Knut Heidar,2000-12-29 A discussion of the political system of Norway focusing on political parties democracy and accountability in one of the richest countries in the world that still is anchored in an egalitarian culture with a strong local base and facing the challenge of a dynamic Europeization process **Trusting in Higher Education** Paul Gibbs,Peter Maassen,2022-02-07 This multidisciplinary book brings together scholars from Norway and the UK to discuss the notion of trust within the structures and forms of higher education located in two distinctive localities The meaning of trust is multi variant and nuanced but is omnipresent in the literature on higher education ranging from student engagement to policy exhortations A key feature of this book is the effort to integrate the term trust conceptually functionally and phenomenological more generally as well as within the context of higher education Practice from within Norway and the UK is used to illustrate and expose relevant similarities and varieties in trust and the possible lack of it within the sector The book thus faces the complexity of trust and its distinctive manifestation through a number of analytical lenses and realities

Northbound Karen Klitgaard Povlsen, 2007 In this book a group of 16 scholars from Denmark Norway Sweden Iceland Greenland Finland Germany and the USA explore the changes that had taken place in the conception of the North during the 18th century changes that were a symptom of an ambivalent understanding of the North vis vis the South From antiquity to Montesquieu the North could be considered a Dystopia and a Utopia a barbaric margin of Europe but also an area of freedom natural strength and robust women who were any man s equal

Reflections Olav Klepp, 2002-09-12 Wars hate bloodshed and savage events started in Iraq and the Middle East more than 1 400 years ago long before the discovery of America and the establishing of the United States of America The hate culture had been the real problem in the Middle East for hundreds of years Certainly it is not the USA even in the case of the Arab Israel conflict in modern history It is well known that the various American administrations tried to find a peaceful end to this conflict Unfortunately the Arab leaders always give the public an impression that they are very close to defeating Israel and they put the blame for not doing it on the USA The Arab leaders and the media ignore that the Israelis have had nuclear weapons since the 60s Only a naive person would think that the Israeli people will follow the steps of the crusaders by boarding ships and leaving the Middle East The Israelis will not keep their nuclear weapons in boxes and leave asking the Arab leaders to dust them occasionally They will use them to defend their existence and a new map for the Middle East will emerge The Arab government officials still cannot see that Iran Syria and its associates in Iraq and Lebanon are the enemy and the real threat to them and the whole world The Iranians used thousands of twelve year old Iranian Muslim children to walk through the mine fields to clear the way for the regular Iranian military forces during the Iran Iraq war Also they used chemical weapons political assassinations and international terrorism The hate culture directed toward Israel along with the corruption oppression and all other aspects of the hate culture cloud the judgment of the Arab officials and the public
