Questioning Ramayanas Paula Richman, 2001 A wide ranging examination of the many different versions of India's greatest epic the Ramayana focusing on versions that subvert the dominant readings of the work *New Approaches to the Study of Religion: Regional, critical, and historical approaches* Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications Classical Approaches to the Study of Religion edited by Jacques Waardenburg 1973 and Contemporary Approaches to the Study of Religion edited by Frank Whaling 1984 85 New Approaches to the Study of Religion completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches *Toward a Catholic Theology of Nationality* Dorian Llywelyn, 2010-06-28 Nationality continues to be an important part of how people identify themselves and others Who am I is inseparable from the question Who and what are we Historically many nations have made use of the Bible and Christian notions to understand themselves and to justify their political ambitions Catholic theology however has never elaborated on a systematic treatment of nationality Dorian Llywelyn forges a new approach treating the nation as a form of culture He addresses some key questions How are the religious and national aspects of human identity connected What does Catholic doctrine have to say about nationality and nationalism Is there really such a thing as a Christian nation Is Catholicism compatible with patriotism Llywelyn's wide ranging book introduces the reader to contemporary approaches to nationality nationality national identity nationalism and patriotism Drawing from the insights of sociology history and anthropology he investigates the many ways in which nations and Christianity have intertwined and explores what scripture and twentieth century papal teaching have to say on the matter He provides an original Catholic theology of national belonging one which is based on the implications of the Incarnation Examining popular devotions to the Virgin Mary as national patroness and drawing from the metaphysical acumen of the medieval thinker John Duns Scotus Llywelyn argues for the theological value of nationality and proposes that global community and cultural and national diversity are mutually necessary values Salman Rushdie and Indian Historiography Nicole Weickgenannt Thiara, 2009-06-25 Paying particular attention to the representation of women and to gendered notions of the nation this book examines for the first time the marked parallels between Rushdie's critique of the Nehruvian legacy and the most significant recent trends in Indian historiography especially the feminist and

subalternist movements Regional, Critical, and Historical Approaches Peter Antes, Armin W. Geertz, Randi R. Warne, 2008-12-19 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies. The work follows in the footsteps of two former publications: *Classical Approaches to the Study of Religion* edited by Jacques Waardenburg 1973 and *Contemporary Approaches to the Study of Religion* edited by Frank Whaling 1984. 85 *New Approaches to the Study of Religion* completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades. Many of the chapters however are also pathbreaking and point the way to future approaches. *Encyclopedia of Hinduism* Denise Cush, Catherine A. Robinson, Michael York, 2012-08-21 The *Encyclopedia of Hinduism* contains over 900 entries reflecting recent advances in scholarship which have raised new theoretical and methodological issues as well as identifying new areas of study which have not been addressed previously. The debate over the term Hinduism in the light of post Orientalist critiques is just one example of how once standard academic frameworks have been called into question. Entries range from 150 word definitions of terms and concepts to 5 000 word in depth investigations of major topics. The *Encyclopedia* covers all aspects of Hinduism but departs from other works in including more ethnographic and contemporary material in contrast to an exclusively textual and historical approach. It includes a broad range of subject matter such as historical developments among them nineteenth and twentieth century reform and revival, geographical distribution especially the diaspora, major and minor movements, philosophies and theologies, scriptures, deities, temples and sacred sites, pilgrimages, festivals, rites of passage, worship, religious arts, sculpture, architecture, music, dance etc, religious sciences e.g. astrology, biographies of leading figures, local and regional traditions, caste and untouchability, feminism and women's religion, nationalism and the Hindu radical right and new religious movements. The history of study and the role of important scholars past and present are also discussed. Accessibility to all levels of reader has been a priority and no previous knowledge is assumed. However the in depth larger entries and the design of the work in line with the latest scholarly advances means that the volume will be of considerable interest to specialists. The whole is cross referenced and bibliographies attach to the larger entries. There is a full index. *Routledge Handbook of Contemporary India* Knut A. Jacobsen, 2015-08-11 A second revised edition of this title is available at <https://www.routledge.com/Routledge-Handbook-of-Contemporary-India/Jacobsen/p/book/9781032244068>. India is the second largest country in the world with regard to population, the world's largest democracy and by far the largest country in South Asia and one of the most diverse and pluralistic nations in the world in terms of official languages, cultures, religions and social identities. Indians have for centuries exchanged ideas with other cultures globally and some traditions have been transformed in those transnational and transcultural encounters and become successful innovations with an extraordinary global popularity. India is an emerging global power in terms of economy but in spite of India's impressive economic growth over the last decades, some of the most serious problems of Indian society such as poverty, repression of

women inequality both in terms of living conditions and of opportunities such as access to education employment and the economic resources of the state persist and do not seem to go away This Handbook contains chapters by the field's foremost scholars dealing with fundamental issues in India's current cultural and social transformation and concentrates on India as it emerged after the economic reforms and the new economic policy of the 1980s and 1990s and as it develops in the twenty-first century Following an introduction by the editor the book is divided into five parts Part I Foundation Part II India and the world Part III Society class caste and gender Part IV Religion and diversity Part V Cultural change and innovations Exploring the cultural changes and innovations relating a number of contexts in contemporary India this Handbook is essential reading for students and scholars interested in Indian and South Asian culture politics and society Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non-Commercial No Derivatives CC BY-NC-ND 4.0 license
