Literary History of the United States contains essays by today's foremost scholars and critics overseen by a board of distinguished editors headed by Emory Elliott of Princeton University. These contributors reexamine in contemporary terms traditional subjects such as the importance of Puritanism, Romanticism, and frontier humor in American life and writing, but they also fully explore themes and materials that have only begun to receive deserved attention in the last two decades. Among these are the role of women as writers, readers, and literary subjects, and the impact of writers from minority groups, both inside and outside the literary establishment.
