

A close-up photograph of a woman with dark hair, smiling warmly down at a newborn baby. The baby is sleeping peacefully, wearing a white hospital gown. The woman's face is in profile, and her expression is one of love and care. The background is softly blurred, focusing attention on the mother and child.

Rediscovering Midwifery Science And Sensitivity In Practice:

The New Midwifery Lesley Ann Page, Rona McCandlish, 2006-12-05 Practicing as a midwife today requires not only good clinical skills but also a broad understanding of the social and emotional changes a woman experiences before and after birth. This book combines scientific knowledge with the more intangible skills needed for sensitive communication to provide the best possible care to the mother and her family. The second edition of this celebrated text vividly explores the various skills and approaches that lead to successful midwifery practice and uses care stories to bring these to life. Provides a refreshingly new approach to key areas of midwifery practice in a way that brings practice to life. Illustrates and supports the fundamental changes currently taking place in midwifery around the world. Builds on the most up to date evidence based research to suggest guidelines for best practices. Explores the impact of parenthood and offers strategies for effectively supporting individuals during this period of transition. Includes care stories case studies that highlight positive midwifery care and successful childbirth experiences. Offers contrasting stories from around the world illustrating how maternity care in industrialized society differs from that in a non industrial or third world environment. Provides up to date research and reference material.

The Labor Progress Handbook Penny Simkin, Ruth Ancheta, 2011-01-31 The third edition of The Labor Progress Handbook builds on the success of first two editions and remains an unparalleled resource on simple non invasive interventions to prevent or treat difficult labor. Retaining the hallmark features of previous editions the book is replete with illustrations showing position movements and techniques and is logically organized to facilitate ease of use. This edition includes two new chapters on third and fourth stage labor management and low technology interventions a complete analysis of directed versus spontaneous pushing and additional information on massage techniques. The authors have updated references throughout expertly weaving the highest level of evidence with years of experience in clinical practice. The Labor Progress Handbook continues to be a must have resource for those involved in all aspects of birth by providing practical instruction on low cost low risk interventions to manage and treat dystocia.

Intrapartum Care Denis Walsh, Soo Downe, 2013-05-07 Intrapartum care has undergone profound changes over the past fifty years. Essential Midwifery Practice: Intrapartum Care takes a broad sweep to examine these changes and their intersection with midwifery in particular their impact on the midwife's role during labour and birth. It is an invaluable guide for all midwives. Essential Midwifery Practice: Intrapartum Care addresses a wide range of topics including the evolution of intrapartum care, debates about knowledge and childbirth education. It looks at birth environments, labour rhythms, working with pain, normal birth, unusual labours and complementary therapies. Written by key experts and providing guidance on best practice, this unique and diverse text will bring readers up to date with the latest research and reflection in their specialist fields. Written by key experts in their respective fields coming together for the first time. Provides comprehensive examination of normal birth practice. Evidence based bringing you up to date with the latest research.
