Rembrandt's Late Religious Portraits:

Rembrandt's Late Religious Portraits Arthur K. Wheelock, Rembrandt Harmenszoon van Rijn, Peter C. Sutton, Volker Manuth, Anne T. Woollett, 2005 One of the most fascinating aspects of Rembrandt's extraordinary artistic career is his suite of brooding half length portraits of religious figures from the late 1650s and early 1660s Painted during a difficult time in the artist's life when he no longer enjoyed a ready market for his works and may have turned to his deep religious convictions for solace these images are among the most evocative Rembrandt created For years scholars have debated whether these paintings were intended as a series yet until now these works have unbelievably never been shown together An exhibition by the National Gallery of Art and this accompanying catalog assemble seventeen of the paintings for the first time finally giving the powerful images their due Many of these subtle and wondrous paintings have been identified as images of apostles and evangelists but among them are also representations of Christ the Virgin and still unidentified saints and monks In Rembrandt's typical fashion the men and women in these portraits peer out of the dark recesses of dimly lit interiors as though burdened by the weight of their spiritual and emotional concerns Yet recent archival research has raised questions about their attribution the relationships among the paintings and in a broader sense Rembrandt's life and career issues addressed by the contributors to this volume With its lavish color images and state of the field research Rembrandt's Late Religious Portraits will make a profound contribution to the understanding of this unique and provocative body of work

Los Angeles, Calif., 2005 **Worldly and Religious Portraits in Rembrandt's Late Art**, 1956 *Rembrandt's Faith: Church and Temple in the Dutch Golden Age*, An art historical study of Rembrandt's use of religious imagery arranged by subject matter Demonstrates the new ideas the artist brought to his interpretations of the Jerusalem Temple and the apostolate church as he explored the relationship between Jewish and Christian revelation in biblical history Provided by publisher Worldly and Religious Portraits in Rembrandt's Late Art Otto Heinrich Karl Benesch, 1956 *A Corpus of Rembrandt Paintings IV* Ernst van de Wetering, 2005-10-18 Volume IV of A Corpus of Rembrandt Paintings deals uniquely with the self portraits of Rembrandt In a clearly written explanatory style the head of the Rembrandt Research Project and Editor of this Volume Ernst van de Wetering discusses the full body of work of paintings and etchings portraying Rembrandt He sets the different parameters for accepting or rejecting a Rembrandt self portrait as such whilst also discussing the exact working environment of Rembrandt and his apprentices This workshop setting created a surroundings where apprentices could be involved in working on Rembrandt paintings making it more difficult to determine the hand of the master Van de Wetering who is one of the Rembrandt experts of our day and age goes down to great detail to explain how the different self portraits are made and what techniques Rembrandt uses also giving an overview of which paintings are to be attributed to the Dutch Master and

which not In the additional catalogue the self portraits are examined in detail In clear and accessible explanatory text the different paintings are discussed larded with immaculate images of each painting Details are shown where possible as well as the results of modern day technical imaging like X radiography This work of art history and art research should be part of every serious art historical institute university or museum Nowhere in the art history have all Rembrandt s self portraits been discussed in such detailed and comparative manner by an authority such as Ernst van de Wetering This is a standard work for decades to come *Mediating Religious Cultures in Early Modern Europe* Torrance Kirby,Matthew Milner,2014-07-03 In recent years writing on early modern culture has turned from examining the upheavals of the Reformation as the ruptured birth of early modernity out of the late medieval towards a striking emphasis on processes of continuity transition and adaptation No longer is the religious seen as institutional or doctrinaire but rather as a cultural and social phenomenon that exceeds the rigid parameters of modern definition Recent analyses of early modern cultures offer nuanced accounts that move beyond the limits of traditional historiography and even the bounds of religious studies At their centre is recognition that the scope of the religious can never be extricated from early modern culture Despite its many conflicts and tensions the lingua franca for cultural self understanding of the early modern period remains ineluctably religious The early modern world wrestled with the radical challenges concerning the nature of belief within the confines of church or worship but also beyond them This process of negotiation was complex and fuelled European social dynamics Without religion we cannot begin to comprehend the myriad facets of early modern life from markets to new forms of art to public and private associations In discussions of images the Eucharist suicide music street lighting or whether or not the sensible natural world represented an otherworldly divine religion was the fundamental preoccupation of the age Yet even in contexts where unbelief might be considered we find the religious providing the fundamental terminology for explicating the secular theories and views which sought to undermine it as a valid aspect of human life This collection of essays takes up these themes in diverse ways We move from the 15th century to the 18th from the core problem of sacramental mediation of the divine within the strict parameters of eucharistic and devotional life through discussion of images and iconoclasm music and word to more blurred contexts of death street life and atheism Throughout the early modern period the very processes of adaption even change itself were framed by religious concepts and conceits Old Age in Art Larry Silver,2025-05-13 A sweeping history of aging in European art across centuries *Old Age in Art* shows how elders have been depicted from ancient Greece and Rome to the present century The book explores portraits including self portraits and stories of older figures in religion myth and history focusing on the theme of wisdom versus folly Larry Silver also discusses the concept of old age within the Middle Ages and early modern periods The final chapter examines how renowned artists like Michelangelo Titian and Monet turned to experimental forms and new subjects in their later years This book provides a comprehensive overview of old age in European art history **Dutch Paintings in the Metropolitan Museum of Art** Walter A.
