## **Religion And The Self In Antiquity:**

Religion and the Self in Antiquity David Brakke, Michael L. Satlow, Steven Weitzman, 2005 Many recent studies have argued that the self is a modern invention a concept developed in the last three centuries This text challenges that idea by presenting a series of studies that explore the origins formation and limits of the self within the religions of the ancient Mediterranean world

Ancient Philosophy of the Self Pauliina Remes, Juha Sihvola, 2008-08-26 Pauliina Remes and Juha Sihvola In the course of history philosophers have given an impressive variety of answers to the question What is self Some of them have even argued that there is no such thing at all This volume explores the various ways in which selfhood was approached and conceptualised in antiquity How did the ancients understand what it is that I am fundamentally as an acting and affected subject interpreting the world around me being distinct from others like and unlike me The authors highlight the attempts in ancient philosophical sources to grasp the evasive character of the specifically human presence in the world They also describe how the ancient philosophers understood human agents as capable of causing changes and being affected in and by the world Attention will be paid to the various ways in which the ancients conceived of human beings as subjects of reasoning and action as well as responsible individuals in the moral sphere and in their relations to other people The themes of persistence identity self examination and self improvement recur in many of these essays The articles of the collection combine systematic and historical approaches to ancient sources that range from Socrates to Plotinus and Augustine

Stroumsa, 2002 This book brings together scholars of a variety of the world s major civilizations to focus on the universal theme of inner transformation The idea of the self is a cultural formation like any other and models and conceptions of the inner world of the person vary widely from one civilization to another Nonetheless all the world s great religions insist on the need to transform this inner world Such transformations often ritually enacted reveal the primary intuitions drives and conflicts active within the culture The individual essays study dramatic examples of these processes in a wide range of cultures including China India Tibet Greece and Rome Late Antiquity Islam Judaism and medieval and early modern Christian Europe      **Law and Self-Knowledge in the Talmud** Ayelet Hoffmann Libson, 2018-05-17 Highlights the emergence of self knowledge in rabbinic literature showing how Babylonian rabbis relied on knowledge accessible only to the individual to determine the law
