to New Orleans San Francisco and Los Angeles The approach is biographical using representative middle class figures to illuminate cultural and social history Aided by more cheaply produced print and the clamor of the American public for entertainment both high and low brow the figures described in this book strove for fame sometimes achieved good fortune and acted out desires for sexual pleasure political success and achieving the ideal in society In doing so they questioned and rearranged the ideas of the early Republic Poised between the dying class structure of the late eighteenth century and the rise of a more hierarchical one in the early twentieth they took advantage of a society in flux to make their mark on American culture
