Solutions for Colonial Degeneration Amartya Mukhopadhyay, 2023-12-12 This book focuses on Rabindranath Tagore as a social and political thinker revolving around Tagore's ideas on the seeds of civil society nation identities and communities in the Indic tradition The author deconstructs Tagore's concepts against the appropriate resurgent and triumphalist Western concepts in the updated Western social thought and theories The book examines Tagore's understanding of the nature of the civil social sphere in India and analyzes the relevance of his civil social concepts against the backdrop of colonialism in India It also discusses his views on nation and nationalism in India and his insights into the problems and prospects of intercommunity particularly Hindu Muslim relations in India Applying current social science and Western literature in an unprecedented manner to interpret Tagore this book will be of great interest to scholars teachers and students of politics nationalism postcolonialism history comparative literature sociology religious studies and South Asian studies Religious Politics and Secular States Scott W. Hibbard, 2010-10-15 2011 Winner of the Charles H Levine Memorial Book Prize of the International Political Science Association This comparative analysis probes why conservative renderings of religious tradition in the United States India and Egypt remain so influential in the politics of these three ostensibly secular societies The United States Egypt and India were quintessential models of secular modernity in the 1950s and 1960s By the 1980s and 1990s conservative Islamists challenged the Egyptian government India witnessed a surge in Hindu nationalism and the Christian right in the United States rose to dominate the Republican Party and large swaths of the public discourse Using a nuanced theoretical framework that emphasizes the interaction of religion and politics Scott W Hibbard argues that three

interrelated issues led to this state of affairs First as an essential part of the construction of collective identities religion serves as a basis for social solidarity and political mobilization Second in providing a moral framework religion s traditional elements make it relevant to modern political life Third and most significant in manipulating religion for political gain political elites undermined the secular consensus of the modern state that had been in place since the end of World War II Together these factors sparked a new era of right wing religious populism in the three nations Although much has been written about the resurgence of religious politics scholars have paid less attention to the role of state actors in promoting new visions of religion and society Religious Politics and Secular States fills this gap by situating this trend within long standing debates over the proper role of religion in public life

Communalism and Globalization in South Asia and Its Diaspora Deana Heath,Chandana Mathur,2010-12-22 Taking as its premise the belief that communalism is not a resurgence of tradition but is instead an inherently modern phenomenon as well as a product of the fundamental agencies and ideas of modernity and that globalization is neither a unique nor unprecedented process this book addresses the question of whether globalization has amplified or muted processes of communalism It does so through exploring the concurrent histories of communalism and globalization in four South Asian contexts India Pakistan Bangladesh and Sri Lanka as well as in various diasporic locations from the nineteenth century to the present Including contributions by some of the most notable scholars working on communalism in South Asia and its diaspora as well as by some challenging new voices the book encompasses both different disciplinary and theoretical perspectives It looks at a range of methodologies in an effort to stimulate new debates on the relationship between communalism and globalization and is a useful contribution to studies on South Asia and Asian History

Bangladesh The research then challenges the conventional assumptions of IR such as the secularization thesis the clash of civilizations and the rational actor model by showing how religious actors are not monolithic homogeneous or irrational but rather diverse heterogeneous and strategic The book offers a nuanced and comprehensive understanding of the role of religion in world politics especially in the context of South Asia Highlighting the diversity and complexity of the religious landscape in South Asia which is home to various faiths sects movements and ideologies this book will be of interest to academics studying global politics international relations Asian Studies and studies on religion and foreign policy
