thought of the most important American statesmen activists and writers across era and ideologies helping another generation of students scholars and citizens to understand more fully the meaning of America This new second edition of the book includes new essays on Walt Whitman Lyndon Baines Johnson Ronald Reagan and Barack Obama Significant revisions and additions have also been made to many of the original essays increasing the breadth and depth of the collection *The History and Logic of Modern Chinese Politics* Mingsheng Wang,2021-08-24 This book explores the history and development of modern Chinese politics Written by Dr Mingsheng Wang a renowned Chinese political scientist it presents a truly groundbreaking and thought provoking study of the sociopolitical forces behind China s gradual emergence as a new global power in the 20th century and its rapid rise as the world s second largest economy over the past 40 years The author s argument illuminated by comparative theoretical analyses based on meticulously detailed empirical research functions as a lens through which readers can better understand China s remarkable accomplishments as well as consider broader issues that have perplexed many Is there a China Path to sociopolitical progress What is socialism with Chinese characteristics Can China redefine its niche and maintain its growing momentum in an increasingly multilateral world And finally what lessons can we draw from China s continuing progress in the post COVID era As the author argues eloquently and with persuasive evidence China s ongoing progress has followed neither the mode of Russian style socialism nor that of Western prototypical capitalism Rather it represents a distinctively different model of progress and a continuous search for a viable alternative route to modernity that is permeated with Chinese realities By identifying an alternative system described as the China Path the author demonstrates convincingly that there exist ample options for different types of modernity and that economic growth means not only industrialization but also the development of political democratization and the realization of the rule of law In this sense this book significantly enriches our understanding of modern China The 33 carefully selected essays in the anthology provide a much needed opportunity for scholars policy makers and all interested readers to obtain an insider s view of the history and prospect of China s political development **Truth, History and Politics in Mongolia** Christopher Kaplonski,2004-07-31 Using Mongolia as its example this book examines how knowledge is transmitted and transformed in light of political change by looking at shifting conceptions of historical figures It suggests that the reflection of people s concept of themselves is a much greater influence in the writing of history than has previously been thought and examines in detail how history was used to subvert the socialist project in Mongolia This is the first study of the symbolic struggle over who controlled the past and the true identity of a Mongol fought between the ruling party and its protesters during the democratic revolution *The Two Cities: A History of Christian Politics* Andrew Willard Jones,2021-06-24 The prevailing narrative of human history given to us as children and reinforced constantly through our culture is the plot of progress As the narrative goes we progressed from tyranny to freedom from superstition to science from poverty to wealth from darkness to enlightenment This is modernity s origin myth Out of it a consensus has emerged part of human progress is the overcoming

of religion in particular Christianity and that the world itself is fundamentally secular In *The Two Cities A History of Christian Politics* Andrew Willard Jones rewrites the political history of the West with a new plot a plot in which Christianity is true in which human history is Church history The Two Cities moves through the rise and fall of empires cycles of corruption and reform the rise and fall of Christendom the emergence of new political forms such as the modern state and new political ideologies such as liberalism and socialism through the horrible destruction of modern warfare and on to the plight of contemporary Christians These movements of history are all considered in light of their orientation toward or away from God The Two Cities advances a theory of Christian politics that is both an explanation of secular politics and a proposal for Christians seeking to navigate today's most urgent political questions *Political Thought and Political History* M.

Gammer, Joseph Kostiner, Moshe Shemesh, 2003 This volume is limited to contributions by Professor Kedourie's previous students It reveals the far reaching range of his interests and the immense expanse of his horizons The first part deals with philosophy political thought and ideology and the second with history and politics **Scientific Statesmanship,**
