Making Marriage Modern Christina Simmons, 2009-04-10 The nineteenth century middle class ideal of the married

woman was of a chaste and diligent wife focused on being a loving mother with few needs or rights of her own. The modern woman, by contrast, was partner to a new model of marriage, one in which she and her husband formed a relationship based on greater sexual and psychological equality. In *Making Marriage Modern*, Christina Simmons narrates the development of this new companionate marriage ideal, which took hold in the early twentieth century and prevailed in American society by the 1940s. The first challenges to public reticence to discuss sexual relations between husbands and wives came from social hygiene reformers who advocated for a scientific but conservative sex education to combat prostitution and venereal disease. A more radical group of feminists, anarchists, and bohemians opposed the Victorian model of marriage and even the institution of marriage. Birth control advocates such as Emma Goldman and Margaret Sanger openly championed women's rights to acquire and use effective contraception. The companionate marriage emerged from these efforts. This marital ideal was characterized by greater emotional and sexuality intimacy for both men and women, use of birth control to create smaller families, and destigmatization of divorce in cases of failed unions. Simmons examines what she calls the flapper marriage, in which free-spirited young wives enjoyed the early years of marriage postponing children and domesticity. She looks at the feminist marriage, in which women imagined greater equality between the sexes in domestic and paid work and sex. And she explores the African American partnership marriage, which often included wives' employment and drew more heavily on the involvement of the community and extended family. Finally, she traces how these modern ideals of marriage were promoted in sexual advice literature and marriage manuals of the period. Though male dominance persisted in companionate marriages, Christina Simmons shows how they called for greater independence and satisfaction for women and a new female heterosexuality. By raising women's expectations of marriage, the companionate ideal also contained within it the seeds of second-wave feminists' demands for transforming the institution into one of true equality between the sexes.

Sexual Liberation, Socialist Style Kateřina Lišková, 2018-05-03 This is the first account of sexual liberation in Eastern Europe during the Cold War Kateřina Lišková reveals how in the case of Czechoslovakia important aspects of sexuality were already liberated during the 1950s abortion was legalized homosexuality decriminalized the female orgasm came into experts' focus and all that was underscored by an emphasis on gender equality However with the coming of Normalization gender discourses reversed and women were to aspire to be caring mothers and docile wives Good sex was to cement a lasting marriage and family In contrast to the usual Western accounts highlighting the importance of social movements to sexual and gender freedom here we discover through the analysis of rich archival sources covering forty years of state socialism in Czechoslovakia how experts including sexologists demographers and psychologists advised the state on population development marriage and the family to shape the most intimate aspects of people's lives

Law, Sex, and Christian Society in Medieval Europe James A. Brundage, 2009-02-15 This monumental study of medieval law and sexual conduct explores the origin and development of the Christian church's sex law and the systems of belief upon which that law rested Focusing on the Church's own legal system of canon law James A. Brundage offers a comprehensive history of legal doctrines covering the millennium from A.D. 500 to 1500 concerning a wide variety of sexual behavior including marital sex adultery homosexuality concubinage prostitution masturbation and incest His survey makes strikingly clear how the system

of sexual control in a world we have half forgotten has shaped the world in which we live today The regulation of marriage and divorce as we know it today together with the outlawing of bigamy and polygamy and the imposition of criminal sanctions on such activities as sodomy fellatio cunnilingus and bestiality are all based in large measure upon ideas and beliefs about sexual morality that became law in Christian Europe in the Middle Ages Brundage's book is consistently learned enormously useful and frequently entertaining It is the best we have on the relationships between theological norms legal principles and sexual practice Peter Iver Kaufman Church History
