Articulate Flesh Gregory Woods, 1987-01-01 Arguing that homosexual poetry is part of the mainstream of poetic writing not a distinct and differentiated category within it Gregory Woods provides a fastidious study of homosexual poetry in the twentieth century that emphasizes the homo erotic themes in the works of D H Lawrence Hart Crane W H Auden Allen Ginsberg and Thom Gunn Woods's controlled and elegant study demonstrates that a critic who ignores the sexual orientation of a poet particularly a love poet risks overlooking the significance of the poetry itself A Mirror for England Raymond Durnat, 2019-07-25 Raymond Durnat's classic study of British films from the 1940s to the 1960s first published in 1970 remains one of the most important books ever written on British cinema In his introduction Kevin Gough Yates writes Even now it astounds by its courage and its audacity if you think you have an original approach to a film or a director's work and

check it against A Mirror for England you generally discover that Raymond Durgnat had said it already Durgnat himself said about the book that the main point was arranging a kind of rendezvous between thinking about movies and thinking not so much about sociology as about the experiences that people are having all the time Durgnat used Mirror to assert the validity of British cinema against its dismissal by the critics of Cahiers du cin ma and Sight and Sound His analysis takes in classics such as In Which We Serve 1942 A Matter of Life and Death 1946 and The Blue Lamp 1949 alongside B films and popular genres such as Hammer horror Durgnat makes a cogent and compelling case for the success of British films in reflecting British predicaments moods and myths at the same time as providing some disturbing new insights into a national character by whose enigmas and contradictions we continue to be perplexed and fascinated

Too Much of a Good Thing Ramona Curry, 1996 Before Madonna before Marilyn there was Mae The impact of Mae West through her films attitude and aphorisms Too much of a good thing can be wonderful Is that a gun in your pocket or are you just glad to see me continues to reverberate through American popular culture more than fifteen years after her death In Too Much of a Good Thing Ramona Curry examines the interplay between West's bawdy worldly persona and twentieth century gender and media politics Although West has remained an important figure her image has fulfilled varied cultural functions In the thirties she was a lightning rod for debates over morality and censorship In the seventies the complexity of her portrayal of gender made her a controversial figure for both the gay rights and feminist movements Curry not only analyzes the symbolic roles West has occupied arguing that the entertainer represents a carefully orchestrated transgression of race class and gender expectations she also illustrates how icons of pop culture often distill contested social issues serving diverse and even contradictory political functions A pithy and innovative look at what Mae West means Too Much of a Good Thing is must reading for fans film buffs and anyone interested in how popular culture evolves and circulates in the United States

Extraterritorialities in Occupied Worlds Exterritory Project, 2016 The concept of extraterritoriality designates certain relationships between space law and representation This collection of essays explores contemporary manifestations of extraterritoriality and the diverse ways in which the concept has been put to use in various disciplines Some of the essays were written especially for this volume others are brought here together for the first time The inquiry into extraterritoriality found in these essays is not confined to the established boundaries of political conceptual and representational territories or fields of knowledge rather it is an invitation to navigate the margins of the legal juridical and the political but also the edges of forms of representation and poetics Within its accepted legal and political contexts the concept of extraterritoriality has traditionally been applied to people and to spaces In the first case extraterritorial arrangements could either exclude or exempt an individual or a group of people from the territorial jurisdiction in which they were physically located in the second such arrangements could exempt or exclude a space from the territorial jurisdiction by which it was surrounded The special status accorded to people and spaces had political economic and juridical implications ranging from immunity and various

privileges to extreme disadvantages In both cases a person or a space physically included within a certain territory was removed from the usual system of laws and subjected to another In other words the extraterritorial person or space was held at what could be described as a legal distance In this respect the concept of extraterritoriality presupposes the existence of several competing or overlapping legal systems It is this notion of being held at a legal distance around which the concept of extraterritoriality may be understood as revolving
