Politics Of Scarcity Public Pressure P:

Pressure Politics in Congress Party Ram Singh Awana, 1988 The book attempts to study the Congress Forum for Socialist Action as a pressure group within the Congress party between mid 1962 and early 1973 It has also touched upon the revival of the CFSA in 1977 and 1987 Explaining how non implementation of party policies and programmes authoritative attitude of the party elite towards the rank and file and the emergence of ideological differences among them led to the formation of the pressure group The structure process and functions of the pressure group have also been analysed The forum reiterated its faith in defining the concept of socialism its basic objective being to emphasize the establishment of socialistic society in the country The forum achieved a good success as far as controlling monopolistic tendencies and expansion of public enterprise were concerned Democratic Political Process ,2009 In Indian context **Voluntary Associations** John W.

Chapman, 2017-09-29 A vast and complicated array of subject matter is subjected to analysis comment and speculation by fifteen contributors representing three separate but contiguous disciplines Their approaches are as various as one would expect One is concerned with the bonds that hold associations together and another with the tendency for the private to become public One sees associations as interferences with democratic political processes while another is more impressed by their positive values Still another shows that the way in which they operate in the political process depends not only on the kind of association but also upon the political context within which they operate Pennock and Chapman say that the theorist's job is to speculate and to interpret the facts as he sees them It is also the theorist's job to suggest hypotheses for testing to point to lines of inquiry that should be pursued One cannot read the essays in this volume without having his eyes opened or opened wider both to the paucity of information about the political features of voluntary associations and to the wide variety of aspects from which the subject needs to be approached The kinds of questions that need to be examined can be grouped in categories The first focuses on the individual What kinds of memberships does he have Even more what is the effect upon him of membership in each kind of association The second examines internal composition and workings of organizations The third focuses on the state as a whole and the effect of organized groups upon it the political processes of the associational structure of the society and modes of behavior of these associations Organized groups play an intermediate role in the polity At the same time the state and those charged at any particular time with the performance of its functions must look primarily to new associations within it to secure compliance with its law and for guidance in shaping those laws *Party Politics and Democratic Governance in India* Alaknanda Shringare, 2009 **Comparative survey analysis** Stein Rokkan, Sidney

Verba, Jean Viet, Elina Almasy, 2018-12-03 No detailed description available for Comparative survey analysis **The Battle for Asia** Mark T. Berger, 2004-03 This book is a history of the Asian region from 1945 to the present day which delineates the various ideological battles over Asia's development *Land Reform and Politics* Hung-chao Tai, 2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate

the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974 *Combating Communalism in India* Kanwal Kishore Bhardwaj,1993-01-01 **Democracy, Development, and**

the Countryside Ashutosh Varshney,1998-09-18 Several scholars have written about how authoritarian or democratic political systems affect industrialization in the developing countries There is no literature however on whether democracy makes a difference to the power and well being of the countryside Using India as a case where the longest surviving democracy of the developing world exists this book investigates how the countryside uses the political system to advance its interests It is first argued that India s countryside has become quite powerful in the political system exerting remarkable pressure on economic policy The countryside is typically weak in the early stages of development becoming powerful when the size of the rural sector defies this historical trend But an important constraint on rural power stems from the inability of economic interests to overpower the abiding ascriptive identities and until an economic construction of politics completely overpowers identities and non economic interests farmers power though greater than ever before will remain self limited

Agricultural Efficiency in India Hem Chandra Lal Das,1993 *Arab Resources* I. Ibrahim,2016-03-22 The modern Arab world is faced with a serious problem in the imbalance between human and natural resources The Gulf states with their vast natural resources are poor in human resources whereas in Egypt or Jordan the picture is reversed This study first published in 1983 considers the range of factors affecting development in the Arab world and examines the broad sectoral resources the infrastructure for resource development and the range of problems shaping the political economy of Arab advancement In conclusion an analysis is made of the existing trends in the transformation of Arab society and ways are suggested in which these trends will develop over the next decade *Beyond Orientalism* Fred Dallmayr,1996-12-12 *Beyond Orientalism* explores the confluence of contemporary Western especially Continental philosophy with its focus on otherness and difference and the ongoing process of globalization or the emergence of the global village The basic question raised in the book is What will be the prevailing life form or discourse of the global village Will it be the discourse of Western science industry and metaphysics which under the banner of modernization and development seeks to homogenize the world in its image In Said s work this strategy was labeled Orientalism Or will it be possible to move beyond Orientalism in the direction neither of global uniformity nor radical fragmentation After discussing the broad range of possible modes of cross cultural encounter in a historical perspective the book develops as a preferred option the notion of a deconstructive dialogue or a hermeneutics of difference which respects otherness beyond assimilation This hermeneutics is illustrated in chapters examining several bridge builders between cultures primarily the Indian philosophers Radhakrishnan and J L Mehta and the Indologist Halbfass The remaining chapters are devoted to more concrete social political problems including issues of modernization multiculturalism and the prospects of a globalized democracy which bids farewell to Orientalism and

Eurocentrism **Resource Allocation in the Public Sector** Colin Fisher,2002-01-04 In the public sector at the moment resources are scarce or at the very least finite and limited how they are allocated is therefore of crucial importance This book analyses this process and examines the competing values that underlie the public service ethic including the role of markets and quasi markets in the delivery of public services Topics discussed include whether people should be denied the public services they need because public bodies are short of money what balance we should strike between markets and public organisations to provide public services whether the use of markets has gone too far and whether we need to return to a public service ethic Nations And States Hugh Seton-watson,2019-06-03 This major book by one of the great political and social historians of our time is a study of the force of nationalism a force that continues to shake our world Reaching beyond nationalism as a doctrine beyond the content psychological origins and analysis of that doctrine the book represents and enquiry into all the important political move *Parallels and Actuals of Political Development* A.H.
