Religions of Modernity Stef Aupers, Dick Houtman, 2010-07-07 *Religions of Modernity* challenges the social scientific orthodoxy that once unleashed the modern forces of individualism science and technology inevitably erode the sacred and evoke the profane The book's chapters some by established scholars others by junior researchers document instead in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology Rather than destroying the sacred tout court then the cultural logic of modernization spawns its own religious meanings unacknowledged spiritualities and magical enchantments The classical theoretical accounts of modernity by Max Weber

Emile Durkheim and others it is argued in the introductory chapter already hinted that there s a future for such religions of modernity Contributors Stef Aupers Kelly Besecke Kirsten Marie Bovbjerg Siobhan Chandler Olav Hammer Dick Houtman Murray Lee Carly Machado Karen P rna Adam Possamai Linda Woodhead and Dorien Zandbergen **Social Statistics**

Thomas J. Linneman, 2014-02-03 Many fundamentally important decisions about our social life are a function of how well we understand and analyze DATA This sounds so obvious but it is so misunderstood Social statisticians struggle with this problem in their teaching constantly This book and its approach is the ally and support of all instructors who want to accomplish this hugely important teaching goal This innovative text for undergraduate social statistics courses is as one satisfied instructor put it a breath of fresh air It departs from convention by not covering some techniques and topics that have been in social stat textbooks for 30 years but that are no longer used by social scientists today It also includes techniques that conventional wisdom has previously thought to be the province of graduate level courses Linneman s text is for those instructors looking for a thoroughly modern way to teach quantitative thinking problem solving and statistical analysis to their students an undergraduate social statistics course that recognizes the increasing ubiquity of analytical tools in our data driven age and therefore the practical benefit of learning how to do statistics to present results effectively to employers as well as instructors and to interpret intelligently the quantitative arguments made by others

A NOTE ABOUT THE AUTHOR At a recent Charter Day celebration author Tom Linneman was awarded the Thomas Jefferson Teaching Award the highest award given to young faculty members at the College of William and Mary The citation for his award noted that Linneman has developed a reputation among his students as a demanding professor but one who genuinely cares about them
