Setting Limits Pekka Sulkunen,Thomas F. Babor,Jenny Cisneros Ornberg,Michael Egerer,Matilda Hellman,Charles Livingstone,Virve Marionneau,Janne Nikkinen,Jim Orford,Robin Room,Ingeborg Rossow,2018-12-06 Commercial gambling is a recent historical phenomenon It has developed into a profitable industry that supplies a range of recreational activities to its customers and is a significant way of collecting money from players to distribute to companies state budgets and other beneficiaries Many of these are civil society organizations using the money for producing services in sports culture social work and health care However gambling can also develop into pathological behaviour Using a public interest framework this book discusses the policies that will best serve the public good and minimize individual and collective harms After describing the historical context of the gambling and the current global burden of the activity available methods of regulating the industry are evaluated using the available scientific evidence By analysing the effectiveness of gambling policies and their alignment with the public interest the epidemiological obstacles to successful regulation are considered in detail There is good evidence for the effectiveness of restrictions on availability and access but preventing gambling related harm is not possible without limiting the overall volume of the activity and hence the profits for the gambling industry and governments Taking an international approach this book delivers a comprehensive review of the epidemiological evidence documenting the harmful effects of gambling on individuals communities and societies Essential reading for policymakers social and

behavioural scientists in gambling research and public health researchers Setting Limits examines a global view of an emerging epidemic of gambling problems **Setting Limits, Revised & Expanded 2nd Edition** Robert J.
