Cockerham, 2008-05-12 The Blackwell Companion to Medical Sociology is a comprehensive collection of twenty six original essays by leading medical sociologists from all over the world The articles are organized both topically and by region to provide thorough coverage of the concerns issues and future directions of the discipline This invaluable resource is the most informed complete and up to date reference on transnational medical sociology available today Covers both substantive areas in medical sociology and regional perspectives located in the Americas Europe the Middle East Asia and Africa First comparative perspective to provide a comprehensive view of the field

Health Care in the People's Republic of China Shahid Akhtar, 1975 560 references to literature published 1949 1974 Includes many English language journal articles as well as other publications in other languages Focuses on provision of rural and urban health care services and training of auxiliary health personnel specifically with reference to the barefoot doctors of China Entries arranged by authors under topics e g Disease control Dental health and Nutritional studies Miscellaneous appendixes Author subject indexes      *The Second Sickness* Howard Waitzkin, 2000-02-09 Since the appearance of Waitzkin's *The Second Sickness* a landmark book of the 1980s American medicine has been dramatically transformed Waitzkin's earlier edition used qualitative research to take readers inside the black box of medical decisionmaking This new fully updated and expanded edition retains the earlier edition's vivid approach and adds timely analysis of how managed care and other economic and social forces influence medical practice today      **Biomedical Odysseys** Priscilla Song, 2017-05-16 Thousands of people from more than eighty countries have traveled to China since 2001 to undergo fetal cell transplantation Galvanized by the potential of stem and fetal cells to regenerate damaged neurons and restore lost bodily functions people grappling with paralysis and neurodegenerative disorders have ignored the warnings of doctors and scientists back home in order to stake their futures on a Chinese experiment Biomedical Odysseys looks at why and how these individuals have entrusted their lives to Chinese neurosurgeons operating on the forefront of experimental medicine in a world where technologies and risks move faster than laws can keep pace Priscilla Song shows how cutting edge medicine is not just about the latest advances in biomedical science but also encompasses transformations in online patient activism surgical intervention and borderline experiments in health care bureaucracy Bringing together a decade of

ethnographic research in hospital wards laboratories and online patient discussion forums Song opens up important theoretical and methodological horizons in the anthropology of science technology and medicine She illuminates how poignant journeys in search of fetal cell cures become tangled in complex webs of digital mediation the entrepreneurial logics of postsocialist medicine and fraught debates about the ethics of clinical experimentation Using innovative methods to track the border crossing quests of Chinese clinicians and their patients from around the world *Biomedical Odysseys* is the first book to map the transnational life of fetal cell therapies      *China's Capacity to Manage Infectious Diseases* Xiaoqing Lu,2009      *China's Road to Development* N. Maxwell,2014-06-28 China's Road to Development is a collection of papers by specialists on aspects of China's economy and society It covers a wide range of subjects from development strategy to the specifics of small scale energy exploitation from the role of women in China's development to the greening of China through great efforts in afforestation Commenting on the limited issue original edition a special issue of the journal World Development from which this volume has been greatly expanded Dr Knowles President of the Rockefeller Foundation wrote A magnificent collection of essays by very astute and experienced observers covering everything from population control health economic planning trade city planning and rural development to Chinese aid in building the Tanzania Zambia railway If I could only afford two books on modern China I would get this one      **Informal Payments and Regulations in China's Healthcare System** Jingqing Yang,2016-11-26 This text addresses the key issue of informal payments or red packets in the Chinese Healthcare system It considers how transactions take place at the clinical level as well as their regulation Analysing the practice from the perspectives of institutions and power structure it examines how institutional changes in the pre reform and reform era have changed the power structure between medical professions patients and the Party state and how these changes have given rise and perpetuate the practice Drawing from qualitative data from interviews of medical professionals the author recognises the medical profession as a major player in the health care system and presents their perception of the practice as the taker of red packets and their interactions with the patient and the state surrounding the illegal practice in an authoritarian power structure The book considers the institutional reasons that motivate doctors to take patients to give and the government to tolerate red packets arguing that the bureaucratization of the medical profession society of acquaintances and shortage of quality of medical services jointly create an institutional setting that has given rise to these informal payments Contributing to a rounded understanding of the problems of healthcare reform in China this book is a key read for all scholars interested in the issue of informal payments and healthcare politics in transition economies      *Professions and the Public Interest* Mike Saks,2005-08-16 The importance and influence of professions in public life has grown increasingly over the twentieth century but the question of whether they subordinate their own self interests to the public interest has yet to be adequately researched within a major sociological perspective In *Professions and the Public Interest* Mike Saks develops a theoretical and methodological framework for assessing professional groups in Western society The empirical

applicability of this framework is demonstrated with particular reference to a novel case study of the response of the medical profession to acupuncture in the nineteenth and twentieth centuries Professions and the Public Interest will be of great interest to all lecturers and students of social policy sociology and medical sociology as well as to professional groups and their members

