by bringing into the debate the human rights and equality discourses Also included is material based on empirical testing of restorative justice claims especially those impacting on reoffending rates victim satisfaction and reintegration The volume concludes with a critique of restorative justice as well as with analytical thinking that aims to push its barriers It is hoped that the investigations offered by this volume not only offer hope for a better system for abolitionists and reformists but also new and convincing evidence to persuade the sceptics in the debate over restorative justice *Security/Capital* George S. Rigakos,2016-03-18 What is security and what is its relationship to capitalism George S Rigakos explosive treatise charts the rise of the security industrial complex Starting from a critical appraisal of productive labour in the works of Karl Marx and Adam Smith Rigakos builds a conceptual model of pacification based on practices of dispossession exploitation and the fetish of security commodities Rigakos argues that a defining characteristic of the global economic system is its ability to productively sell in security to those it makes insecure Materially and ideologically the security industrial complex is the blast furnace of global capitalism fuelling the perpetuation of the system while feeding relentlessly on the surpluses it has exacted

Municipal Corporate Security in International Context Kevin Walby,Randy K Lippert,2015-04-10 Corporate security is a form of regulation that involves centralized management of access control physical security personnel security and information security inside an organization For all the research on public policing national security and private contract security in sociology criminology and related disciplines little scholarly attention has been paid to corporate security Increasingly corporate security is playing an important role in municipal and other government organizations as well as its traditional private corporate domain This book is the first social scientific contribution on corporate security to draw together the sociologies of security and policing legal and social theory and debates about municipal government In this book Walby and Lippert conceptualize various types of corporate security including its public and private forms and analyze a range of practices such as asset protection and physical security provision The authors explore a number of heretofore neglected themes including use of legal knowledge professionalization legitimization work and corporate security links with other security agencies and public police The book provides empirical analyses of developments in several countries but especially Canada and the US where corporate security including its entry into municipal government is particularly advanced Because corporate security cuts across security policing law and government as well as issues of professionalization public space and democracy the readership for *Municipal Corporate Security in International Context* spans disciplinary and national boundaries It is essential reading for academics and students engaged in studying security urban governance politics and legal regulation It will be of great interest to corporate security professionals and government policymakers too **Twilight Policing** Dr. Tessa G. Diphoorn,2015-10-20 South Africa boasts the largest private security sector in the entire world reflecting deep anxieties about violence security and governance *Twilight Policing* is an ethnographic study of the daily policing practices of armed response officers a specific type of private security officer and their interactions with citizens and

the state police in Durban South Africa This book shows how their policing practices simultaneously undermine and support the state resulting in actions that are neither public nor private but something in between something twilight Their performances of security are also punitive disciplinary and exclusionary and they work to reinforce post apartheid racial and economic inequalities Ultimately Twilight Policing helps to illuminate how citizens survive volatile conditions and to whom they assign the authority to guide them in the process *Crime and Security* Benjamin Goold,2017-07-05 The pursuit of security is now central to the development of public policy and a driving force behind the spread of private policing Just as new theoretical frameworks are needed to deal with the increasing tendency of crime control policies to focus on risk reduction new forms of governance are also required to deal with the rapid growth of the private security industry This volume brings together a wide range of contributions from leading scholars in the field and includes international and comparative perspectives on the challenges posed by the rise of the security society Imperial Subjects Colin Mooers,2014-08-28 This highly original work posits that the changes in the nature of citizenship caused by neoliberal globalization must be understood as the result of an ongoing imperial project Although they may seem admirable policies such as humanitarian and citizenship rights are really an imperial venture led by global institutions and corporations in order to export capitalist market forces worldwide This entails a form of neoliberal citizenship in which social security is replaced by market insecurity and rising inequality In this light the citizen becomes an imperial subject whose needs and desires have been colonized by the global market However emerging social forces in Latin America and elsewhere have begun to challenge this imperialist logic fostering a resistance that may bring forth a new global vision of citizenship This unique analysis draws together neoliberal citizenship new imperialism and the creation of financial subjects into an innovative theoretical exploration By expanding the debate on global citizenship *Imperial Subjects* will engage readers in political and social sciences interested in contemporary political thought citizenship and globalization *Transnational and Comparative Criminology* James Sheptycki,Ali Wardak,2012-09-10 This book examines the issues of crime and its control in the twenty first century an era of human history where people live in an increasingly interconnected and interdependent world providing invaluable and first hand readings for undergraduate and postgraduate students **Re-imagining Policing in Canada** Dennis Cooley,2005-12-15 Policing in Canada is in the process of change similar to other nations in the western world many of the policing services that were provided by public forces in the past are being gradually handed over to private security agencies Complex networks of policing that reflect a mix of public and private security providers are emerging and this transformation has serious implications for how Canadians interact with one another For instance if residents of a gated community or members of a downtown business association pay for their own policing services rather than relying on the public police whose law is being enforced With this collection Dennis Cooley has brought together some of the top minds in criminology and policing to examine the phenomenon of the changing nature of policing in Canada The essays describe the

character and constitution of security in Canada and explore the implications of these changes in terms of larger questions about power social control justice and law Wide ranging and topical Re imagining Policing in Canada will prove essential reading for policy makers and scholars alike
