Politics Of Liberation In South Sudan An Insiders Wiew:

Politics of Liberation in South Sudan Peter Adwok Nyaba, 2000 **The Politics of Fear in South Sudan** Daniel Akech Thiong, 2021-04-22 When asked in 2016 if he would step down as President of South Sudan Salva Kiir replied my exit could spark genocide Kiir's words exemplify how fear and the threat of mass violence have become central to the politics of South Sudan As South Sudanese analyst Daniel Akech Thiong shows it is this politics that lies at the heart of the country's seemingly intractable civil war In this book Akech Thiong explores the origins of South Sudan's politics of fear Weaving together social economic and cultural factors into a comprehensive framework he reveals how the country's elites have exploited ethnic divisions as a means of mobilising support and securing their grip on power in the process triggering violent conflict He also considers the ways in which this politics of fear takes root among the wider populace exploring the role of corruption social media and state coercion in spreading hatred and fostering mass violence As regimes across Africa and around the world become increasingly reliant on their own politics of fear Akech Thiong's book offers novel insight into a growing phenomenon with implications far beyond South Sudan **The Real Politics of the Horn of Africa** Alex de Waal, 2015-10-19 The Real Politics of the Horn of Africa delves into the business of politics in the turbulent war-torn countries of north east Africa It is a contemporary history of how politicians generals and insurgents bargain over money and power and use of war to achieve their goals Drawing on a thirty year career in Sudan Ethiopia Eritrea and Somalia including experience as a participant in high level peace talks Alex de Waal provides a unique and compelling account of how these countries' leaders run their governments conduct their business fight their wars and occasionally make peace De Waal shows how leaders operate on a business model securing funds for their political budgets which they use to rent the provisional allegiances of army officers militia commanders tribal chiefs and party officials at the going rate This political marketplace is eroding the institutions of government and reversing statebuilding and it is fuelled in large part by oil exports aid funds and western military assistance for counter terrorism and peacekeeping The Real Politics of the Horn of Africa is a sharp and disturbing book with profound implications for international relations development and peacemaking in the Horn of Africa and beyond **The Challenge of Governance in South Sudan** Steven C Roach, Derrick K Hudson, 2018-09-13 South Sudan is one of the world's most divided and unstable countries Since achieving statehood in 2011 the country has plunged into civil war 2013-15 and become the scene of some of the worst human rights abuses on the African continent Despite ongoing political turmoil states and international institutions have pledged enormous resources to stabilize the country and shore up the current peace process but have had limited influence in dealing with the effects of rampant corruption and factionalism The Challenge of Governance in South Sudan examines the factors that continue to haunt peace building efforts including the domination of the SPLM A factionalization corruption human rights atrocities an ineffective constitution and the role of international actors It brings together a diverse set of leading scholars to reflect on these factors and propose ways of

promoting peace and stability in South Sudan In particular the book asks whether the disparity between domestic priorities policies and foreign intervention strategies has prevented the peace process from moving forward The contributors probe this issue by addressing the flaws of past peace agreements poor governance a weakly articulated peacekeeping mission US foreign policy and a lack of moral accountability This book is perfect for students scholars and policy makers with an interest in the challenges faced by the world s newest country War and Genocide in South Sudan Clémence Pinaud,2021-02-15 Using more than a decade s worth of fieldwork in South Sudan Clémence Pinaud here explores the relationship between predatory wealth accumulation state formation and a form of racism extreme ethnic group entitlement that has the potential to result in genocide War and Genocide in South Sudan traces the rise of a predatory state during civil war in southern Sudan and its transformation into a violent Dinka ethnocracy after the region s formal independence That new state Pinaud argues waged genocide against non Dinka civilians in 2013 2017 During a civil war that wrecked the region between 1983 and 2005 the predominantly Dinka Sudan People s Liberation Army SPLA practiced ethnically exclusive and predatory wealth accumulation Its actions fostered extreme group entitlement and profoundly shaped the rebel state Ethnic group entitlement eventually grew into an ideology of ethnic supremacy After that war ended the semi autonomous state turned into a violent and predatory ethnocracy a process accelerated by independence in 2011 The rise of exclusionary nationalism a new security landscape and inter ethnic political competition contributed to the start of a new round of civil war in 2013 in which the recently founded state unleashed violence against nearly all non Dinka ethnic groups Pinaud investigates three campaigns waged by the South Sudan government in 2013 2017 and concludes they were genocidal they sought to destroy non Dinka target groups She demonstrates how the perpetrators sense of group entitlement culminated in land grabs that amounted to a genocidal conquest echoing the imperialist origins of modern genocides Thanks to generous funding from TOME the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories **The Fate of Sudan** John Young,2012-08-30 In 2005 the Comprehensive Peace Agreement CPA ended one of Africa s most devastating civil wars and set the stage for the partition of Sudan Africa s largest country One of the most important peace agreements in African history it has had decisive consequences for the entire Horn of Africa Yet to date there has been little rigorous analysis as to why the parties signed the CPA what strategies they adopted having signed the agreement and the political consequences of state partition actually are John Young argues forcefully that the birth of the independent state of Southern Sudan and the threat of further dismemberment of a rump northern Sudan are due to the failure of the approaches and ideologies of the main Sudanese parties as well as a deeply flawed US backed peace process that excludes civil society and other rebel groups Written by someone directly involved in the Sudanese election and referendum processes and featuring a wealth of first hand evidence this is a crucial examination of a topic of intense political and media interest **South Sudan: the Case for Independence & Learning from Mistakes** LB Lokosang,2010-09-10

This work started some few years ago motivated by internet discussions involving a group of South Sudanese in the Diaspora. A question was floated by the author: Why must South Sudan become an independent state? A number of forum discussants contributed with answers to this key question. The contributions were substantial and provided the mould of this book. I therefore want to salute the efforts of my compatriots Dr Charles Bakhiet Saki, Mr Rogato Ohide and others who added some bits of answers to that key question. Their individual intellectual contributions to the initial manuscript are invaluable. If this book scored some mileage, these compatriots are part of the acclaim.

The Traumatic Past and Uncertain Future of South Sudan Nhial Thiwat Ruach, 2015-11-25. This book examines post colonial and post independence challenges facing South Sudan, both external and internal factors as it transitions into becoming a nation state. Other focuses are issues that hinder the implementation of good governance, delivery of services to the people, preservation of the environment and natural resources, and the unity among South Sudan's multiple ethnicities. The book also briefly touches on my personal journey in pursuit of elementary and higher education, a rough journey that began in a country that has been ravaged by a civil war. Therefore, it would serve as informative and inspirational to those who may face difficult experiences as a refugee or emigrants. In addition, this book supposed to be published in the summer of 2013, however, the author was caught in a civil war that broke out while on a visit in South Sudan and he escaped near death twice in the Juba massacres of the Nuers and the attack on his home town of Ulang all were carried out by the South Sudan military ordered by country's leader Salva Kiir Mayardit. As a result, the author was stranded in the remote area of South Sudan for more than a year before he could finally return to the United States. Since this book is written from Social Responsibility and Social Justice perspectives, it addresses some of the issues that affect individual and the society as a whole. And some of the issues covered in this book were among the forecasting challenges and problems that are now facing people of South Sudan under the leadership of Salva Kiir and some of them came to reality as I predicted them during the writings of this book.
