Savagism and Civilization Roy Harvey Pearce, 1988 **Savagism and Civilization** Hubert Howe Bancroft, 2016-10-19 What is civilization What is the act of civilizing To reclaim from a savage or barbarous state to educate to refine What is a savage or barbarous state A wild uncultivated state a state of Nature The terms savage and civilized as applied to races of men are relative and not absolute terms At best these words mark only broad shifting stages in human progress the one near the point of departure the other farther on toward the unattainable end This progress is one and universal though of varying rapidity and extent there are degrees in savagism and there are degrees in civilization indeed though placed in opposition the one is but a degree of the other

The Native Races [of the Pacific States]... Hubert Howe Bancroft, 1882 *When the Other is Me* Emma LaRocque, 2011-03-10 In this long awaited book from one of the most recognized and respected scholars in Native Studies

today Emma LaRocque presents a powerful interdisciplinary study of the Native literary response to racist writing in the Canadian historical and literary record from 1850 to 1990 In *When the Other is Me* LaRocque brings a metacritical approach to Native writing situating it as resistance literature within and outside the postcolonial intellectual context She outlines the overwhelming evidence of dehumanization in Canadian historical and literary writing its effects on both popular culture and Canadian intellectual development and Native and non Native intellectual responses to it in light of the interlayered mix of romanticism exaggeration of Native difference and the continuing problem of internalization that challenges our understanding of the colonizer colonized relationship **American Mythologies** William Blazek, Michael K.

Glenday, 2005-01-01 This challenging new book looks at the current reinvention of American Studies a reinvention that among other things has put the whole issue of just what is American and what is American Studies into contention The collection focuses in particular on American mythology The editors themselves have written essays that examine the connections between mythologies of the United States and those of either classical European or Native American traditions William Blazek considers Louise Erdrich's Love Medicine novels as chronicles combining Ojibwa mythology and contemporary U S culture in ways that reinvest a sense of mythic identity within a multicultural postmodern America Michael K Glenday's analysis of Jayne Anne Phillips work and explores in it the contexts where myth and dream interact with each other Betty Louise Bell is one of four essayists in this collection who focus their criticism on authors of Native American heritage In the first part of *Indians with Voices* Bell carefully argues that Roy Harvey Pearce's seminal Native American studies text *Savagism and Civilization* fails to acknowledge its white elitist assumptions about what constitutes The American Mind and views Native Americans along a primitive savage binary that helped to create a twentieth century national mythos of innocence and destiny Other essays include Christopher Brookeman's study of the impact of Muhammad Ali on Norman Mailer's non fiction writing about heavyweight boxing *Indian Nation* Cheryl Walker, 1997 Walker examines the rhetoric and writings of nineteenth century Native Americans including William Apsess Black Hawk George Copway John Rollin Ridge and Sarah Winnemucca Demonstrating with unique detail how these authors worked to transform venerable myths and icons of American identity *Indian Nation* chronicles Native American participation in the forming of an American nationalism in both published texts and speeches that were delivered throughout the United States Pottawattomie Chief Simon Pokagon's *The Red Man's Rebuke* an important document of Indian oratory is published here in its entirety for the first time since 1893

Frontiers of Historical Imagination Kerwin Lee Klein, 2023-11-15 The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein's analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropologists and literary critics have understood the story of America's origin and the way those understandings have shaped and been shaped by changing conceptions of history The American West was once the frontier space where migrating Europe collided with Native America where the historical

civilizations of the Old World met the nonhistorical wilds of the New It was not only the cultural combat zone where American democracy was forged but also the ragged edge of History itself where historical and nonhistorical defied and defined each other Klein maintains that the idea of a collision between people with and without history still dominates public memory But the collision he believes resounds even more powerfully in the historical imagination which creates conflicts between narration and knowledge and carries them into the language used to describe the American frontier In Klein's words We remain obscurely entangled in philosophies of history we no longer profess and the very idea of America balances on history's shifting frontiers The American frontier a potent symbol since Europeans first stepped ashore on North America serves as the touchstone for Kerwin Klein's analysis of the narrating of history Klein explores the traditions through which historians philosophers anthropologists

