Seventeenth Century Letter Book:

A Seventeenth-century Letter-book Folger Shakespeare Library, 1983 **Private Letters of the Seventeenth Century** Walter Scott, 1947 **Print Letters in Seventeenth-Century England** Gary Schneider, 2018-02-06

Print Letters in Seventeenth Century England investigates how and why letters were printed in the interrelated spheres of political contestation religious controversy and news culture those published as pamphlets as broadsides and in newsbooks in the interests of ideological disputes and as political and religious propaganda The epistolary texts examined in this book be they fictional satirical collected or authentic were written for or framed to have a specific persuasive purpose typically an ideological or propagandistic one This volume offers a unique exploration into the crucial interface of manuscript culture and print culture where tremendous transformations occur when for instance at its most basic level a handwritten letter composed by a single individual and meant for another individual alone comes either intentionally or not into the purview of hundreds or even thousands of people This essential context a solitary exchange transmuted via print into an interaction consumed by many serves to highlight the manner in which letters were exploited as propaganda and operated as vehicles of cultural narrative The Material Letter in Early Modern England J. Daybell, 2012-04-24 The first major socio cultural study of manuscript letters and letter writing practices in early modern England Daybell examines a crucial period in the development of the English vernacular letter before Charles I's postal reforms in 1635 one that witnessed a significant extension of letter writing skills throughout society **Seventeenth Century Practical Mathematics** Paul Hughes, 2021-09-28 This exciting Greenville Collins biography is about seventeenth century navigation focusing for the first time on mathematics practised at sea This monograph argues the Restoration kings Charles II and James II promotion of cartography for both strategy and trade It is aimed at the academic cartographic and larger market of marine enthusiasts Through shipwreck and Arctic marooning and Dutch and Spanish charts Collins evolved a Prime Meridian running through Charles's capital After John Ogilby's successful Britannia Charles set Collins surveying his kingdom's coasts and James set John Adair surveying in Scotland They triangulated at sea Subsequently Collins persuaded James to sustain his dead brother's ambition This the British coast's first survey took six years After James's flight and William III's invasion Collins lead the royal yacht squadron for six years more garnering funds to publish Great Britain's Coasting Pilot The Admiralty and civic institutions subsidised what became his own pilot Collins aided Royal Society members in their investigations and his new guide remained vital to navigators through the century following Charles's cartographic promotion bloomed the most spectacularly in the atlases of Ogilby Collins and John Flamsteed for roads harbours and stars **A Seventeenth Century News Letter**, 1942 A Letter Book George Saintsbury, 2020-08-12 Reproduction of the original A Letter Book by George Saintsbury **A Book of Recollections** John Cordy Jeaffreson, 1894 **The Letterbook of John Custis IV of Williamsburg, 1717-1742** John Custis, 2005 This absorbing letterbook meticulously edited and thoroughly annotated

provides remarkable insight into the life and concerns of 18th century colonial Virginians. The letters are especially revealing about economic life, the material culture of colonial Virginia, and the treacherous legal and financial conditions in which even important planters operated. The correspondence clearly shows how a wealthy colonial planter uses and could be misused by the British mercantile system. The letters also provide a view of the personal side of the sober and overly frugal Custis: his fashionable passion for gardening in which he was inferior to few if any in Virginia; his strife-filled nine year marriage to Frances Parke before her death from smallpox; and his uneven relationships with his son and daughter.

Elizabethan Diplomacy and Epistolary Culture Elizabeth R. Williamson, 2021-05-23. A new account of Elizabethan diplomacy with an original archival foundation, this book examines the world of letters underlying diplomacy and political administration by exploring a material text never before studied in its own right: the diplomatic letter book. Author Elizabeth R. Williamson argues that a new focus on the central activity of information gathering allows us to situate diplomacy in its natural context as one of several intertwined areas of crown service and as one of the several sites of production of political information under Elizabeth I. Close attention to the material features of these letter books elucidates the environment in which they were produced, copied, and kept, and exposes the shared skills and practices of diplomatic activity, domestic governance, and early modern archiving. This archaeological exploration of epistolary and archival culture establishes a multi-tier of state actor that participates in, even defines, a notably early modern growth in administration and information management. Extending this discussion to our own conditions of access, a new parallel is drawn across two ages of information obsession as Williamson argues that the digital has a natural place in this textual history that we can no longer ignore. This study makes significant contributions to epistolary culture, diplomatic history, and early modern studies more widely by showing that understanding Elizabethan diplomacy takes us far beyond any single ambassador or agent defined as such; it is a way into an entire administrative landscape and political culture.

Women and Epistolary Agency in Early Modern Culture, 1450-1690 James Daybell, Andrew Gordon, 2016-06-10. *Women and Epistolary Agency in Early Modern Culture 1450-1690* is the first collection to examine the gendered nature of women's letter writing in England and Ireland from the late fifteenth century through to the Restoration. The essays collected here represent an important body of new work by a group of international scholars who together look to reorient the study of women's letters in the contexts of early modern culture. The volume builds upon recent approaches to the letter, both rhetorical and material, that have the power to transform the ways in which we understand and situate early modern women's letter writing, challenging misconceptions of women's letters as intrinsically private, domestic, and apolitical. The essays in the volume embrace a range of interdisciplinary approaches: historical, literary, palaeographic, linguistic, material, and gender-based. Contributors deal with a variety of issues related to early modern women's correspondence in England and Ireland. These include women's rhetorical and persuasive skills and the importance of gendered epistolary strategies; gender and the materiality of the letter as a physical form; female agency

education knowledge and power epistolary networks and communication technologies In this volume the study of women's letters is not confined to writings by women contributors here examine not only the collaborative nature of some letter writing but also explore how men addressed women in their correspondence as well as some rich examples of how women were constructed in and through the letters of men As a whole the book stands as a valuable reassessment of the complex gendered nature of early modern women's correspondence
