Religious And Political Ethics In Africa A Moral Inquiry:

Religious and Political Ethics in Africa Harvey J. Sindima, **The Impact of Ethnic, Political, and Religious Violence on Northern Nigeria, and a Theological Reflection on Its Healing** Sunday Bobai Agang, 2011-09-07 This publication seeks to challenge established thinking about the causes of violence in Northern Nigeria It explores immediate and long term effects of that violence through reflection study and survey of previous research The fundamental argument within is that ethnic political and religious violence has affected Christian perspectives and core values and thus has hampered efforts towards just peacemaking **Nigerian Politics and Corruption** Kyrian Chukwuemeka Echekwu, 2017-06-02 Corruption is alive and well in Nigeria and it must be eliminated Moreover the Nigerian church can no longer watch it go unchecked Though conscious of his limitations as a priest and theologian the author takes an in depth look at how corruption has taken hold of Nigeria and its people in this scholarly work He challenges the church as a socio moral actor and the civil authorities that govern Nigeria arguing that the nation will collapse if corruption continues He notes that even though the Nigerian people have lashed out against corruption it has only gotten worse either because morality has been relegated to the background or not enough has been done to inculcate morality into Nigeria s politics The author employs a holistic approach in examining issues such as bishops and their vision of Nigeria vis vis Nigerian politics democracy and the power equation among the various arms of government principal biases that characterize Nigerian politics and class affiliation and its impact in Nigerian politics Find out how corruption is ruining Nigeria and discover how the church and government can work together to fix the problem in Nigerian Politics and Corruption *Introduction to Religious Studies* Harvey J. Sindima, 2012-07-10 In *Introduction to Religious Studies* Harvey J Sindima provides an unconventional approach to the study of world religions Often books and courses on religious studies focus on the major world religions This approach however frequently ignores other religious experiences such as those of various African groups as well as the indigenous people of the Americas and Australia These less widespread religions are commonly described in pejorative terms such as primitive religions or non literate religions Focusing solely on well known religions is an approach that impoverishes religious studies and deprives students of the enormous wealth of religious knowledge of the world *Introduction to Religious Studies* pulls together the diverse religious experience of Africans Native Americans and the indigenous peoples of Australia in order to provide a comprehensive introduction to the study of religion and broaden the horizons of religious studies students Under each theme or topic examples are drawn from religions of salvation as well as African and Native American religious traditions This book provides students with a deep wide and very rich introduction to religious studies Kwame Nkrumah's Liberation Thought Robert Yaw Owusu, 2006 An attempt to recapture the liberation philosophy of Kwame Nkrumah first prime minister of Ghana Owusu seeks to define a theoretical basis on which a modern socio political and ethical structure for Ghana can be built and offers a paradigm for developing a role of advocacy to the

Ghanaian religious edifice He also strives to recapitulate Ghana's self dignity self realisation and self subsistence by highlighting the essential assumptions dimensions and specificities of African personhood *Secularization in Malawi and Britain* Billy Gama, 2022-11-30 The major purpose of this book is to critically examine the applicability of manifestations and factors of secularization in Britain to Malawi The book was guided by the key research question Are the manifestations and factors of secularization in Britain applicable to Malawi The question was supported by other follow up questions namely What were the factors that contributed to the rise of secularization in Britain What is the connection between Britain and Malawi To what extent does secularization in Britain affect that in Malawi Does Malawi have unique factors that are specific or are the same factors at work that have contributed to the process of secularization in Britain **Economic and Political Institutions and Development** Joshua C. Hall, Sara Harper, 2019-02-23 This book focuses on the role of economic and political institutions in economic development The book offers fresh perspectives on the issues facing less developed countries and the elements influencing their outcomes The text includes chapters on democracy property rights and economic freedom and uses diverse methodology such as case studies spacial econometrics and cross country analysis The volume features the work of prominent scholars in the area of institutional analysis such as Mohammed Akacem Christopher Coyne and Andrew Young as well as a number of junior scholars This book will be useful for researchers and students interested in economic development and institutional analysis in general in addition to individuals with a specific focus on countries or regions such as Iraq or sub Saharan Africa *The Critique of Bioethical Principlism in Contrast to an African Approach to Bioethics* Jude Thaddaeus Buyondo, 2024-08-16 Though some argue that bioethics in the Black African world is simply a reflection of the Western approach to bioethics this work suggests otherwise While the Western approach bioethical principlism claims to offer an absolute approach to bioethics in a universalized common morality this book argues that bioethical principlism can be complemented with African approaches to bioethics Western principlism as primarily presented by Thomas L Beauchamp and James F Childress can hardly be incarnated in the African context of bioethical problems unless it is complemented by a contextual normative understanding of African social realities realities that themselves must be enriched by bioethical principlism Without claiming to offer the last word on intercultural bioethics or disputing which bioethical approaches deserve prioritization the work interactively relies on ordinary moral experiences that are practically visible in lived social realities as well as the community realities surrounding Africans south of the Sahara Prescriptively in order to not simply promote life but to do so fully the African ethical system supports an integral community life by continuously promoting the norm of solidarity continued vitality and the hierarchization of life within the corporate community which the individual must not blindly follow but responsibly interact with without her identity freedom and conscience being crushed **When Evil Strikes** Sunday Bobai Agang, 2016-06-22 Human hostility is not the narrative of a selected few Since the fall of the grandparents of the human family Adam and Eve all humans have continued to participate

in the reality of evil Accordingly the question is no longer whether evil will strike but rather when evil strikes how should humans particularly Christians respond to it This book offers a relevant and effective theology and ethics for addressing the issue of Christian response to violence in Nigeria and beyond It situates the whole gamut of the reign of human hostility in its various manifestations self interest and greed for power deception and social injustices governmental official corruption terrorism and so on It encourages humans to take seriously both the fact of God creating humans good and the fall serving as the gateway of evil into the human race It recognizes the complexity of human problems Yet it offers possibility for just peacemaking In spite of the horrific violence across the globe humans are still able to do tremendous good Thus the book recognizes the paradox of humanity humans are capable of doing tremendous good and equally capable of doing tremendous evil

Holistic Bioethics Jude Thaddaeus Buyondo, 2024-10-31 In pursuing a holistic bioethics while dialoguing with different sciences appreciation of moral affinities between human and nonhuman entities Dr Buyondo argues for a minimum moral status for nonhuman entities The minimum normative basics of approaches to biomedical ethics are at the very least not distinctive to either human animals or nonhuman animals only The investigation builds further on the African understanding of life where no creation is lifeless In establishing a more inclusive functional bioethics the African approach goes further than biocentrism ecocentrism and holism to ground an inclusive African holistic moral egalitarianism suggesting that all forces and all created things have life We are not emphasizing how every system and creature command equal respect rather everything has life commands respect and moral concern as a minimum imperative within a Black African holistic approach to bioethics However holistic bioethics can neither be Western nor an African invention that people of other cultures only admire from a distance Moreover holistic bioethics doesn't offer the last word on the ethics of nonhuman animals holistic anamnestic solidarity the relational Other and intercultural theological bioethics
