The failure of the attempts to create a Ukrainian state during the 1917-21 revolution created a large Ukrainian migrant community in Central Europe which due to its experience of fighting the Bolsheviks developed a decidedly anti-Communist ideology of integral nationalism However during the 1920s some in the Ukrainian emigration rejected this doctrine and began to advocate reconciliation with their former enemies and return to Soviet Ukraine This included some of the most prominent figures in the Ukrainian governments set up after 1917 for example Mykhailo Hrushevskyi Volodymyr Vynnychenko and Yevhen Petrushevych On the basis of published and unpublished writings of the Sovietophile migrants Christopher Gilley reconstructs and analyzes the arguments used to justify cooperation with the Bolsheviks In particular he contrasts those who supported the Soviet regime because they saw the Bolsheviks as leaders of the international revolution with those who stressed the apparent national achievements of the Soviet Ukrainian republic In addition Gilley examines Soviet policy towards pro-Soviet migrants and the relationship between the migrants and the Bolsheviks using documents from historical archives in Kyiv The Ukrainian movement is compared to a similar phenomenon in the Russian emigration *Smena vekh* Change of Signposts The book contributes to the study of the era of the New Economic Policy and Ukrainianization in the

Soviet Union as well as to the histories of the Ukrainian emigration in the 1920s and of Ukrainian political thought **The Jewish Veteran** ,1940 Imperial Germany Revisited Sven Oliver Müller,Cornelius Torp,2013 The German Empire its structure its dynamic development between 1871 and 1918 and its legacy have been the focus of lively international debate that is showing signs of further intensification as we approach the centenary of the outbreak of World War I Based on recent work and scholarly arguments about continuities and discontinuities in modern German history from Bismarck to Hitler well known experts broadly explore four themes the positioning of the Bismarckian Empire in the course of German history the relationships between society politics and culture in a period of momentous transformations the escalation of military violence in Germany s colonies before 1914 and later in two world wars and finally the situation of Germany within the international system as a major political and economic player The perspectives presented in this volume have already stimulated further argument and will be of interest to anyone looking for orientation in this field of research *Discourse and Defiance under Nazi Occupation* Cheryl R. Jorgensen-Earp,2013-11-01 Captured by German forces shortly after Dunkirk and not relinquished until May of 1945 nearly a year after the Normandy invasion the British Channel Islands Guernsey Jersey Alderney Sark and Herm were characterized during their occupation by severe deprivation and powerlessness The Islanders with few resources to stage an armed resistance constructed a rhetorical resistance based upon the manipulation of discourse construction of new symbols and defiance of German restrictions on information Though much of modern history has focused on the possibility that Islanders may have collaborated with the Germans this eye opening history turns to secret war diaries kept in Guernsey A close reading of these private accounts written at great risk to the diarists allows those who actually experienced the Occupation to reclaim their voice and reveals new understandings of Island resistance What emerges is a stirring account of the unquenchable spirit and deft improvisation of otherwise ordinary people in extraordinary circumstances Under the most dangerous of conditions Guernsey civilians used imaginative methods in reacting to their position as a subjugated population devising a covert resistance of nuance and sustainability Violence this book and the people of Guernsey demonstrate is not at all the only means with which to confront evil **Arthur Burkett's Diaries** Linda Burkett,2019-04-28 This is an extraordinary diary of Arthur Burkett an ordinary British Soldier and Prisoner of War during the Lamsdorf Death March For four months 100 000 Allied POWs were marched across Germany and away from the approaching Russian forces sometimes marching over 40 kilometres 25 miles per day Arthur s story gives a terrifying insight into the daily struggle of the POWs from freezing temperatures hunger exhaustion and health problems This story gives Arthur s first hand account of where he went who he met and what he saw It shows the courage of men kindness of civilians and the brutality of war in the constant effort to survive It covers his daily life as a POW before the March and during some of his three years in captivity We therefore invite you to read the memoirs of POW number 220660 a normal 22 year old from Walthamstow called up to fight in the Second World War *Conquerors' Road* Osmar White,2003-03-27 An account of

