Classical Japanese Cinema Revisited Catherine Russell, 2011-06-16 Catherine Russell's highly accessible book approaches Japanese cinema as an industry closely modeled on Hollywood, focusing on the classical period, those years in which the studio system dominated all film production in Japan, from roughly 1930 to 1960. Respectful and thoroughly informed about the aesthetics and critical values of the Japanese canon, Russell is also critical of some of its ideological tendencies, and her analyses provide new insights on class and gender dynamics. Russell locates Japanese cinema within a global system of reception, and she highlights the importance of the industrial production context of these films. Including studies of landmark films by Ozu, Kurosawa, and other directors, this book provides a perfect introduction to a crucial and often misunderstood area of Japanese cultural output. With a critical approach that highlights the everydayness of Japanese studio-era cinema, Catherine Russell demystifies the canon of great Japanese cinema, treating it with fewer auteurist and Orientalist

assumptions than many other scholars and critics. *The Epic in Film* Constantine Santas, 2008 Encourages us to wonder why critics have routinely dismissed the epic film. This work argues that blockbuster and artistic are not mutually exclusive terms, and that epic film is an inherently profound genre in its ability to tap into a nation's dreams and fears. **Creating**

**Japan's Ground Self-Defense Force, 1945-2015** David Hunter-Chester, 2016-11-30 *Creating Japan's Ground Self-Defense Force 1945-2015* is a timely contribution to postwar Japan security studies. It is the first comprehensive account of Japan's post-1945 army, including a comprehensive institutional history together with the evolution of roles and missions and the adoption of successive professional identities. The organizational history is embedded within a thorough examination of Japan's own defense policy as well as of America's policy of alliance with Japan. The book examines and challenges assumptions about the drafting and adoption of the War Renunciation clause of Japan's postwar Peace Constitution, Article 9, which uniquely not only renounces war but the arms to wage war. Thus Japan's army is not called an army but the Ground Self-Defense Force (GSDF). The work also examines the place of an army and soldiers in the formation of Japan's national identity after its last devastating war and explores the impact of constitutional, legal, and policy restrictions as well as the power of the

legacy of the still largely vilified Imperial Japanese Army on GSDF members who seek to serve because there are people we want to protect The study is rounded by an examination of the place of soldiers in Japan s popular culture focused on movies manga and anime assessing the impact on the GSDF of a public imagination that most often ignores or villainizes soldiers though ending with a note that some positive images of soldiers and of the GSDF members themselves have started to appear in the last few years The book s author a retired U S Army soldier who spent more than twenty years working studying and training with the GSDF offers a broad ranging exploration of a unique organization This work is extensively researched using English and Japanese sources and will appeal to anyone interested in Japanese security studies alliance studies and military imagery in Japanese pop culture as well as to students of military history international security international relations and cultural identity

Publish! ,2000      Spiritual Films James Piper,2013-08-02 For decades centuries even when people thought of spirituality they thought only of religion I aim to stretch the tent of spirituality in this e book to include secular experience My particular approach to secular spirituality is through the medium of film Characters in the 43 films I discuss come to spirituality without religion In some of these films religion nibbles at the edges of events as when in the Brazilian film Central Station Dora the cynical letter writer leaves hard bitten Rio with a boy she hopes to return to his father and finds herself surrounded by evangelicals shrines and churches She does not have any kind of religious conversion but there is no denying that the piety of the countryside softened her and escorted her into spirituality Now and then I quote assorted Buddhists Muslims Christians and Jews but usually only when their remarks throw light on secular matters I have avoided relying on muddled mystics who

Pugh, 2007-02-19 The medieval film genre is not in general concerned with constructing a historically accurate past but much analysis nonetheless centers on highlighting anachronisms This book aims to help scholars and aficionados of medieval film think about how the re-creation of an often mythical past performs important cultural work for modern directors and viewers The essays in this collection demonstrate that directors intentionally insert modern preoccupations into a setting that would normally be considered incompatible with these concepts The Middle Ages provide an imaginary space far enough removed from the present day to explore modern preoccupations with human identity      **The DVD and the Study of Film** M.
