Kinship and Killing Katherine Wills Perlo, 2009 Through close readings of Jewish Christian Islamic and Buddhist texts Katherine Wills Perlo proves that our relationship with animals shapes religious doctrine particularly through the tension between animal exploitation and the bonds of kinship She pinpoints four different strategies for coping with this conflict The first is aggression in which a divinely conferred superiority or karma justifies animal usage The second is evasion which emphasizes benevolent aspects of the human animal relationship within the exploitative structure such as the image of Jesus as a good shepherd The third is defense which acknowledges the problematic nature of killing leading many religions to adopt a propitiation mechanism such as apologizing for sacrifice And the fourth is effective defensive which recognizes animal abuse as inherently unethical As humans feel more empathy toward animals Perlo finds that adherents revise their interpretations of religious texts Preexisting ontologies such as Christianity's changing God or Buddhism's principle of impermanence along with advances in farming practices and technology also encourage changes in treatment As cultures

begin to appreciate the different types of perception and consciousness experienced by nonhumans definitions of reality become complicated and humans lean more toward unitary accounts of shared existence These evolving attitudes exert a crucial influence on religious thought Perlo argues moving humans ever closer to a nonspeciesist world *Jewish Veganism and Vegetarianism* Jacob Ari Labendz, Shmuly Yanklowitz, 2019-03-25 A multidisciplinary approach to the study of veganism vegetarianism and meat avoidance among Jews both historical and contemporary In recent decades as more Jews have adopted plant based lifestyles Jewish vegan and vegetarian movements have become increasingly prominent This book explores the intellectual religious and historical roots of veganism and vegetarianism among Jews and presents compelling new directions in Jewish thought ethics and foodways The contributors including scholars rabbis and activists explore how Judaism has inspired Jews to eschew animal products and how such choices even when not directly inspired by Judaism have enriched and helped define Jewishness Individually and as a collection the chapters in this book provide an opportunity to meditate on what may make veganism and vegetarianism particularly Jewish as well as the potential distinctiveness of Jewish veganism and vegetarianism The authors also examine the connections between Jewish veganism and vegetarianism and other movements while calling attention to divisions among Jewish vegans and vegetarians to the specific challenges of fusing Jewishness and a plant based lifestyle and to the resistance Jewish vegans and vegetarians can face from parts of the Jewish community The book s various perspectives represent the cultural theological and ideological diversity among Jews invested in such conversations and introduce prominent debates within their movements Whether looking at the pages of the Talmud vegetarian poems written in Yiddish lyrics written by Jewish punk rockers or into a pot of vegan matzo ball soup this book explores the many ways in which Jews have questioned the ethics of eating animals Labendz and Yanklowitz achieve their stated goal of exploring what distinguishes Jewish veganism and vegetarianism as Jewish You do not have to be a vegetarian or a vegan or Jewish in order to learn from and indeed grapple with the many questions dilemmas and readings that the contributors raise Jordan D Rosenblum author of *The Jewish Dietary Laws in the Ancient World* *Jewish Veganism and Vegetarianism* offers theological pragmatic ethical environmental and other ways to view non meat eating as a viable healthy and holy Judaic strategy to consume the world Anyone who eats or thinks about eating should take this volume seriously Rabbi Jonathan K Crane author of *Eating Ethically Religion and Science for a Better Diet* From the Talmud s ambivalence about human and animal suffering to the challenges of making a vegan matzo ball *Jewish Veganism and Vegetarianism* offers surprising views of the many ways Jewish practice Jewish culture and individual Jews acted and reacted in their encounters with a vegetable diet This important and overdue book does much to introduce a long neglected chapter of Jewish culinary practice and to inspire and instruct future research Eve Jochnowitz cotranslator of Fania Lewando s *The Vilna Vegetarian Cookbook* *Garden Fresh Recipes Rediscovered and Adapted for Today s Kitchen* **Animals are the Issue** Linda S Katz, 2013-10-31 Supply your library with the best collection of resources on animal issues *Animals are the Issue* Library