Narrative Factuality Monika Fludernik, Marie-Laure Ryan, 2019-12-16 The study of narrative the object of the rapidly growing discipline of narratology has been traditionally concerned with the fictional narratives of literature such as novels or short stories But narrative is a transdisciplinary and transmedial concept whose manifestations encompass both the fictional and the factual In this volume which provides a companion piece to Tobias Klauk and Tilmann Kppe's *Fiktionalit t Ein interdisziplin res Handbuch* the use of narrative to convey true and reliable information is systematically explored across media cultures and disciplines as well as in its narratological stylistic philosophical and rhetorical dimensions At a time when the notion of truth has come under attack it is imperative to reaffirm the commitment to facts of certain types of narrative and to examine critically the foundations of this commitment But because it takes a background for a figure to emerge clearly this book will also explore nonfactual types of narratives thereby providing insights

into the nature of narrative fiction that could not be reached from the narrowly literary perspective of early narratology

The Rise of National Socialism in the Bavarian Highlands Edith Raim, 2021-12-28 The Rise of National Socialism in the Bavarian Highlands offers a microhistory of the town of Murnau between 1919 and 1933 a period which witnessed the rise of national socialism in Germany National socialism had its roots in Bavaria where the Weimar Republic found it difficult to secure popular support amongst the rural population It was in this region that economic hardship and effective national socialist propaganda furthered the erosion of democracy Focusing on Murnau this book examines the political and economic state of the town as well as the mentality and social composition of its inhabitants It also looks at the development of tourism in the interwar period a topic which has received little scholarly attention Although the study limits itself to one town the reactions of its inhabitants reflect a common attitude of nostalgia for a seemingly better past and a rejection of the excessive demands of modernity that the Weimar Republic exacted on them This book will appeal to scholars and students of national socialism as well as those interested in the Weimar Republic Nazi Germany microhistory and the history of tourism

Nazi Germany, Annexed Poland and Colonial Rule Rachel O'Sullivan, 2023-10-19 This book examines Nazi Germany's expansion population management and establishment of a racially stratified society within the Reichsgaue Reich Districts of Wartheland and Danzig West Prussia in annexed Poland 1939-1945 through a colonial lens The topic of the Holocaust has thus far dominated the scholarly debate on the relevance of colonialism for our understanding of the Nazi regime However as opposed to solely concentrating on violence to investigate whether the Holocaust can be located within wider colonial frameworks Rachel O'Sullivan utilizes a broader approach by investigating other aspects such as discourses and fantasies related to expansion settlement civilising missions and Germanisation which were also intrinsic to Nazi Germany's rule in Poland The resettlement of the ethnic Germans individuals of German descent who lived in Eastern Europe until the outbreak of the Second World War forms a main focal point for this study's analysis and investigation of colonial comparisons The ethnic German resettlement in the Reichsgaue laid the foundations for the establishment and enforcement of German society and culture while simultaneously intensifying the efforts to control Poles and remove Jews Through this case study O'Sullivan explores Nazi Germany's dual usage of inclusionary policies which attempted to culturally and linguistically integrate ethnic Germans and certain Poles into German society and the contrasting exclusionary policies which sought to rid annexed Poland of undesirable population groups through segregation deportation and murder The book compares these policies and the tactics used to implement them to colonial and settler colonial methods of assimilation subjugation and violence

Speaking the Unspeakable in Postwar Germany

Sonja Boos,2015-03-10 Speaking the Unspeakable in Postwar Germany is an interdisciplinary study of a diverse set of public speeches given by major literary and cultural figures in the 1950s and 1960s Through close readings of canonical speeches by Hannah Arendt Theodor W Adorno Ingeborg Bachmann Martin Buber Paul Celan Uwe Johnson Peter Szondi and Peter Weiss Sonja Boos demonstrates that these speakers both facilitated and subverted the construction of a public discourse about the Holocaust in postwar West Germany The author s analysis of original audio recordings of the speech events several of which will be available on a companion website improves our understanding of the spoken performative dimension of public speeches While emphasizing the social constructedness of discourse experience and identity Boos does not neglect the pragmatic conditions of aesthetic and intellectual production most notably the felt need to respond to the breach in tradition caused by the Holocaust The book thereby illuminates the process by which a set of writers and intellectuals instead of trying to mend what they perceived as a radical break in historical continuity or corroborating the myth of a new beginning searched for ways to make this historical rupture rhetorically and semantically discernible and literally audible