Possible Pasts Robert Blair St. George, 2018-05-31 *Possible Pasts* represents a landmark in early American studies bringing to that field the theoretical richness and innovative potential of the scholarship on colonial discourse and postcolonial theory Drawing on the methods and interpretive insights of history anthropology history of art folklore and textual analysis its authors explore the cultural processes by which individuals and societies become colonial Rather than define early America in terms of conventional geographical chronological or subdisciplinary boundaries their essays span landscapes from New England to Peru time periods from the sixteenth to the mid nineteenth century and topics from religion to race and novels to nationalism In his introduction Robert Blair St. George offers an overview of the genealogy of ideas and key terms appearing in the book Part I Interrogating America then challenges readers to rethink the meaning of early America and its relation to postcolonial theory In Part II Translation and Transculturation essays explore how both Europeans and native peoples viewed such concepts as dissent witchcraft family piety and race The construction of individual identity and agency in Philadelphia is the focus of Part III Shaping Subjectivities Finally Part IV Oral Performance and Personal Power considers the ways in which political authority and gendered resistance were established in early America

Transforming Curriculum for A Culturally Diverse Society Etta R. Hollins, 2013-10-18 The intention of this book is to engage educators in transforming the public school curriculum for a culturally diverse society This means more than including knowledge about diverse populations It means reconceptualizing school practices through debate deliberation and collaboration involving the diverse voices that comprise the nation Certain key questions must be addressed in this process What should be the purpose of schooling in a culturally diverse society Who should be involved in curriculum planning and what process should be employed How is the actualized curriculum differentiated What is the relationship between school practices and the structure of the larger society How should the curriculum be evaluated The authors of the essays in this book address critical perspectives from which a framework is constructed for a discourse on planning curriculum for a culturally diverse society In a substantive introduction Hollins presents the major themes and overall goals of the book and

describes how the readings in each of the four parts are linked to each other and to these themes and goals Each part begins with critical questions and an overview to provide a framework and a focus for the readings that follow and concludes with suggested learning experiences

The Newspaper Indian John M. Coward, 1999 How newspapers shaped the image of Native Americans John M Coward looks at how nineteenth century newspapers and news making practices shaped the contradictory and still persistent representation of Native Americans As Coward reveals journalism failed to describe Indigenous people on their own terms Instead reporters chose portrayals that adhered to the norms of the majority white Anglo Saxon Protestant society that read their papers In addition Coward shows how journalists turned Native Americans into symbolic and ambiguous figures used to measure American progress An in depth look at the power of the press *The Newspaper Indian* provides insight into how journalism wove a skewed idea of Native Americans into the fabric of American life

Going Native Shari M. Huhndorf, 2015-03-19 Since the 1800 s many European Americans have relied on Native Americans as models for their own national racial and gender identities Displays of this impulse include world s fairs fraternal organizations and films such as *Dances with Wolves* Shari M Huhndorf uses cultural artifacts such as these to examine the phenomenon of going native showing its complex relations to social crises in the broader American society including those posed by the rise of industrial capitalism the completion of the military conquest of Native America and feminist and civil rights activism Huhndorf looks at several modern cultural manifestations of the desire of European Americans to emulate Native Americans Some are quite pervasive as is clear from the continuing if controversial existence of fraternal organizations for young and old which rely upon Indian costumes and rituals Another fascinating example is the process by which Arctic travelers went Eskimo as Huhndorf describes in her readings of Robert Flaherty s travel narrative *My Eskimo Friends* and his documentary film *Nanook of the North* Huhndorf asserts that European Americans appropriation of Native identities is not a thing of the past and she takes a skeptical look at the tribes beloved of New Age devotees *Going Native* shows how even seemingly harmless images of Native Americans can articulate and reinforce a range of power relations including slavery patriarchy and the continued oppression of Native Americans Huhndorf reconsiders the cultural importance and political implications of the history of the impersonation of Indian identity in light of continuing debates over race gender and colonialism in American culture
