Seeking Wisdom in Adult Teaching and Learning Wilma Fraser, 2017-10-24 This book concerns the pursuit of wisdom in education and the argument that wisdom personified here as Sophia is tragically marginalised or absent in current Western epistemological discourses It includes a review of key historical and classical framings which have lost much potency and relevance as certain cultural narratives hold sway these include the reductionist technicist and highly instrumentalist discourses which shape the articulation and delivery of much education policy and practice whilst reflecting similar troubling framings from broader neoliberal perspectives Fraser argues that wisdom's marginalisation has had and continues to have profoundly deleterious consequences for our educative practices Through a compelling combination of narrative and autoethnographic techniques while also drawing on philosophical and cultural traditions the book pushes at the boundaries of emerging knowledge including how knowledge is generated It will be of interest to those who facilitate the learning of adults in a variety of settings as well as to students and supervisors seeking exemplars and justification for working in non traditional ways

International Handbook of the Religious, Moral and Spiritual Dimensions in Education

Marian de Souza,Gloria Durka,Kathleen Engebretson,Robert Jackson,Andrew McGrady,2007-06-04 Traditionally spirituality has resided and been contained within religious frameworks but while the links between the two areas are still acknowledged by many in the contemporary world spirituality is perceived by some as an aspect of human life that is distinct from religion Consequently many are searching for meaning within and without religious traditions today and seeking answers to ethical and moral questions that have been generated by the knowledge and technological explosion One outcome is the renewed interest in the religious spiritual and moral dimensions of education throughout the life cycle This International Handbook presents the research and professional practice of scholars who are daily engaged in the consideration of these dimensions in education The result is a collection of essays which reflects the discipline in all of its internationality as it as today Embedded within the chapters is also an agenda for the future where the religious moral and spiritual dimensions in education are

proposed as an exciting and challenging way forward for educators at all levels in society As well it offers a vision for the emergence of a peaceful and just world **God and Philosophy** Antony Flew, 2010-09-09 In this classic primer to the philosophy of religion Antony Flew subjects a wide range of philosophical arguments for the existence of the Christian God to intense critical scrutiny However the rumour in some circles is that Flew long time advocate of atheistic humanism has become a theist Judge for yourself *Five Proofs of the Existence of God* Edward Feser, 2017-08-25 This book provides a detailed updated exposition and defense of five of the historically most important but in recent years largely neglected philosophical proofs of God s existence the Aristotelian the Neo Platonic the Augustinian the Thomistic and the Rationalist It also offers a thorough treatment of each of the key divine attributes unity simplicity eternity omnipotence omniscience perfect goodness and so forth showing that they must be possessed by the God whose existence is demonstrated by the proofs Finally it answers at length all of the objections that have been leveled against these proofs This work provides as ambitious and complete a defense of traditional natural theology as is currently in print Its aim is to vindicate the view of the greatest philosophers of the past thinkers like Aristotle Plotinus Augustine Aquinas Leibniz and many others that the existence of God can be established with certainty by way of purely rational arguments It thereby serves as a refutation both of atheism and of the fideism that gives aid and comfort to atheism
