Seven Plays by Elmer Rice, 1950      Seven Plays Elmer Rice, 1950 Donated by Sydney Harris      **Staging Technology**  
Craig N. Owens, 2021-01-28 Through an examination of a range of performance works ranging from Jean Cocteau's ballet *The Eiffel Tower Wedding Party* 1921 to Julie Taymor's monumental production of *Spider Man Turn off the Dark* 2010 and Mexican playwright Isaac Gomez's *La Ruta* 2018 *Staging Technology* asks what becomes visible when we encounter plays, operas and musicals that are themselves about fraught human-machine interfaces. What can theatrical production tell us about the way technology functions as an element of ideology and power in narrative drama? About the limits of the human? *Staging Technology* bridges the divide between the technical practices of theatre production and critical-theoretical approaches to interpreting drama to examine the way dramatic theatre's technologies are shaped by larger historical, ideological and economic forces. At the same time it examines how those technologies themselves have influenced 20th and 21st-century playwrights, composers and librettists' choice of subject matter for staged representation. Examining performance works from the modernist and post-modern European and American canon of drama, opera and performance art including works by Eugène Ionesco, Samuel Beckett, Heiner Müller, Sophie Treadwell, Harold Pinter, Tristan Tzara, Jean Cocteau, Arthur Miller, Robert Pinsky, John Adams and Alice Goodman, *Staging Technology* transforms how we think about the interrelationship between theatre practice, performance, narrative drama and text. In it, Craig N. Owens synthesizes approaches to interpretation and practice from disparate realms, offering insights into overarching ways of making meaning that are illustrated through focused and innovative readings of individual works for the dramatic stage. *Staging Technology* provides a new and transformative paradigm for thinking about dramatic literature, the practices of representational theatre production and the historical and social contexts they inhabit.

**The Facts on File Companion to American Drama**  
Jackson R. Bryer, Mary C. Hartig, 2010 Features a comprehensive guide to American dramatic literature from its origins in the early days of the nation to the groundbreaking works of today's best writers.      *American Realism and American Drama, 1880-1940* Brenda Murphy, 1987-08-27 The importance of Native American realism is traced through a study of the evolution of dramatic theory from the early 1890s through World War I and the uniquely American innovations in realistic drama between world wars.      The American Theatrical Film John C. Tibbetts, 1985 This book provides needed information on the collaborations between filmmakers and theater personnel before 1930 and completes our understanding of how two art forms influenced each other. It begins with the vaudeville and faerie dramas captured in brief films by the Edison and Biograph companies, follows the development of feature-length Sarah Bernhardt and James O'Neill films after 1912, examines the formation of theater-film combination companies in 1914-15 and details later collaborations during the talking picture revolution of 1927. Includes detailed analyses of important theatrical films like *The Count of Monte Cristo*, *The Virginian*, *Coquette* and *Paramount on Parade*.      *From Stereotype to Metaphor* Ellen Schiff, 2012-02-01 Who is a Jew? What is a Jew? In

this all encompassing study Dr Schiff probes these questions to help explain the prominence of Jewish characters in drama since World War II The Jew has evolved into one of the most popular personages on the contemporary stage Dramatists both Jew and Gentile in the United States and Europe have been mining recently introduced concepts of the Jew to create a highly diversified and unfamiliar breed of dramatic personae From Stereotype to Metaphor tracks the evolution of the Jewish persona on the stage From the debut of the Jew on the Western stage in the Middle Ages to the present century Dr Schiff investigates how the Jew has evolved from the stereotypical figures of biblical patriarchs money men and villains into latter day everyman This book traces the line of descent of the stage Jew from church drama Shakespeare Milton and Racine to modern playwrights including Miller Gibson Pinter Wesker Anouilh Grumberg and Woody Allen concentrating on the development of the stage Jew since 1945 The Playbill ,1929 **Watching the red dawn** Barnaby Haran,2016-04-29

This book offers the first sustained examination of the cultural relations of the American and Soviet avant gardes in a period of major transformation **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1979

**The Drama** ,1925 **Anatomy of a Robot** Despina Kakoudaki,2014-07-07 Why do we find artificial people fascinating Drawing from a rich fictional and cinematic tradition Anatomy of a Robot explores the political and textual implications of our perennial projections of humanity onto figures such as robots androids cyborgs and automata In an engaging sophisticated and accessible presentation Despina Kakoudaki argues that in their narrative and cultural deployment artificial people demarcate what it means to be human They perform this function by offering us a non human version of ourselves as a site of investigation Artificial people teach us that being human being a person or a self is a constant process and often a matter of legal philosophical and political struggle By analyzing a wide range of literary texts and films including episodes from Twilight Zone the fiction of Philip K Dick Kazuo Ishiguro s novel Never Let Me Go Metropolis The Golem Frankenstein The Terminator Iron Man Blade Runner and I Robot and going back to alchemy and to Aristotle s Physics and De Anima she tracks four foundational narrative elements in this centuries old discourse the fantasy of the artificial birth the fantasy of the mechanical body the tendency to represent artificial people as slaves and the interpretation of artificiality as an existential trope What unifies these investigations is the return of all four elements to the question of what constitutes the human This focused approach to the topic of the artificial constructed or mechanical person allows us to reconsider the creation of artificial life By focusing on their historical provenance and textual versatility Kakoudaki elucidates artificial people s main cultural function which is the political and existential negotiation of what it means to be a person *Drama* ,1927
