Contributing authors from across the nation and around the globe include individuals from an array of sectors including Education PK 12 and Higher Education, Business, Public and Nonprofit Organizations, Government, Military, Law Enforcement, and the Healthcare Industry. With a focus on highlighting the best practices as it applies to effective leadership in any given organization, the book offers a much needed analysis of what it means to lead successfully in the 21st Century and beyond. Endorsements: If you are looking for a cutting edge resource regarding interdisciplinary leadership, I highly recommend *On Leadership*. Each chapter has a rich perspective which contributes to the interplay between one's context, value system, level of authenticity, perspectives, and unique experiences. I highly recommend *On Leadership* and look forward to using this in the leadership courses I teach. David De Jong, Dakota State University. As both a scholar in school leadership and a former school leader, I thought I knew just about everything about leadership, but after reading this book, I was delightfully enlightened about the practical application of leadership in varying contexts around the world. Organized in three sections, this book clearly presents the practical application of leadership through an interdisciplinary approach. Fowler and Raehl provide a rich text with contributions of authors in both PK 12 Schools and Higher Education, and this text would be a welcome addition to any educational leadership program. Sonya D. Hayes, The University of Tennessee Knoxville. Effective leadership development and corresponding leadership skills are not unique to any one profession or leadership position. Effective leadership transcends all professions, and effective leadership is evident in all effective leaders and leadership positions. Therefore, *On Leadership: An Interdisciplinary Approach* is a timely must read for current and aspiring leaders. Siloed leadership development must be a thing of the past. Michael Schwanenberger, Northern Arizona University. Undoubtedly, forward thinking content that will serve as key fundamentals in the future training of leaders in and out of the educational landscape. In Pursuit of Great AND Godly Leadership Mike Bonem, 2011-11-15 Is it possible for church leaders to use biblical and secular leadership concepts in a way that keeps Christ not the marketplace at the center of their mission? Drawing on biblical material and business wisdom, *In Pursuit of Great AND Godly Leadership* explores the critical leadership decisions and practices that shape the success of Christian organizations. These decisions are illustrated in compelling interviews with over forty leaders of churches, universities, denominational bodies, and international ministries. Mike Bonem leverages his background as an MBA-trained manager and an experienced church leader to bridge the gap between the analytical and structured world of business and the faith-driven approach that is essential for healthy churches. Written to offer practical solutions for senior pastors, executive pastors, key laypeople, and leaders of other Christian entities, *In Pursuit of Great AND Godly Leadership* clearly shows the ways that secular practices can be imported into their organizations. Bonem addresses a variety of topics such as planning, finances, personnel management, measurement, team dynamics, and organizational change. In doing so, he points to the AND that every spiritual organization should strive to achieve.

Leadership, Institutions and Enforcement Slobodan Tomić, 2019-03-08 This book presents an analysis of five anticorruption agencies (ACAs) from Serbia, Macedonia, and Croatia, exploring the impact of organisational factors and leadership on their enforcement patterns during the first decade of the transitional reforms (2001-2012). Contrary to the conventional theory of agency insulation, the analysis reveals that the ACAs' de facto autonomy was not crucially shaped by their statutory independence but rather by the reputational management of their leaders. The book draws on a mixture of qualitative and quantitative analysis to document these reputational strategies and how they shaped the ACAs' de facto autonomy. The findings also suggest that the ACAs' organisational model, defined by the delegated mandate and powers (preventative vs. suppressive), represented a key variable that mediated under which conditions high de facto autonomy can be achieved. The book offers contributions to the study of anticorruption policy and

ethics regulation as well as the wider inquiry into drivers of agency independence particularly in transitional contexts
