Religion And Society In Russia The Sixteenth And Seventeenth Centuries:

Religion and Society in Russia Paul Bushkovitch,1992 Bushkovitch's book traces the evolution of religious attitudes in this important transitional period in Russian history. The sixteenth and seventeenth centuries in Russia saw the gradual decline of monastic spirituality, the rise of miracle cults and ultimately the birth of a more personal and private faith that stressed morality instead of public rituals. Bushkovitch not only skilfully reconstructs these rapid and fundamental changes in the Russian religious experience but also shows how they were influenced by Western European religious ideas and how they foreshadowed the secularization of Russian society usually credited to Peter the Great. Religion and Society in Russia Paul Bushkovitch,1992 This study traces the evolution of religious attitudes in an important transitional period of Russian history. It reconstructs the main events of the age such as the rise of miracle cults and demonstrates how they foreshadowed the secularization of Russian society. Musical Cultures in Seventeenth-Century Russia Claudia R. Jensen,2009-10-05 Claudia R. Jensen presents the first unified study of musical culture in the court and church of Muscovite Russia. Spanning the period from the installation of Patriarch Iov in 1589 to the beginning of Peter the Great's reign in 1694, her book offers detailed accounts of the celebratory musical performances for Russia's first patriarch events that were important displays of Russian piety and power. Jensen emphasizes music's varied roles in Muscovite society and the equally varied opinions and influences surrounding it. In an attempt to demystify what has previously been an enigma to Western readers, she paints a clear picture of the dazzling splendor of musical performances and the ways in which 17th century Muscovites employed music for spiritual enlightenment as well as entertainment. *The Military and Society in Russia, 1450-1917* Eric Lohr, Marshall Poe,2002-11-01 This book explores the interaction of the Russian military and society in the early modern and modern period. In contrast to straightforward military histories, the volume is concerned with the myriad political, economic and cultural currents that shaped the Russian armed forces from their beginnings in Muscovite times to the end of World War I. The book begins with an attempt by the editors to provide a large frame in which to place the various contributions. What follows are three topical sections including 22 detailed, often archival-based monographic articles. The first section concerns The Military and Society in Muscovy; the second section focuses on The Military and Society in Imperial Russia; the third part analyzes Patriotism, Nationality, Religion and the Military. *The Cambridge History of Christianity: Volume 5, Eastern Christianity* Michael Angold,2006-08-17 This volume encompasses the whole Christian Orthodox tradition from 1200 to the present. Its central theme is the survival of Orthodoxy against the odds into the modern era. It celebrates the resilience shown in the face of hostile regimes and social pressures in this often neglected period of Orthodox history. *Handbook of Medieval Studies* Albrecht Classen,2010-11-29 This interdisciplinary handbook provides extensive information about research in medieval studies and its most important results over the last decades. The handbook is a reference work which enables the readers to quickly and purposely gain insight into the important research discussions and to inform themselves.

about the current status of research in the field The handbook consists of four parts The first large section offers articles on all of the main disciplines and discussions of the field The second section presents articles on the key concepts of modern medieval studies and the debates therein The third section is a lexicon of the most important text genres of the Middle Ages The fourth section provides an international bio bibliographical lexicon of the most prominent medievalists in all disciplines A comprehensive bibliography rounds off the compendium The result is a reference work which exhaustively documents the current status of research in medieval studies and brings the disciplines and experts of the field together

Leaders of Russia and the Soviet Union John Paxton, 2013-08-21 This reference work surveys the leaders of Russia and the Soviet Union from Michael the first Romanov tsar in 1613 through the creation and dissolution of the Soviet Union to the present day President of the Russian Federation Vladimir Putin Chronologically arranged these biographies paint a thorough yet succinct portrait of 30 leaders including discussion about the family and education of each ruler important legislation events and wars under each leader's rule and each leader's achievements and impact on Russia or the Soviet Union

By Honor Bound Nancy Shields Kollmann, 2016-11-01 In the sixteenth and seventeenth centuries Russians from all ranks of society were bound together by a culture of honor Here one of the foremost scholars of early modern Russia explores the intricate and highly stylized codes that made up this culture Nancy Shields Kollmann describes how these codes were manipulated to construct identity and enforce social norms and also to defend against insults to pursue vendettas and to unsettle communities She offers evidence for a new view of the relationship of state and society in the Russian empire and her richly comparative approach enhances knowledge of statebuilding in premodern Europe By presenting Muscovite state and society in the context of medieval and early modern Europe she exposes similarities that blur long standing distinctions between Russian and European history Through the prism of honor Kollmann examines the interaction of the Russian state and its people in regulating social relations and defining an individual's rank She finds vital information in a collection of transcripts of legal suits brought by elites and peasants alike to avenge insult to honor The cases make clear the conservative role honor played in society as well as the ability of men and women to employ this body of ideas to address their relations with one another and with the state Kollmann demonstrates that the grand princes and later the tsars tolerated a surprising degree of local autonomy throughout their rapidly expanding realm Her work marks a stark contrast with traditional Russian historiography which exaggerates the power of the state and downplays the volition of society

The Russian Empire 1450-1801 Nancy Shields Kollmann, 2017-02-09 Modern Russian identity and historical experience has been largely shaped by Russia's imperial past an empire that was founded in the early modern era and endures in large part today The Russian Empire 1450-1801 surveys how the areas that made up the empire were conquered and how they were governed It considers the Russian empire a Eurasian empire characterized by a politics of difference the rulers and their elites at the center defined the state's needs minimally with control over defense criminal

law taxation and mobilization of resources and otherwise tolerated local religions languages cultures elites and institutions The center related to communities and religions vertically according each a modicum of rights and autonomies but didn't allow horizontal connections across nobilities townsmen or other groups potentially with common interests to coalesce Thus the Russian empire was multi ethnic and multi religious Nancy Kollmann gives detailed attention to the major ethnic and religious groups and surveys the government's strategies of governance centralized bureaucracy military reform and a changed judicial system The volume pays particular attention to the dissemination of a supranational ideology of political legitimacy in a variety of media written sources and primarily public ritual painting and particularly architecture Beginning with foundational features such as geography climate demography and geopolitical situation The Russian Empire 1450 1801 explores the empire's primarily agrarian economy serfdom towns and trade as well as the many religious groups primarily Orthodoxy Islam and Buddhism It tracks the emergence of an Imperial nobility and a national self consciousness that was by the end of the eighteenth century distinctly imperial embracing the diversity of the empire's many peoples and cultures
