Mobility, Markets and Indigenous Socialities Cecilie Vindal Ødegaard, 2016-04-15 Exploring how people from Andean communities seek progress and social mobility by moving to the cities, Cecilie Ødegaard demonstrates the changing significance of kinship, reciprocity and ritual in an urban context. Through a focus on people's involvement in land occupations and local associations, labour and trade, Ødegaard examines the dialectics between popular practices and neoliberal state policies in processes of urbanization. The making and unmaking of notions of the Indigenous communal work and gender is central in this analysis and is discussed against the historical backdrop of the land occupations in Peruvian cities since the 1930s. Through its close ethnographic description of everyday life in a new urban neighbourhood, this book reveals how social and spatial categories and boundaries are continually negotiated in people's quest for mobility and progress. Cecilie Ødegaard argues that conventional meanings of prosperity and progress are significantly altered in interaction with Andean understandings of reciprocity. By combining a unique ethnographic account with original theoretical arguments, the book provides new insight into the cultural, cosmological and political dimensions of mobility, progress and market participation.

The Corner of the Living Miguel La Serna, 2012-03-12 Peru's indigenous peoples played a key role in the tortured tale of Shining Path guerrillas from the 1960s through the first decade of the twenty-first century. The villagers of Chuschi and Huaychao, high in the mountains of the department of Ayacucho, have an iconic place in this violent history. Emphasizing the years leading up to the peak period of violence from 1980 to 2000, when 69,000 people lost their lives, Miguel La Serna asks why some Andean peasants chose to embrace Shining Path ideology and others did not. Drawing on archival materials and ethnographic field work, La Serna argues that historically rooted and locally specific power relations, social conflicts and cultural understandings shaped the responses of indigenous peasants to the insurgency. In Chuschi, the guerrillas found indigenous support for the movement and dreamed of sparking a worldwide Maoist revolution. In Huaychao, by contrast, villagers rose up against Shining Path forces, precipitating more violence and feeding an international uproar that took on political significance for Peru during the Cold

War The Corner of the Living illuminates both the stark realities of life for the rural poor everywhere and why they may or may not choose to mobilize around a revolutionary cause
