Remember Butler The Story Of Sir William:

Remember Butler Edward A. McCourt,1967 **Remember Butler** Edward McCourt,1967 *The Prairie West as Promised Land* R. Douglas Francis,Chris Kitzen,2007 Millions of immigrants were attracted to the Canadian West by promotional literature from the government in the late 19th century to the First World War bringing with them visions of opportunity to create a Utopian society or a chance to take control of their own destinies *Haig's Tower of Strength* John Powell,2018-09-30 This is the first biography of General Sir Edward Bulfin who rose to high rank despite his Catholic Irish republican background at a time when sensitivities were pronounced Not only that but by the outbreak of the Great War Bulfin was a brigade commander despite having not attended Sandhurst or Staff College and never commanding his battalion In his early career he was a protégé of Bullers and he made his name in the Boer War In 1914 Haig credited him with saving the day at First Ypres despite being wounded and gave him 28th Division Unable to get on with Gough he was sent home He raised the 60th London Division and took it to France Salonika and Egypt where Allenby chose him to command a corps His success against the Turks at Gaza Jerusalem and Megiddo justified Allenbys confidence Despite ruthlessly crushing disturbances in post war Egypt Bulfins beliefs and background led him to refuse Churchills order to command the police and army in Ireland A private man Bulfin left few letters and no papers and the author is to be congratulated on piecing together this fascinating biography of an enigmatic military figure *Irish Military Elites, Nation and Empire, 1870-1925* Loughlin Sweeney,2019-08-05 This book is a social history of Irish officers in the British army in the final half century of Crown rule in Ireland Drawing on the accounts of hundreds of officers it charts the role of military elites in Irish society and the building tensions between their dual identities as imperial officers and Irishmen through land agitation the home rule struggle the First World War the War of Independence and the partition of Ireland What emerges is an account of the deeply interwoven connections between Ireland and the British army casting officers as social elites who played a pivotal role in Irish society and examining the curious continuities of this connection even when officers moral authority was shattered by war revolution independence and a divided nation Aloysius O'Kelly Niamh O'Sullivan,2010 This is a critical biography of Aloysius O Kelly s career as a painter illustrator and committed Fenian which uncovers a world hardly known hitherto except in the most caricatured versions **Nineteenth-Century Travels, Explorations and Empires, Part I Vol 2** Peter J Kitson,William Baker,Indira Ghose,Susan Schoenbauer Thurin,2021-12-16 A collection of writings on travels undertaken in the Victorian era The texts collected in these volumes show how 19th century travel literature served the interests of empire by promoting British political and economic values that translated into manufacturing goods A British Profession of Arms Ian F. W. Beckett,2018-10-25 You offer yourself to be slain General Sir John Hackett once observed remarking on the military profession This is the essence of being a soldier For this reason as much as any other the British army has invariably been seen as standing apart from other professions and sometimes from society as a whole A British Profession of Arms effectively

counters this view In this definitive study of the late Victorian army distinguished scholar Ian F W Beckett finds that the British soldier like any other professional was motivated by considerations of material reward and career advancement Within the context of debates about both the evolution of Victorian professions and the nature of military professionalism Beckett considers the late Victorian officer corps as a case study for weighing distinctions between the British soldier and his civilian counterparts Beckett examines the role of personality politics and patronage in the selection and promotion of officers He looks too at the internal and external influences that extended from the press and public opinion to the rivalry of the so called rings of adherents of major figures such as Garnet Wolseley and Frederick Roberts In particular he considers these processes at play in high command in the Second Afghan War 1878 81 the Anglo Zulu War 1879 and the South African War 1899 1902 Based on more than thirty years of research into surviving official semiofficial and private correspondence Beckett s work offers an intimate and occasionally amusing picture of what might affect an officer s career wealth wives and family status promotion boards and strategic preferences performance in the field and diplomatic outcomes It is a remarkable depiction of the British profession of arms unparalleled in breadth depth and detail **A Gallery of Her Own**

Elree I. Harris, Shirley R. Scott, 2013-11-26 First Published in 1997 This book is intended as a resource for anyone interested in the artistic contributions and activities of women in nineteenth century Britain It is an index as well as an annotated bibliography and provides sources for information about women well known in their own time and about women who were little known then and are forgotten now *British Generalship on the Western Front 1914-1918* Simon Robbins, 2004-12-17 This book explores how British Army learnt from the pyrrhic victories of 1915 17 and developed the new tactics leadership and doctrine of combined arms to overcome the tactical stalemate hitherto bedevilling Allied offensives to defeat the
