Remaking Asia Essays On The American Use Of Power:

Remaking Asia Mark Selden, 1974 *A Companion to Asian American Studies* Kent A. Ono, 2008-04-15 A Companion to Asian American Studies is comprised of 20 previously published essays that have played an important historical role in the conceptualization of Asian American studies as a field Essays are drawn from international publications from the 1970s to the present Includes coverage of psychology history literature feminism sexuality identity politics cyberspace pop culture queerness hybridity and diasporic consciousness Features a useful introduction by the editor reviewing the selections and outlining future possibilities for the field Can be used alongside Asian American Studies After Critical Mass edited by Kent A Ono for a complete reference to Asian American Studies Coming to Jakarta Peter Dale Scott, 2017-04-13 Not since Robert Duncan's Ground Work and before that William Carlos Williams Paterson has New Directions published a long poem as important as Coming to Jakarta James Laughlin A devastating revelation of violence exploitation and corrupt politics Coming to Jakarta derives its title from the role played by the CIA banks and oil companies in the 1965 slaughter of more than half a million Indonesians A former Canadian diplomat and now a scholar at the University of California Peter Dale Scott has said that the poem is triggered by what we know of the bloody Indonesian massacre However it is not so much a narrative of exotic foreign murder as one person's account of what it is like to live in the 20th century possessing enough access to information and power to feel guilty about global human oppression but not enough to deal with it The usual result is a kind of daily schizophrenia by which we desensitize ourselves to our own responses to what we read in the newspapers The psychic self alienation which ensues makes integrative poetry difficult but necessary With a brilliant use of collage placing the political against the personal childhood acquaintances are among the darkly powerful figures Scott works in the tradition of Pound's Cantos but his substance is completely his own The Debt Trap Cheryl Payer, 1975 Details the history of the first thirty years of the system of aid and credit in which the IMF is the keystone **Coming To Terms** Douglas Allen, 2019-03-04 Despite the plethora of works on the Vietnam War this is the first book to present an accessible overview from both the Indochinese and antiwar perspectives The authors trace the prewar history war years and postwar experiences of Vietnam Cambodia and Laos before turning to the U S experience where they focus on government policies the antiwar movement veterans and films and literature on Vietnam Those who experienced the war era will find their memories vividly rekindled those who wish to learn more about Indochina the war and its aftermath will find these issues provocatively discussed and analyzed _ **Imperialism** Harry Magdoff, 2019-02-15 This volume contains a series of essays aimed at illuminating the theory history and roots of imperialism which extend the analysis developed in Magdoff's The Age of Imperialism **China's Development Experience in Comparative Perspective** Joint Committee on Contemporary China. Subcommittee on Research on the Chinese Economy, 1980 Monographic collection of essays on comparison of economic development trends and economic policy in China and experiences in other developing countries covers economic growth

No Other Way Out Jeff Goodwin, 2001-06-04 No Other Way Out provides a powerful explanation for the emergence of popular revolutionary movements and the occurrence of actual revolutions during the Cold War era This sweeping study ranges from Southeast Asia in the 1940s and 1950s to Central America in the 1970s and 1980s and Eastern Europe in 1989 Following in the state centered tradition of Theda Skocpol's States and Social Revolutions and Jack Goldstone's Revolutions and Rebellion in the Early Modern World Goodwin demonstrates how the actions of specific types of authoritarian regimes unwittingly channeled popular resistance into radical and often violent directions Revolution became the only way out to use Trotsky's formulation for the opponents of these intransigent regimes By comparing the historical trajectories of more than a dozen countries Goodwin also shows how revolutionaries were sometimes able to create and not simply exploit opportunities for seizing state power

Perestroika and the Party Francesco Di Palma, 2019-08-01 Countless studies have assessed the dramatic reforms of Mikhail Gorbachev but their analysis of the impact on European communism has focused overwhelmingly on the Soviet Union and Eastern bloc nations This ambitious collection takes a much broader view reconstructing and evaluating the historical trajectories of glasnost and perestroika on both sides of the Iron Curtain Moving beyond domestic politics and foreign relations narrowly defined the research gathered here constitutes a transnational survey of these reforms collective impact showing how they were variably received and implemented and how they shaped the prospects for proletarian internationalism in diverse political contexts
