainability. The remarkable story of William Graham and other Companions lost to Guild history provides a means to fundamentally transform our understanding of Ruskin's utopianism.

Ruskin's Artists Robert Hewison,2017-11-22 This was first published in 2000. A study of John Ruskin's engagement with art and architecture as a critic, a patron and a teacher. It offers insights into both his writings and the visual economy of the Victorian world. Each essay examines Ruskin's relationship with an individual artist or a distinct aspect of art practice. J.M.W. Turner, D.G. Rossetti, W.Holman Hunt and E.Burne Jones are among those artists discussed whose personal relationships with Ruskin affected his critical writing. Ruskin's attitude to women artists and his approach to the teaching of art are given special attention.      *Engraving the Savage* Michael Gaudio,2008 In 1585 the British painter and explorer John White created images of Carolina Algonquian Indians. These images were collected and engraved in 1590 by the Flemish publisher and printmaker Theodor de Bry and were reproduced widely, establishing the visual prototype of North American Indians for European and Euro-American readers. In this innovative analysis, Michael Gaudio explains how popular engravings of Native American Indians defined the nature of Western civilization by producing an image of its savage other. Going beyond the notion of the savage as an intellectual and ideological construct, Gaudio examines how the tools, materials and techniques of copperplate engraving shaped Western responses to indigenous peoples. *Engraving the Savage* demonstrates that the early visual critics of the engravings attempted, without complete success, to open a comfortable space between their own civil image-making practices and the savage practices of Native Americans such as tattooing, bodily ornamentation, picture writing and idol worship. The real significance of these ethnographic engravings, he contends, lies in the traces they leave of a struggle to create meaning from the image of the American Indian. The visual culture of engraving and what it shows, Gaudio reasons, is critical to grasping how America was first understood in the European imagination. His interpretations of de Bry's engravings describe a deeply ambivalent pictorial space in between civil and savage, a space in which these two organizing concepts of Western culture are revealed in their making. Michael Gaudio is assistant professor of art history at the University of Minnesota.      **Rossetti** Evelyn Waugh,1928      **The Sewanee Review** ,1911      **Victorian Vulgarities** Susan David Bernstein,Elsie B. of surface and materiality for architects designers and historians everywhere in Britain and beyond while it also serves as a thematic introduction to modern British architectural history with in depth readings of the works of many key British architects artists and critics from Ruskin and William Morris to Alison and Peter Smithson Eduardo Paolozzi Richard Rogers and Caruso St John

Food and Culture in the Works of Ford Madox Ford, Gertrude Stein, and Virginia Woolf Nanette O'Brien, 2024-01-09

Writing about food has long been a part of autobiographical expression that combines culinary record keeping and histories drawing on the personal and the cultural Concentrating on the transatlantic work of Ford Madox Ford Gertrude Stein and Virginia Woolf this book illuminates modernist uses of the terms civilization and barbarism showing how these concepts are shaped by the rules of preparing and eating food in literature and in public Nanette O'Brien introduces the concept of culinary Impressionism as an extension and repositioning of current scholarly thinking about Ford's literary Impressionism and his synesthetic writing about cookery and small farming She also presents a new reading of Stein's crafting of her modernist authority as interlinked with her cooks and shows Stein's and Toklas's jointly authored unpublished cookbook draft as evidence of their direct authorial collaboration and of Stein adapting domestic culinary techniques into her other writing O'Brien goes on to present new archival research demonstrating that Virginia Woolf's representation of the financial and culinary difference between men's and women's dining in colleges at the University of Cambridge is justified and the material inequality was in fact worse than previously understood This disparity in institutional food intensifies Woolf's later reimagining of the term civilization While drawing on themes of modernism and life writing the everyday domestic life and gender the book argues that food is a vehicle for positive modernist reconceptions of civilization
