that Sue Watkins described in her book *Conversations With Seth* Jane Roberts who channeled Seth ushered in the modern new age movement This book is not ONLY for Seth readers but for EVERYONE who has their own spiritual questions You need not ever have heard of Seth I encourage readers to apply their own beliefs to what I say The book offers help and advice to anyone who is on his her own inner spiritual quest who wants to start one or who has simply felt an inner tugging as if something or someone inside is trying to help them understand that there is more to life than our five senses present I have been told that I explain metaphysical concepts clearly and creatively answering difficult and complex questions with insight compassion and humor to help the medicine go down The idea of this book started with the many comments and questions that arose from my online activities and my Seth presentations and interviews and grew from there It is heartening and inspiring to discover how I have helped others continue on their own spiritual journeys see testimonials below

*The Individual and the Nature of Mass Events* Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs But how do our realities merge and combine to form mass reactions such as the overthrow of governments the birth of a new religion wars epidemics earthquakes and new periods of art architecture and technology In this pioneering work Seth explores the connection between personal beliefs and world events He pinpoints the unconscious and often negative beliefs pervading science and religion medicine and mythology and offers thought provoking reflections on Darwinism Freudianism religions cults and medical beliefs With fascinating and inspiring implications Seth asserts that the personal impulses we are often taught to see as dangerous chaotic or contradictory are instead crucial to the best interests of the species and the natural world for they lead us to live not only as loving caretakers but as partners with other species Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events Jane Roberts Speaking for Seth

**The System of Antichrist** Charles Upton, 2005 The System of Antichrist examines the present religious and cultural scene from the standpoint of traditional metaphysics and critiques the New Age spiritualities within their postmodern context Its many references to Rene Guenon and Frithjof Schuon also help introduce these important but little known traditionalist thinkers The book presents lore relating to the latter days of the present cycle from the vantage point of comparative religion drawing upon relevant doctrines from Buddhism Hinduism Judaism Christianity Islam Zoroastrianism and the Native American traditions It also speculates upon the social psychic and spiritual nature of that being known to Christianity Judaism and Islam as the Antichrist presenting him as both an individual and a system and warning those willing to be warned against the spiritual seduction and terror he represents and against the regime which will be and is the social expression of that seduction and that terror Finally in tracing the roots of Antichrist in the fallen nature of man the author sketches the particular quality of spirituality proper to apocalyptic times the dangers it faces the unique opportunities open to it And along the way he describes his own course from the spiritual revolution of the 1960s through the world of New Age spiritualities to the threshold of traditional esoterism and metaphysics As he says speaking of the angst that characterizes the modern world The specific medicine for the shock of despair is the deeper shock of meaning Nothing but the weight of eternity breaking through the thin brittle shell of the postmodern sky can set us on our feet

Albanese,2023-01-17 Can you draw a clear line through American history from the Puritans to the Nones of today On the surface there is not much connective tissue between the former who often serve as shorthand for a persistent religious fanaticism in the United States and the almost one quarter of the population who now regularly check the None or None of the above box when responding to surveys of religious preference But instead of seeing a disconnect between these two groups separated by time historian Catherine Albanese insists there is a deep connection that spans the centuries With a targeted romp through American history from the seventeenth century to the present Albanese ties together these seemingly disparate groups through a shared and distinctively American preoccupation with delight and desire Albanese begins our journey with the role of delight and desire in the brand of Calvinism championed by renowned Puritan minister Cotton Mather and later Jonathan Edwards She then traces the development of these themes up through the present treating the reader to revelatory readings of Ralph Waldo

Emerson Horace Bushnell Andrew Jackson Davis William James Emma Curtis Hopkins Elizabeth Towne and others revealing the contours of an evolving theology of desire The result is an original and entertaining take on an underexamined through line in American history

[The Encyclopedic Sourcebook of New Age Religions](#) James R. Lewis, 2004-08-30 In the late 1980s the New Age movement became the focus of both media attention and widespread ridicule as some of the more outlandish aspects of the movement such as channeling and the use of crystals for healing briefly piqued the public's curiosity While the movement was at its height scholars of religion generally sneered at what was perceived to be a daffy shallow craze and ignored it as a subject of serious study Professor James R Lewis was among the first to examine this growing religious phenomenon scientifically In previous books he has investigated the New Age as the most visible manifestation of a significant spiritual subculture the roots of which reach back to Theosophy Spiritualism and New Thought The present

collection pursues this theme bringing together some of the best recent scholarship on new religions Since the height of its popular influence the New Age has declined in strength but has given rise to a plethora of new denominations all shaped by New Age ideas and spirituality Reflecting the emergence of this new denominational structure the core chapters of this book focus on specific groups Other chapters examine the movement's historical roots A unique feature of Dr Lewis's work is his inclusion of extensive selections from New Age literature thus allowing readers to experience firsthand the unusual perspectives of the various groups This is a fascinating examination of a significant and persistent religious and social phenomenon
