Deeper Look into the Roots of Violent Extremism Sarwat Parvez,2025-06-08 Terrorism has long haunted modern societies capturing the attention of governments media outlets and the public alike In the rush to explain the inexplicable many turn to religion as the root cause But this simplistic and often biased interpretation overlooks the true complexity behind acts of terror Terrorism is not born from faith alone it is deeply entangled with political social and psychological conditions No single religion has a monopoly on violence and framing terrorism as inherently religious only hinders our understanding and our ability to respond effectively [Encyclopedia of Love in World Religions](#) Yudit Kornberg Greenberg,2007-11-15 This is the first comprehensive resource on the subject of love in the teachings of the world s major religions cultures and philosophies Encyclopedia of Love in World Religions is the first reference work to offer a comprehensive portrait of love in the context of the classic and contemporary literature of Judaism Christianity Islam Buddhism and Hinduism as well as other cultures and philosophies Like no volume published to date it reveals the full richness of religious teachings on love in all its many forms exploring an extensive range of topics that offer philosophical psychological and religious perspectives to guide the quest for the meaning of love Encyclopedia of Love in World Religions

Beyond Duality and Polarization Paul Koziey,2012-07-13 Beyond Duality and Polarization explores an experience based learning model the Phenomenal Patterning approach for personal transformation Rather than traditional prescriptive learning methods of personal discovery help us understand how the human mind actually functions Dr Koziey introduces two modern Zen skills watching and catharsis to increase self awareness This frees us from habitual patterns we learned in childhood We identify the patterns of our own thinking and behaving and see that many of the problems we face are self created Repressions are revealed in the shadow psyche and we are able to dissolve our negativity The overriding message is that when we stop fighting life starts flowing again

Søren Kierkegaard: Philosophy of religion : Kierkegaard contra contemporary Christendom Daniel W. Conway,K. E. Gover,2002

Faith, Hope, and Love Troy DuJardin,M. David Eckel,2022-07-22 These essays consider the three traditional theological virtues faith hope and love alongside their opposites doubt despair and hate from a scholarly perspective The volume includes contributions not just from philosophers of religion but also from psychologists sociologists and film and literature scholars to paint a complex and nuanced picture of these virtues both of how we might understand

them and how we can hope to embody them ourselves While these virtues make up a core part of the Christian tradition the chapters here go far and wide in search of different cultural conceptions of these universal human concerns Inquiries are made into these virtues within Hindu Buddhist Jewish and Islamic thought alongside philosophers including Aristotle Hegel Kierkegaard Nietzsche Levinas and Murdoch The resulting tapestry is often beautiful sometimes horrific but always thoroughly human This text appeals to students and researchers working in these fields Chapter 9 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com
