Teacher Personal Theorizing Gail MacCutcheon, 1992-01-01 This book examines the relationship between teacher theorizing and teacher action as illustrated by the curricular and instructional practices of teachers The authors show that all teaching is guided by theory developed by the teachers Teachers could not begin to practice without some knowledge of the context of their practice and without ideas about what can and should be done in those circumstances In this sense teachers are guided by personal practical theories that structure their activities and guide them in making decisions This literature is very significant in explaining and interpreting many phenomena of schooling such as why teachers alter curriculum documents and other policies how inservice education can be improved how supervisors can help teachers to improve their practices and how administrators can become leaders to improve education This perspective has broad and specific implications for every facet of education Those interested in teacher education and development in supervision in curriculum and in administration will find it especially relevant

More Than Existing Corrie Thorne, 2020-07-28 More Than Existing is a story of love and healing as Corrie shares her struggles and pain narrated through the eyes and memories of the woman she is today along with the Divine channels that walk alongside her Through learning to revisit and truly see through the eyes of others including the so called enemies she released the energy tied to being a victim and instead transmuted the trauma and pain into an energy of love She is no longer defined by the past and has learned to truly see her worth value and importance of establishing clear boundaries as she now walks a path of More Than Existing The journey from arriving here in human form to becoming the woman she is today has not been easy but it has been worth every step Readers will see themselves walking through their own stories looking through new eyes and applying the wisdom and knowledge shared by Corrie in learning to take ownership and responsibility for their life This is a healing journey when one allows themselves to receive the messages and blessings embedded within every page Corrie has developed a complete self actualization coaching program based on the principles of learning to live a life of More Than

Existing Her deepest wish is for readers to know that they are worthy and deserve to find happiness and joy by first understanding that this is found within each of us and not within the approval or acceptance so often sought from others
