Reflexive Modernization Politics Tradition And Aesthetics In The Mod:

Reflexive Modernization Ulrich Beck, Anthony Giddens, Scott Lash, 1994 Three prominent social thinkers discuss how modern society is undercutting its formations of class stratum occupations sex roles the nuclear family and more Reflexive modernization or the way one kind of modernization undercuts and changes another has wide ranging implications for contemporary social and cultural theory as this provocative book demonstrates Reflexive Modernization Ulrich Beck, Anthony Giddens, Scott Lash, 1994-01 In this book three social thinkers discuss the implications of reflexive modernization for social and cultural theory today Ulrich Beck's vision of the risk society has already become influential Beck offers a new elaboration of his basic ideas connecting reflexive modernization with new issues to do with the state and political organization Giddens offers an in depth examination of the connections between institutional reflexivity and the de traditionalizing of the modern world We are entering he argues a phase of the development of a global society A global society is not a world society but one with universalizing tendencies Lash develops the theme of reflexive modernization in relation to aesthetics and the interpretation of culture In this domain he suggests we need to look again at the conventional theories of postmodernism aesthetic modernization has distinctive qualities that need to be uncovered and analyzed

Gates, 2011-01-23 Since the 1960s a significant effort has been underway to program computers to see the human face to develop automated systems for identifying faces and distinguishing them from one another commonly known as Facial Recognition Technology While computer scientists are developing FRT in order to design more intelligent and interactive machines businesses and states agencies view the technology as uniquely suited for smart surveillance systems that automate the labor of monitoring in order to increase their efficacy and spread their reach Tracking this technological pursuit *Our Biometric Future* identifies FRT as a prime example of the failed technocratic approach to governance where new technologies are pursued as shortsighted solutions to complex social problems Culling news stories press releases policy

statements PR kits and other materials Kelly Gates provides evidence that instead of providing more security for more people the pursuit of FRT is being driven by the priorities of corporations law enforcement and state security agencies all convinced of the technology's necessity and unhindered by its complicated and potentially destructive social consequences By focusing on the politics of developing and deploying these technologies Our Biometric Future argues not for the inevitability of a particular technological future but for its profound contingency and contestability