**Public Health in Asia and the Pacific** Milton J. Lewis, Kerrie L. MacPherson, 2007-10-19 The Asia Pacific region has not only the greatest concentration of population but is arguably the future economic centre of the world Epidemiological transition in the region is occurring much faster than it did in the West and many countries face the emerging problem of chronic diseases at the same time as they continue to grapple with communicable diseases This book explores how disease patterns and health problems in Asia and the Pacific and collective responses to them have been shaped over time by cultural economic social demographic environmental and political factors With fourteen chapters each devoted to a country in the region the authors take a comparative and historical approach to the evolution of public health and preventive medicine and offer a broader understanding of the links in a globalizing world between health on the one hand and culture economy polity and society on the other Public Health in Asia and the Pacific presents the importance of the non medical context in the history of human disease as well as the significance of disease in the larger histories of the region It will appeal to scholars and policy makers in the fields of public health the history of medicine and those with a wider interest in the Asia Pacific region

**Terror And Communist Politics** Jonathan R Adelman, Walter Bacon, 2019-07-09 From the Great Purges in the Soviet Union in the late 1930s to the bloody elite purges in Eastern Europe in the late 1940s and early 1950s to the mass terrorism in Cambodia in the middle 1970s the role of terror and the secret police in Communist politics has been powerful and highly visible This book reviews the surprisingly sparse literature on the subject and presents new studies of secret police forces and the political use of terror in the USSR China Poland Hungary Romania Czechoslovakia and Cambodia The focus of each country study is the nature and extent of internal terror and repression the range of external intelligence functions and the effect of secret police interference in internal policymaking processes The book ably fills a void in the literature by providing needed case studies as well as a theoretical framework for understanding secret police activity

*The People's Peking Man* Sigrid Schmalzer, 2024-05-31 In the 1920s an international team of scientists and miners unearthed the richest evidence of human evolution the world had ever seen Peking Man After the communist revolution of 1949 Peking Man became a prominent figure in the movement to bring science to the people In a new state with twin goals of crushing superstition and establishing a socialist society the story of human evolution was the

first lesson in Marxist philosophy offered to the masses At the same time even Mao's populist commitment to mass participation in science failed to account for the power of popular culture represented most strikingly in legends about the Bigfoot like Wild Man to reshape ideas about human nature The People's Peking Man is a skilled social history of twentieth century Chinese paleoanthropology and a compelling cultural and at times comparative history of assumptions and debates about what it means to be human By focusing on issues that push against the boundaries of science and politics The People's Peking Man offers an innovative approach to modern Chinese history and the history of science The Rise of Professionalism Magali Sarfatti Larson, 2017-07-12 What gave rise to our modern conceptions of professional status and how did particular professions gain their privileged status Magali Sarfatti Larson shows how our present conception and acceptance of profession was shaped in the liberal phase of capitalism Larson argues that professionalization was both a response to the extension of market relations and a movement for the conquest of collective social status by sectors of the bourgeoisie By comparing the development of various professions in England and the United States during the first part of the nineteenth century the author gives concrete historical illustration to the multiple relations professions form within their society Larson examines the new conditions of professionalization in the phase of corporate capitalism drawing on a number of historical and sociological sources While professions began as a mode of autonomous work organization many credentialed occupations aspire to professionalize in order to shelter the labor markets in which they work Larson argues that the idea of profession can function as a form of ideological control and concludes that today professionalism works against many of the values that had been historically vested in it This classic book complete with a new introduction that brings the work into the twenty first century is timely and should be read by all interested in the history and development of organizational life

*China and the Cholera Pandemic* Xiaoping Fang, 2021-04-13 Mao Zedong's Great Leap Forward campaign organized millions of Chinese peasants into communes in a misguided attempt to rapidly collectivize agriculture with disastrous effects Catastrophic famine lingered as the global cholera pandemic of the early 1960s spread rampantly through the infected waters of southeastern coastal China Confronted with a political crisis and the seventh global cholera pandemic in recorded history the communist government committed to social restructuring in order to affirm its legitimacy and prevent transmission of the disease Focusing on the Wenzhou Prefecture in Zhejiang Province the area most seriously stricken by cholera at the time Xiaoping Fang demonstrates how China's pandemic was far more than a health incident it became a significant social and political influence during a dramatic transition for the People's Republic China and the Cholera Pandemic reveals how disease control and prevention executed through the government's large scale clandestine anticholera campaign were integral components of its restructuring initiatives aimed at restoring social order The subsequent rise of an emergency disciplinary health state furthered these aims through quarantine and isolation which profoundly impacted the social epidemiology of the region dividing Chinese society and reinforcing hierarchies according to place gender and

socioeconomic status
