Redoble Por Rancas:

Nightmares of the Lettered City Juan Pablo Dabove, 2007-06-17 Nightmares of the Lettered City presents an original study of the popular theme of banditry in works of literature essays poetry and drama and banditry's pivotal role during the conceptualization and formation of the Latin American nation state Juan Pablo Dabove examines writings over a broad time period from the early nineteenth century to the 1920s and while Nightmares of the Lettered City focuses on four crucial countries Argentina Mexico Brazil and Venezuela it is the first book to address the depiction of banditry in Latin America as a whole The work offers close reading of Facundo Do a Barbara Os Sert es and Martin Fierro among other works illuminating the ever changing and often contradictory political agendas of the literary elite in their portrayals of the forms of peasant insurgency labeled banditry Banditry has haunted the Latin American literary imagination As a cultural trope banditry has always been an uneasy compromise between desire and anxiety a nightmare and Dabove isolates three main representational strategies He analyzes the bandit as radical other a figure through which the elites depicted the threats posed to them by various sectors outside the lettered city Further he considers the bandit as a trope used in elite internecine struggles In this case rural insurgency was a means to legitimize or refute an opposing sector or faction within the lettered city Finally Dabove shows how in certain cases the bandit was used as an image of the nonstate violence that the nation state has to suppress as a historical force and simultaneously exalt as a memory in order to achieve cultural coherence and actual sovereignty As Dabove convincingly demonstrates the elite's construction of the bandit is essential to our understanding of the development of the Latin American nation in the nineteenth and early twentieth centuries **Colonial Divide in**
