Congress. Senate. Committee on the Judiciary, 1963 Considers constitutional amendments to reverse various court decisions prohibiting prayer in public schools *Parents' Rights Concerning Religious Observances in Public Schools* Constance Thulisile Destiny Malatji, 2019 Religion plays a significant role among people Human beings have always turned to religion for answers to critical questions about life such as reasons for existence Religious beliefs also inform people s conceptions about morality and justice However religion is also a very controversial topic It has both the potential to divide or unite nations Hence the global view of religious freedom as a fundamental human right Among contestations involving religious freedom is the issue of parents primary right to determine religious observances for their children at public schools A right which is protected internationally by among others Article 5 of the 1981 Declaration on the Elimination of All Forms of Intolerance and Discrimination Based on Religion and Belief Article 26 1 of the Universal Declaration of Human Rights 1948 and Article 18 4 of the International Covenant on Civil and Political Rights ICCPR 1966 These covenants emphasise the inalienable right of parents to have their children educated in accordance with their own religious convictions or beliefs In South Africa this a priori right of parents is protected by the Constitution of the Republic of South Africa 1996 Gov za 2017 and the South African Schools Act 84 of 1996 SASA respectively Section 15 2 of the Constitution provides for religious observances to be conducted at public schools provided that such observances follow rules made by the appropriate public authorities are conducted on an equitable basis and attendance at them is free and voluntary The South African Schools Act 84 of 1996 SASA entrusts the authority to determine such rules to parents through the School Governing Body SGB However the National Policy on Religion and

Education 2003 has generated much confusion around the issue of religious observances because it imposes a multi faith approach to religious observances in public schools It was therefore rejected by many who viewed it as a usurpation of parents rights and an imposition of secularism on schools while embraced by others who perceived it as a welcome relief from what they perceived to be learner indoctrination in public schools The apparent confusion generated by the policy resulted in SGBs adopting a laissez faire attitude towards religious observances policy design at public schools For example some SGBs banished all forms of religious observances from their schools while others continued with the pre democracy status quo of single faith religious observances Against this backdrop the object of this study was to determine the constructions of SGB members particularly parents on how they realise their constitutionally mandated function of determining religious observances policy at public schools given such a confusion riddled environment

Making Sense of Religion in America's Public Schools David Gibbs III, Barbara Weller, 2013-04 In 1947 the United States Supreme Court took a sharp left turn in its interpretation of the Establishment Clause of the First Amendment to the United States Constitution as it was applied to public schools in America Since then students teachers school officials parents and local religious leaders have been struggling to understand the parameters of the Establishment Clause as it relates to religious expression in public schools This resource is intended to help individuals understand their rights to exercise their faith in the public school arena It is also designed to help families students teachers school officials and community leaders sort through the current legal maze of religious expression in America s public schools

Understanding Student Rights in Schools Bryan R. Warnick, 2015-04-26 What rights should students expect to exercise in public schools Should bible study meetings be allowed during free periods Should students be allowed to wear t shirts that exhort taking drugs or committing violent acts Should students be required to participate in drug testing In this concisely argued book Bryan Warnick examines how student rights in three areas free speech privacy and religious expression have been addressed in policy ethics and the law Starting with the Tinker decision a landmark 1969 U S Supreme Court ruling which declared that students in public schools had constitutional rights that must be understood in light of special characteristics of the school environment Warnick develops an education criterion that schools can use when facing difficult questions of student rights Both probing and practical Warnick explains how student rights can be properly understood and protected

The Changing Landscape of Religious Expression in US Public Schools Brett A. Geier, 2025-11-20 This book explores the intersection of issues related to religion and state in public schools in the United States Framed through a study of the landmark 2022 Supreme Court case Kennedy v Bremerton School District where a high school football coach s post game prayers at midfield became the centerpiece of a major ruling on religious expression in public schools the book analyzes how this case represents a significant shift in the Supreme Court s interpretation of the Establishment Clause particularly under the Roberts Court which has increasingly favored religious freedom claims over strict separation of church and state Through eleven chapters

Geier explores the historical context of religion in American public schools the rise and fall of the Lemon test the influence of Christian Nationalism and provides a detailed analysis of both the majority opinion written by Justice Gorsuch and the dissent by Justice Sotomayor Drawing from his experience as a public school administrator and legal researcher Geier argues that this ruling signals a new era where individual religious rights are being prioritized over Establishment Clause concerns in public schools potentially leading to increased religious expression in educational settings

Religious Diversity in Canadian Public Schools Dia Dabby,2022-02-01 Canadian public schools have long been entrusted with the mandate of socializing children Yet this duty can rest uneasily alongside religious diversity questions Grounding its analysis in three seminal Supreme Court cases involving religion in schools Religious Diversity in Canadian Public Schools reveals legal processes that are unduly linear compressing multidimensional conversations into an oppositional format and stripping away the voices of children themselves Dia Dabby contends that schools are in fact microsystems worthy of their own consideration and with the power to construct their own rules and relationships This compelling work connects many of the themes that have animated public discourse since multiculturalism was officially enacted in Canada Situating its analysis in relation to concepts of nation education and diversity Religious Diversity in Canadian Public Schools encourages a deeper conversation about how religion is mediated through public schools and invites a critical reassessment of the role of law in education
