Media, Process, and the Social Construction of Crime Gregg Barak, 2013-10-28 First published in 1995 One of the most pervasive forms of social control in our society is the mass media The public learns from television newspapers magazines movies and books what is happening in the world and how to interpret it The problem however is that full or complete interpretations of reality are not presented In short reality itself clear and unadorned is not to be found in the information provided by the media Instead media presentations consist of those various viewpoints that succeed in capturing the minds and imaginations of the masses or in terms of the 1992 presidential campaign that successfully put the winning spin on information Barak and others believe that criminologists should participate in the various media presentations of crime and justice By bringing their knowledge to bear on media

presentations criminologists can help make some news more representative and less distorted of the social reality of crime

Sexual Violence Kathleen Monahan, 2024-01-31 Sexual violence is a multifaceted crime and a global health problem. It is a crime that can happen to anyone including young and old male and female rich and poor. Sexual violence persists due to several variables including abuse history and a society's tolerance of the crime. Additionally, belief systems, cultural norms, and legal systems create environments that allow abusers to escape detection. This book addresses sexual violence myths, belief systems, and the media's role in perpetuating sexual violence. It also examines the role of social media in facilitating sexual crimes, particularly sex trafficking. Finally, this book examines the work of community stakeholders in addressing and treating individuals who have been sexually victimized and the coping mechanisms of sexually traumatized adult women. *Crime*

and the Media Sarah E.H. Moore, 2017-09-16 From video games that allow us to participate in Mafia style violence to newspaper reports about the latest terrorist atrocity, from detective novels that fill our bedside cabinets to Hollywood's beloved legal dramas, the mass media is saturated with stories about crime, justice, and disorder. Together they create a cultural landscape of crime that is distinctly at odds with reality as criminologists are apt to complain. *Crime and the Media* attempts to make sense of this cultural landscape and its relationship with broader social trends and public attitudes. Through focussed critical discussions about crime in the media, taking on crime news and fictional representations of cops, courts, and corrections, the text equips students with an understanding of the key theoretical concepts and methodological tools that are required to undertake media analysis. With questions for discussion, exercises, and workshop sessions, as well as techniques for analysing crime in a range of media formats, the book makes an invaluable contribution to crime and media courses and to the social sciences in general. **Understanding the Effects of Child Sexual Abuse** Sam

Warner, 2009-01-13 Child sexual abuse is a global problem that negatively affects many women and girls. As such, it has long been of concern to feminists and more recently mental health activists. This book draws on this revolutionary legacy, feminism, and post-structuralism to critically examine current perceptions of women, girls, and child abuse in psychology, psychiatry, and the mass media, and to re-evaluate mainstream and feminist approaches to this subject. The book aims to contribute to the ongoing development of a knowledge base for working with abused women and girls and demonstrates the need to question the use of formulaic methods in working with abused women and girls. It calls for an explicit concern with politics, principles, and ethics in the related areas of theory, research, and practice. Using research into women who have been sexually abused in childhood and who are detained in maximum security mental health care, Sam Warner explores and identifies key principles for practice. A social recovery model of intervention is developed, and case study examples are used to demonstrate its applicability in a range of practice areas. These include abuse, psychotherapy, expert witness reports in child protection, with mothers of abused girls, and with women and girls in secure care contexts. This thorough investigation of this emotive issue provides a clear theoretical and practical framework for understanding and coping with child sexual abuse. This book will be

of interest to anyone who works with children and adults who have been abused This includes clinical psychologists therapists and other professionals that work in mental health psychotherapy and social services and legal settings within both community and secure care contexts It should also be essential reading for students and academics in this area

Policing and the Media Frank Leishman, Paul Mason, 2012-12-06 Policing and the Media provides an up to date overview of the changing dynamics and dimensions of the relationships that exist on the British police media nexus Factual fictional and factional representations of policing in the media are the major and for a great many citizens probably the sole influence in shaping their perceptions and opinions about crime law and order community safety police efficiency and integrity not to mention the efficacy of criminal justice and penal policy This book deals with all three representations noting the lines between such clear divisions are increasingly blurred and the concepts of reality realism and representation slippery and complex
