Refounding The World A Western Testament

Jean-Claude Guillebaud

Refounding The World A Western Testament:

Re-founding the World Jean-Claude Guillebaud, 2001 Is it time to dump Western capitalism's values Or on the contrary to re found our market based society by dumping its distortions and returning to the fundamental values of our Greek Judeo Christian heritage

The Mystery and the World Maria Clara Bingemer, 2017-02-23 In *The Mystery and the World* Maria Clara Bingemer explores how the place of religion in society has dramatically shifted since the Enlightenment The modern era is characterised by a major change in humanity's fundamental desires that means that reason has taken the place of faith Human beings in their ongoing search for a scientific understanding of the world have drifted away from seeking any essence of transcendence in their lives Bingemer examines this transition and how especially in the postmodern era it has led to technology and superficial happiness becoming all important as opposed to the more sacred sense of contentment that governed us for centuries prior to the Enlightenment In her discussion however Bingemer demonstrates that we as humans have not lost our innate desire to believe in a higher power and that even in our world of instant satisfaction we still need to fill the void left by religion Through well researched analysis of the modern era and discussion of some of the mystics of more recent times she reveals to readers how our religious belief whilst changed is not dead and is still an important aspect of our existence

The Impasse of Modernity Christian Comeliau, 2002 Because of the deep unease over the direction modern society is following Christian Comeliau has written this critique of the global market economy The author explores its alienating effects and social consequences

Abdelkébir Khatibi Jane Hiddleston, Khalid Lyamlahy, 2020 Abdelk bir Khatibi is one of the most important voices to emerge from North Africa in postcolonial studies This book is the first to offer a thoroughgoing analysis in English of all aspects of his multifaceted thought as it ranges from Moroccan politics to Arabic calligraphy and from decolonisation to interculturality

The Publishers Weekly, 2001 *Economic Life Beyond Economists* Abderrazak Belabes, 2024-08-12 Through an examination of the work of great scholars from fields including philosophy literature philology semiology quantum physics history and anthropology this book argues that building on the contribution of non economists can open new areas of reflection in economics beyond the usual schools of thought The purpose of the book is twofold First it offers a critique and discussion of the limits of contemporary economic discourse both mainstream and self styled alternative theories The central theme on which the book is built is that the discipline of economics fails to examine the nature of social reality in a systematic way This prompts the economists to become fully aware of the methodology on which they base their representation analysis and argumentation in a way that economists currently are not Second the book proposes alternative ways of thinking that can help readers of economics to overcome the current limitations of their discipline This means going beyond various dominant dualities orthodox heterodox micro macro epistemology ontology because it is not a question of doing the economy differently but of overcoming the economy as a representation of the world that strives to submit everything to its realm Thus the book does not simply propose a broader

conceptual framework than that portrayed by mainstream economists or those who propose an alternative approach but raises questions that do not usually come from the minds of economists at all The book will be of particular interest to readers of economic methodology and pluralism philosophers of science and other social scientists interested in methodological issues **Mystic Chords** Manish Soni,2001 Citing baby boomer favorites including Bob Dylan Bob Marley the Beatles and other rock greats the author shows that they have drawn on the same primal source from which mythology dreams and poetic insight arise Music *Death and Life* Paul Fairfield,2001 Fairfield philosophy Queens U Canada summarizes major Western thought on life and death for the general reader He presents excerpts from the writings of authors such as Tolstoy Dostoyevsky Freud and Nietzsche which address the fear of death and the search for a meaningful life Coverage ext Philodemus and the New Testament World John Fitzgerald,Dirk Obbink,Glenn Holland,2004-01-01 The fifteen essays in this volume rooted in the work of the Hellenistic Moral Philosophy and Early Christianity Section of the SBL examine the works of Philodemus and how they illuminate the cultural context of early Christianity Born in Gadara in Syria Philodemus ca 110 40 BCE was active in Italy as an Epicurean philosopher and poet This volume comprises three parts the first deals with Philodemus works in their own terms the second situates his thought within its larger Greco Roman context and the third explores the implications of his work for understanding the earliest Christians especially Paul It will be useful to all readers interested in Hellenistic philosophy and rhetoric as well as Second Temple Judaism and early Christianity *The New Testament of Our Lord and Saviour Jesus Christ.
