Remembering Pe We:

We Remember Maynooth Salvador Ryan, John-Paul Sheridan, 2020-12-19 Founded in 1795 Maynooth College has a singular place in the history of the Irish Church and indeed the Catholic Church globally Its beginning was as a small seminary of thirty students and ten professors most of whom were fleeing the ravages of the French Revolution It has been the subject of riots in the streets of London and has played host to kings and popes Its buildings have created one of the loveliest of university campuses and its chapel is among the highest free standing structures in Ireland It expanded rapidly becoming a Pontifical University a constituent college of the National University of Ireland and at one time the largest seminary in world It has educated many thousands of students and led the way in many branches of the arts and sciences But beyond that for its large number of alumni found across all sectors of society internationally it is a tapestry of rich memories This book is a contribution to this rich tapestry It is a compilation of pen pictures personal reminiscences and sketches on aspects of the college s life and history The contributors have all been associated with Maynooth in many different spheres either as students or staff and in many cases both Some have offered images of their time at Maynooth others portraits of characters and personalities they encountered there These pages are part history part folk history part aide me moire For some it will be an introduction to a place they have heard about but never known For others it will be a reminder of their time in the college evoking memories of their own story and the stories of those who journeyed with them For everyone it will open up this historic center of learning and tell the tales of those who walked its Pugin designed buildings *Slave Theater in the Roman Republic* Amy Richlin, 2017-12-28 Roman comedy evolved early in the war torn 200s BCE Troupes of lower class and slave actors traveled through a militarized landscape full of displaced persons and the newly enslaved together the actors made comedy to address mixed class hybrid multilingual audiences Surveying the whole of the Plautine corpus where slaves are central figures and the extant fragments of early comedy this book is grounded in the history of slavery and integrates theories of resistant speech humor and performance Part I shows how actors joked about what people feared natal alienation beatings sexual abuse hard labor hunger poverty and how street theater forms confronted debt violence and war loss Part II catalogues the onstage expression of what people desired revenge honor free will legal personhood family marriage sex food free speech a way home through memory and manumission or escape all complicated by the actors maleness Comedy starts with anger **Remembering** Donald G. MacKay, 2019 This book summarizes the results of a revolution in the scientific understanding of memory mind and brain that began in 1953 when a twenty seven year old man underwent brain surgery to remedy life threatening epilepsy His name was Henry Molaison but until recently the general public knew him only as H M Henry s operation inadvertently destroyed his hippocampus the brain s engine for forming new memories He suffered catastrophic memory failures for the rest of his life Henry soon became the most studied amnesiac patient in the history of the world and also the most famous Dr MacKay worked with Henry for fifty years This book focuses

primarily on the lessons of the still ongoing revolution that Henry inspired for readers wishing to maintain the everyday functioning of their memory mind and brain The research done with Henry has shown how to keep memory sharp at any age and acquire ways to offset the degradation that aging and infrequent use inflict on memory It has also given scientists insights into the different types of memory for example memories of events facts skills words and visual experiences and the likelihood of forgetting each type of memory Finally it has revealed the profound importance of memory memory decline impacts even such seemingly unrelated aspects of mind as the ability to plan to comprehend to detect and correct errors to appreciate humor to perceive the visual world to imagine hypothetical events and to create novel ideas Written in an accessible style this engaging narrative combines personal vignettes into Henry s life with important new findings about memory and brain functions

Remembering - Riding Life's Waves Susan Cobbs MacKenzie, 2022-08-26 Part of a service family the author was born in South Carolina but was quickly on her journey into and around the world to include five elementary schools two junior high schools four high schools four colleges universities three husbands four children numerous cats dogs and lovers and a host of people some memorable some not *Remembering George Town East* Julie Venditto, 2010-12-28 At five years old Julianne doesn't want to move to George Town East especially when she knows she'll be separated from her best friend Still when Julianne's dad tells her that the headless people that live in her closet and chase her down the hall won't follow her to their new house she starts to look forward to the move George Town East is where Julianne will spend her childhood and adolescence in the 1970s and 1980s in this memoir she recalls a simpler time growing up there Hot summer days watching television with the family riding bicycles and going to the movies were all mainstays of daily life This was a time before computers before cell phones and when children growing up didn't have a care in the world except school summer vacations and then becoming a teenager and falling in love for the first time Join Julianne as she recalls awkward teenage moments life in a small town and a time that no longer exists in *Remembering George Town East*

Remembering Our Past David C. Rubin, 1999-02-13 This book reviews the latest research in the field of autobiographical memory *Memory in the Real World* Gillian Cohen, 1996 This fully revised and updated third edition of the highly acclaimed *Memory in the Real World* includes recent research in all areas of everyday memory Distinguished researchers have contributed new and updated material in their own areas of expertise The controversy about the value of naturalistic research as opposed to traditional laboratory methods is outlined and the two approaches are seen to have converged and become complementary rather than antagonistic The editors bring together studies on many different topics such as memory for plans and actions for names and faces for routes and maps life experiences and flashbulb memory and eyewitness memory Emphasis is also given to the role of memory in consciousness and metacognition New topics covered in this edition include life span development of memory collaborative remembering déjà vu and memory dysfunction in the real world *Memory in the Real World* will be of continuing appeal to students and researchers in the area *The Journal of Health and*

Physical Education ,1940 **Some Things We Have Remembered** Percy Melville Thornton,1912 **Self-Studies of Science Teacher Education Practices** Shawn M. Bullock,Tom Russell,2012-03-21 Part of a vital Springer series on self study practices in teaching and teacher education this collection offers a range of contributions to the topic that embody the reflections of science teacher educators who have applied self study methodology to their own professional development The material recognizes the paradox that lies between classroom science and the education of science teachers the disciplines of science are often perceived as a quest for right answers an unintentional by product of the classroom focus on right answers in student assessment in science In contrast the profession of teaching has few right answers and frequently involves the management of conflicting tensions A dilemma thus arises in science teacher education of how to shift perspectives among student teachers from reductionist to more inclusive attitudes that are open to the mercurial realities of teaching The self studies presented here are unique fresh and stimulating They include the input of a beginning science teacher as well as science teacher educators from a range of backgrounds and varying levels of experience In addition the volume presents a truly international perspective on the issues with authors hailing from five countries Providing analysis at the leading edge of education theory this collection will make fascinating reading for those teaching science as well as those teaching science teachers
