Reflexivity In Tristram Shandy An Essay:

Laurence Sterne and the Visual Imagination W.B. Gerard, 2016-12-05 The first full length and comprehensive study of the illustrations of Sterne's work this book explores the ability of Sterne's texts to inspire the visual imagination It helps to explain why scores of editions of his fiction have been illustrated some profusely to fulfill the reader's desire as well as the artist's compulsion to visualize Sterne's words Gerard places his subject in a clear and innovative theoretical framework which opens the field to general word and image studies The author begins by examining the distinct varieties of pictorialism in Sterne's texts The remainder of the study takes into account three remarkable series of illustrations representing Trim reading the sermon didactic sentimentalism in *A Sentimental Journey* and Henry Mackenzie's *Man of Feeling* and the many and diverse portrayals of poor Maria to demonstrate the ways in which culture projects these texts differently through the various artists

The Reflexive Thesis Malcolm Ashmore, 1989-08-02 This unusually innovative book treats reflexivity not as a philosophical conundrum but as a practical issue that arises in the course of scholarly research and argument In order to demonstrate the concrete and consequential nature of reflexivity Malcolm Ashmore concentrates on an area in which reflexive problems are acute the sociology of scientific knowledge At the forefront of recent radical changes in our understanding of science this increasingly influential mode of analysis specializes in rigorous deconstructions of the research practices and textual products of the scientific enterprise Through a series of detailed examinations of the practices and products of the sociology of scientific knowledge Ashmore turns its own claims and findings back onto itself and opens up a whole new era of exploration beyond the common fear of reflexive self destruction [Reflexivity in Tristram Shandy](#) James

E. Swearingen, 1977-01-01 [Laurence Sterne in Modernism and Postmodernism](#) David Pierce, Peter de Voogd, 2023-04-17 Laurence Sterne's *Tristram Shandy* is the most wayward and in some respects the most powerful critique of Locke's theory of knowledge while his interest in the gulf between biological and clock time makes him a contemporary of Proust and Bergson In obscuring the fine line between autobiography and fiction Sterne belongs to the generation of modern writers that includes Joyce and Nabokov In his deliberate refusal to construct a go-ahead plot Sterne commends himself to contemporary narratologists In his concern with personal identity he anticipates the Derridean stress on trace In his promiscuous borrowings from past authors he offers himself as a suitably perverse model for the school of postmodern theory In his attention to matters of typography and to a visual language he provides a running commentary on almost every aspect of the relationship between word and image Himself influenced by Rabelais Montaigne Cervantes and Burton Sterne has influenced writers as diverse as Cabrera Infante Kundera Marquez Rushdie and Beckett And James Joyce These influences are traced here by sixteen scholars from Europe and the USA proof if any were needed that Laurence Sterne today is as rewardingly puzzling as he was in his own century **The Age of Reasons** Wendy Motooka, 2013-05-13 Wendy Motooka contends that the Age of Reason was actually an Age of Reasons Joining imaginative literature moral philosophy and the emerging

discourse of the new science she seeks to historicise the meaning of eighteenth century reason and its supposed opposites quixotism and sentimentalism Reading novels by the Fieldings Lennox and Sterne alongside the works of Adam Smith Motooka argues that the legacy of sentimentalism is the social sciences This book raises our understanding of eighteenth century British culture and its relation to the rational culture of economics that is growing ever more pervasive today

The Cambridge Companion to the Eighteenth-Century Novel John Richetti, 1996-09-05 In the past twenty years our understanding of the novel s emergence in eighteenth century Britain has drastically changed Drawing on new research in

social and political history the twelve contributors to this Companion challenge and refine the traditional view of the novel's origins and purposes. In various ways each seeks to show that the novel is not defined primarily by its realism of representation but by the new ideological and cultural functions it serves in the emerging modern world of print culture. Sentimental and Gothic fiction and fiction by women are discussed alongside detailed readings of work by Defoe, Swift, Richardson, Henry Fielding, Sterne, Smollett, and Burney. This multifaceted picture of the novel in its formative decades provides a comprehensive and indispensable guide for students of the eighteenth-century British novel and its place within the culture of its time.
